NATIONAL CRIME RECORDS BUREAU

(MINISTRY OF HOME AFFAIRS)

GOVERNMENT OF INDIA

NH-8, Mahipalpur, New Delhi-110 037

FOREWORD

It is a matter of immense pleasure for me to bring out the 20th edition of the publication Finger Print in India 2016 (since 1997).

The publication contains list of the important cases solved by CFPB as well as State Finger Print Bureaux based on both chance prints as well as document cases. The publication also contains details of all transactions including 65972 conviction slips. The Finger Print staff of the various States visited 54349 scenes of crime and developed 55501 chance prints. The State Bureaux have also examined and given opinion on 2244 document cases.

In the current edition, new chapters on analysis of finger print transactions, capacity building and executive summary have been added.

The finger print evidence in a court of law is governed by Sec. 293 Cr.Pc (Director, Finger Print Bureau declared as Government scientific expert) and Sec. 45 Indian Evidence Act. The relevant provisions of Identification of Prisoners Act 1920 which require amendments so as to enable police officers / finger print experts to take other biometrics like Palm Impressions, Iris & Retina scan, Voice Samples, Handwriting and Specimen Signatures etc. as well as take finger prints of suspects also especially in cases of terrorism, arms and drug smuggling, human trafficking and other organized crimes. It has been proposed to convert limiting factor of 1 year rigorous imprisonment into simple imprisonment. The necessary proposals to amend the Act have already been forwarded to MHA by NCRB.

The NCRB is also in the process of procurement of NAFIS which will link all the 36 States & UT head quarters and all 850 police districts and commissionerates. In due course, all the 15600 police stations will also be linked. In future, the data in NAFIS will also be linked to the CCTNS data and will serve as unique identifier for establishing the identity of the accused.

The States which don't have (Chandigarh, Dadra & Nagar Haveli, Daman & Diu and Lakshadweep) or have inadequate finger print cadre (Arunachal Pradesh, Himachal Pradesh, Jammu & Kashmir, Jharkhand, Manipur, Mizoram, Nagaland, Puducherry, Sikkim, Tripura and Uttarakhand) need to create the same / add more and fill up the posts at the earliest so that district/sub division level finger print teams are available throughout the country to assist in the scientific investigation.

The NCRB also proposes to undertake a scheme of modernization of all Finger Print Bureaux in the country and get adequate funds sanctioned from MHA.

I take this opportunity to compliment CFPB team for their sustained efforts in redesigning the annual report by addition of new material including pictures, charts and new chapters. Contribution of Shri S.P. Singh, Dy. Supdt. (FP) in bringing out this publication deserves to be placed on record. I am sure that the present edition of our annual report 'Finger Prints in India - 2016' will be found useful by all stake holders.

Suggestions, if any, are welcome.

EXECUTIVE SUMMARY

'Finger Prints in India-2016' is the annual publication of Central Finger Print Bureau (CFPB) under the aegis of National Crime Records Bureau (NCRB) which presents the annual performance reports of the Central and State/UT Finger Print Bureaux (SFPBx), including the activities, achievements, database status, trainings undertaken as well as other useful information such as relevant laws, equipments, and authoritative books all at a glance enabling the finger print experts, readers and the stake holders throughout the country to equip themselves.

Chapter-I- ACTIVITIES OF CENTRAL FINGER PRINT BUREAU

In the year 2016, CFPB has been able to deliver the desired standards by assisting in solving 07 cases received from INTERPOL, Nationalized Banks, Recruitment Agencies, Insurance companies and various State/UT Finger Print Bureaux. The bureau has been able to achieve a search slip trace percentage of 15.4 along with the examination of 121 document cases. The bureau has also been mandated to organize an annual conference of Directors of FPBx of all the States/UTs, 14th edition of which was organized at Bhopal, MP on 02-03 February, 2016 with a gathering of 94 delegates from across the nation. The bureau conducts the All India Board Examination during 19-22 November, 2016 for accrediting the appearing candidates as Finger Print Experts on being successful in the exam. In 2016, 97% of the 69 candidates cleared the exam and Ms. Ruchi Raghuvanshi from FPBx, Bhopal bagged the first position. During the 60th AIPDM held on 19-24 December, 2016 at Mysuru, Karnataka, the bureau organized the Finger Print competition in which a total of 114 candidates displayed their excellence in the theoretical and practical aspects of the FP science.

Chapter-II- ACTIVITIES OF STATE FINGER PRINT BUREAUX

Main responsibility of fingerprint expert is to develop the chance prints left by criminals at the crime scene and to match with the fingerprints of the existing criminals. During 2016, FP Experts visited 54,349 crime scenes and developed chance prints in 19,450 cases leading to 4,723 identifications. Further, FP experts also receive arrested persons fingerprint slips for providing the previous criminal history by comparing with fingerprints. Expert opinion was given on the questioned documents referred to the Fingerprint Bureau. Since the total number is very large, each state has submitted few importance cases based on the sensitivity, value of property lost/recovered, detection of series of cases etc for printing in this publication. A number of cases were still large, some has been filtered by excluding similar types of cases. This chapter consists of brief description of 72 cases.

Chapter- III- TRANSACTION ACTIVITIES OF CFPB AND SFPBx

State wise Statistics related to transactional activities such as number of FP slips received, accepted and enrolled of convicted and arrested persons, number of crime scene visited, number of chance prints developed and compared, number of document cases received and opinion given are covered in this chapter. With respect to arrested persons, Maharashtra, Madhya Pradesh and Gujarat are providing previous criminal history based on fingerprint matching. Tamil Nadu tops

the list with 484 cases of detection based on chance prints during the year 2016 followed by 297 cases in Andhra Pradesh. With respect to document cases, Uttar Pradesh is highest by giving opinion in 289 cases followed by Punjab in 233 cases. Following table shows the all India Statistics of the fingerprint transactions in States/UTs during 2016.

NUMBER OF						
	CONVICT SLIPS RECEIVED	ARRESTEE SLIPS RECEIVED	ARRESTEE SLIPS TRACED	SCENES OF CRIME VISITED	Solved based on chance prints	DOCUMENT CASES EXAMINED
TOTAL	65,972	8,41,264	48,351	54,349	4,723	2,244

Chapter- IV- ANALYSIS OF FP TRANSACTION ACTIVITIES

This chapter consists of the analysis of various finger print related transaction activities performed in States/UTs. Number of convicted Criminals during 2016 published in “Crime in India(CII)” is compared with the number of Fingerprint slips received at State Fingerprint Bureau which clearly indicates that FPBx have to initiate remedial measures by asking Police Stations to furnish FP slips of all convicted criminals. Cases solved based on the chance prints lifted from scene of crime is significant only in Tamil Nadu, Andhra Pradesh, Kerala, Karnataka, Telangana and in remaining States, the figure is very minimum. Maharashtra, Madhya Pradesh, Gujarat, Karnataka, Rajasthan are providing the previous criminal history by matching arrested persons finger prints in significant number of cases. Large number of questioned documents were examined in Uttar Pradesh, Punjab, Rajasthan, Andhra Pradesh, Haryana, Tamil Nadu, Maharashtra.

Chapter- V- CAPACITY BUILDING

This chapter consists of the information pertaining to Capacity Building and various training programs conducted during the calendar year. CFPB with assistance of NCRB organizes a number training/refresher courses for police officers/staff of FPBx from India as well as from foreign countries.

	(A) Number of		(B) Number of	
	FOREIGN NATIONALS TRAINED AT CFPB	INDIAN NATIONALS TRAINED AT CFPB	OWN STAFF TRAINED AT SFPBx	OTHER OFFICIALS TRAINED AT SFPBx
TOTAL	88	79	71	34,798

ANNEXURES:

Useful information like Pioneers of fingerprint Science, laws related to fingerprints in India, Recommendation of XVII All India FP conference, Staff posted in various finger print Bureaux, history of Automation of fingerprints, availability of different type of equipment in each State/UT, AIBE toppers, some good books on finger print science, Contact details of State FBX are covered in Annexures.

METHODOLOGY OF DATA COLLECTION AND CONTENT FORMATION

The Bureau brings about its annual report entitled 'Finger Prints in India', which is a collection of statistical data on the performance and activities of State Finger Print Bureaux, CFPB, and other allied matters related to the Bureaux.

A. DATA COLLECTION AND COMPILATION PROCESS

The process of publication of the annual report i.e. 'Finger Print in India' invariably consists of the following steps-

- i. At the end of every calendar year, the CFPB/NCRB sends out bilingual requisition letters addressing all the Finger Print Bureaux of the country, along with the Annual statistical Report hereinafter referred to as ASR forms.
- ii. The ASR form is a standardized and detailed Form which includes information ranging from the crime scene to the prison data. It contains many Sub fields such as
 - a. Total No. of ten-digit slips (convicted and arrested) throughout the year with the details of the Authority ordering the Collection of Fingerprints.
 - b. Number of slips returned as defective / removed as duplicate.
 - c. Total number Chance prints developed, compared, identified and pending at the end of the year
 - d. Number of Absconder & death reports received, traced and identified.
 - e. Availability and operational status of AFIS at the SFPBx, Number slips entered, deleted, searched, Traced and the size of the database at the end of the Year are recorded.
 - f. Details of Fingerprint Training courses organized to the Officials with duration, syllabus and feedback along with the Sanctioned & actual staff Strength, Buildings, Equipment's & the allotted funds of both SFPBx and DFPBx (If any).
 - g. Highlighting an important cases solved through Finger print Identification, along with the details regarding the Bureau its main facts and Milestones & suggestions for future developments.
- iii. On receiving data, CFPB officials authenticate the data by comparing the statistics of the last 3 years and take note of any discrepancy therein and compile the data received from various State FPBx which is further segregated into preplanned chapters.
- iv. The draft copy is corrected/validated by CFPB officials followed by Deputy Director (C-III) and Joint Director and on approval of Director, NCRB manuscript is sent for printing.

B. CHANGES/IMPROVEMENTS IN CURRENT PUBLICATION (2016)

- Executive summary.
- Methodology of data collection and content formation.
- Cases of significant impact pertaining to the field of Fingerprint science have been added

from all over the country with the relevant photographs.

- An analysis of the databases of the Central Finger Print Bureau versus the leading databases of various countries with factors such a population and conviction rate has been incorporated.
- The analytical representation of significant transactional details of the states has also been included in the publication.
- Capacity Building has been included as a separate chapter.
- Important court verdicts of the honourable Supreme Court citing the importance of finger print evidence in criminal justice system have also been included.

ACTIVITIES OF CFPB

CHAPTER-I

ACTIVITIES OF CFPB

The CFPB is an apex body in the country which co-ordinates, guides, monitors and provides technical support to the State Finger Print Bureaux, as well as investigating agencies and international organizations like INTERPOL, in all matters related to the Finger Print Science.

Central Finger Print Bureau (CFPB) maintains the records of 10-digit fingerprint slips of persons convicted under various laws as per OM No. 115/POLICE (L)/ 55 (8) Intelligence Bureau, Ministry of Home Affairs, Government of India, Dated 19.02.1955, on the subject of 'Establishment of C.F.P.B and instructions to be followed by State Bureaux and District Police officers in sending F.P. record slips'. CFPB has the repository of 10, 81,197 digitized finger print slips which tantamount to over 100 million (or one crore finger impressions). CFPB plays an instrumental role in facilitating and responding to the search queries received from States/UTs Bureaux as well as from INTERPOL, through Central Bureau of Investigation (CBI). The Bureau imparts training in various aspects of Finger print science to police and non-police personnel coming from of States/UTs of India, as well as those from abroad as per Indian Technical and Economic Cooperation (ITEC) and Special Commonwealth African Assistance Programme (SCAAP) of Ministry of External Affairs. CFPB is also mandated to conduct annual All India Board Examination (AIBE) for accreditation of the finger print experts of India. Another major event, the All India Conference of Directors of Finger Print Bureaux of States/UTs, is structured and conducted by CFPB (NCRB) to deliberate on recent trends in the field of finger print science and other priority issues concerning finger print fraternity of the nation.

A. CFPB, New Delhi

The CFPB /NCRB, in the course of its day to day work, have earned many laurels to its credit, Interpol requests, chance print identifications, F.P. Document cases and Identification of Unidentified Dead Bodies (UDBs).Some of the important cases solved by CFPB experts in the year 2016 are as follows:

1. INTERPOL CASES

Request for Search from New Zealand: CFPB Case Reference No. 235/12.02.2016 Interpol search slip from New Zealand Police vide Case Reference No. A&SP/New Zealand/fingerprint/2016/454 Dt. 12-02-2016 send by Interpol Wing, CBI-NCB, India was traced against the F.P. slip bearing PID No. 90474919 present in CFPB data base, of one Arvinder Pal Singh S/o Malkeet Singh R/o H. No. 53, Professor Enclave, opposite Punjabi University, Patiala, Punjab.

2. F.P. DOCUMENT CASES RECEIVED FROM GOVERNMENT & PSUs IN INDIA

i. Cases received from Punjab National Bank regarding impersonation by candidates through their finger print impression on attendance sheets-2016.

Different documents bearing the thumb impressions affixed by the candidate during different stages of examination were sent for fingerprint examination. In the year 2016, CFPB gave opinion on 21 number of document cases received from Chief Manager, Punjab National Bank Human Resources Management Division, HO: 7, Bhikaji Cama Place, New Delhi-110607 which were sent for fingerprint examination and furnishing expert opinion thereon

with respect to different candidates. Each case was individually sent with its own set of enclosures for examination of finger prints. Despite the prints were taken with stamp pad ink and that too by non-professionals depicting very low quality of fingerprints, the experts at CFPB, put in their best professional competence and could give opinion on mismatched case of prints of 16 candidates out of 21 cases received from bank.

ii. Document Case no. 42/2016, from Tripura

This civil matter case was received from Hon'ble Civil Judge (Jr. Division) in the office of the District and Sessions Judge, Dharmanagar (North Tripura). The question by the forwarding authority was that whether the finger impressions preserved in book no. 12 and 16 of the year 1969 at sl no. 5813 and 7931 are identical or not. The plaintiffs also produced another registered sale deed bearing no. 1-7606 dated 29.11.1969, which was marked as exhibit 2.

The case was done on priority basis and report of the case was sent in a single day. The prints were thoroughly examined and opinion was formed that all the prints belonged to the single digit thus aiding the court in coming to conclusion regarding a very old case in which the documents for examination dated back to the year 1969.

iii. Forgery in the recruitment of Examination of Constables -CFPB Document Case No. 72/2016

Document case number 72/2016 received from CAPF presents a case of impersonation in the recruitment examination of constables. The referred case is one of the many suspected cases sent by CAPF for examination of fingerprints for verification purposes. The Authorities taking note of the gravity of the situation sought the help of Central Finger Print Bureau. The fingerprints of suspected candidate taken during different stages of examination were sent for examination & comparison. After intense probe it was discovered that indeed there was impersonation and in the said case the questioned print affixed on the answer sheet of the written examination was different from the specimen prints and prints affixed at different other stages of examination.

iv. Post Office Case No. 41/2016

This case was received from Superintendent of post office, Phulbani (O) Division, Phulbani-762001, in which there was complaint of withdrawal from post office account of Smt. Raimati Digal. The account holder claimed that she had never withdrawn the amount as shown in the passbook. In examination of fingerprints, left thumb impressions on SB withdrawal voucher were compared with specimen prints of the account holder. Despite very poor quality of fingerprints, experts at CFPB could give the opinion that the two sets of impressions were not identical. Thus, CFPB again came to the aid of post office authorities in determining fraudulent withdrawal.

3. IDENTIFICATION OF UNKNOWN DEAD BODIES

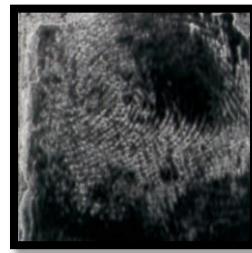

i. Identification of Unknown Dead Body found in Uttarakhand

An unknown Dead body vide G.No.15/13.30 PM No.111/15 from Uttarakhand was traced against the Record Slip of Khalid@Bidda S/o Jamil Ahmed R/O Khalakheda P.S. Jhabrera, Haridwar, Uttarakhand. The CFPB registration No. for the slip was UK/20/2016, and was given PID No. 904746644 for AFIS search.

4. CHANCE PRINT / SOC PRINT IDENTIFICATION

i. CFPB FACTS Case Sr. No. 01/16:

The finger print Experts of CFPB have successfully identified a culprit with the help of chance Prints developed at scene of crime in Cr. No. 06/16 U/S 357,380 IPC P.S. Korutla, Karimnagar, Telangana. The Five chance prints received were thoroughly scrutinized, scanned, meticulously edited and processed in FACTS. The Culprit was successfully identified as Lavkush S/o Prabhu Bhosle R/o Naigonwadi. The slip was allotted PID No. 90250951395 for search in FACTS.

SOC Chance prints Two of Five developed with White Powder

B. CFPB UNIT, KOLKATA

The Kolkata unit of CFPB has also been continuously involved in examination of chance prints and document cases as well as in capacity building by undertaking a number of training courses. Some of such instances have been described below:

1. During the year 2016, a number of document cases were received from various authorities such as Banks, Railways, CBI, Courts, Coal mines provident fund etc. , in which the experts at the Kolkata unit have duly given their opinion in the court of law.
2. The staff posted at CFPB unit, Kolkata imparted 18 week training (proficiency course in Finger Print science) twice in the year 2016 w.e.f 04.04.2016 to 05.08.2016 and 29.08.2016 to 30.12.2016. The police officers from different states have attended and completed the course successfully.
3. The Dy.S.P. (FP) posted at the Kolkata unit have been delivering lectures at CDTI, Kolkata on topics related to FP science.

1. CASES SOLVED BY CFPB

i. CFPB Kolkata case No. 40/2016

The case was received from principal, LIC, ZTC, Kolkata on 29.12.2016. Digital biometric data of one candidate for the post of Assistant Administrative Officer (Generalist) in LIC-29 batch was recorded during his online examination. Later on at the time of the interview, his biometric data was verified by IBPS which remained matched. But in spite of more than 200 attempts by the LIC authority at the time of his training, the

biometric data did not match with the data recorded earlier. The case was sent to CFPB, Kolkata unit and after thoroughly examining, it was confirmed that the biometric data taken at the time of online examination and interview was identical with the biometric data taken at the time of his training. Expert opinion has been sent to LICI accordingly.

ii. CFPB, Kolkata Case No. 06/2016:

The case was received from Supdt. Of Police, CBI, Bhubaneswar. The case was registered by CBI on the basis of reliable source information to the effect that six (6) Officers/officials of Punjab National bank and other three private persons by abusing their official power and position and on the basis of forged documents opened several fake SB A/cs and misappropriated a sum of Rs. 1, 36, 19,000/- loss to PNB. The case was sent to this unit with the total of 1634 questioned/specimen finger prints of accused persons. During the course of examination it was found that the questioned prints appeared on the 46 paid vouchers was given by using Leucoplast/band aid in the core area. This office detected some partial ridges along the surface area of the prints in question and on the basis of that it was proved that the specimen and questioned prints were identical.

III. OTHER ACTIVITIES AND EVENTS BY CFPB

1. XVII ALL INDIA CONFERENCE FOR DIRECTORS OF FINGER PRINT BUREAUX HELD AT BHOPAL, MP (2nd & 3rd FEBRUARY, 2016)

1. The XVII All India Conference of Directors of Finger Prints Bureaux of States/UTs was organized on 2nd & 3rd February 2016, by Madhya Pradesh Police in association with National Crime Records Bureau (NCRB) under the Chairpersonship of Smt. Archana Ramasundaram, IPS, Director General, NCRB, New Delhi.
2. A total of 94 delegates from Finger Print Bureaux of the States/UTs, CFSL-CBI, Forensic, Police Science Universities, and other Government agencies including officers from Central Finger Print Bureau /NCRB & Madhya Pradesh Police participated in the Conference.
3. Justice P.P. Naolekar, Lokayukta, Madhya Pradesh, the Chief Guest inaugurated the Conference.

INAUGURAL SESSION

Welcome Address

DG, NCRB, heartily welcomed Hon'ble Justice P.P. Naolekar, Lokayukta, Madhya Pradesh and thanked him for agreeing to inaugurate the XVII All India Conference of Directors of Finger Print Bureaux of the country. She also welcomed Shri Surendra Singh Director General of Police, Madhya Pradesh and officers of Madhya Pradesh Police and the delegates from different FPBs to this Conference.

Fingerprint evidence is generally considered to be highly reliable by investigators, jurists, and commoners alike as it is fool-proof, user friendly and not to speak, most cost effective amongst all the forensic tools. DG, NCRB informed the house about the newly instituted awards of excellence to be given away to three prominent achievers across the

fingerprint fraternity, and the AIBE toppers also to be given cash prizes. She desired to make CFPB, which is nodal agency for all fingerprint works in the country, as centre of excellence and national repository of Fingerprint data.

Address by Chief Guest Justice P.P. Naolekar, Lokayukta, Madhya Pradesh

Inaugurating the conference, Chief guest honourable Justice P.P. Naolekar, Lokayukta, Madhya Pradesh welcomed DGP, Madhya Pradesh, DG, NCRB and all delegates.

He said that important issues relating to Finger print Science, development of latent print technology, detection of Crime and Criminal, usage of this science in identification of persons and deterrence to crime will be discussed in the Conference to evolve solutions for matters of common national importance.

Chief Guest Justice P.P. Naolekar addressing the delegates on the day of opening of the conference

Justice P.P. Naolekar, dealt in detail about the provision of relevant sections of 'Identification of Prisoners' Act 1920" and the need of amendment in current scenario as police department are facing new challenges in terms of technology and crimes. He said that FP Bureaux should take priority on removing non-convict person from their database, post acquittal, as per spirit of law.

Valedictory address

Chief Guest, the Honorable Home Minister of Madhya Pradesh Shri Babulal Gaur expressed with pleasure that XVII All Indian Conference of Directors of Finger Print Bureaux is a special day and he considered finger print a very serious and important subject. He talked

about Sankhs, Chakras and Padmas and correlated the mythological knowledge to the modern finger print science. The chief guest stressed that lot on F.P. Research and need for setting up of a University for the purpose

2. ALL INDIA BOARD FOR THE EXAMINATION OF F.P. EXPERTS (AIBE)-2016

Annual All India Board for Examination for Finger Print Experts (AIBE) was conducted at New Delhi from 19th to 22nd November, 2016. All 69 (Sixty nine) candidates whose nominations were received from the States/UTs were found to be eligible for appearing in AIBE-2016. A total of 02 (two) could not score minimum marks and failed in the examination. Ms. Ruchi Raghuvanshi, FPBx, SCRB, Bhopal, Madhya Pradesh secured first position in AIBE-2016. Second position went to Sachin Subhash Wategaonkar, FPBx, CID, Pune, Maharashtra. Third position was grabbed by Basavoju Vinay Kumar of FPBx, CID, Telangana.

The AIBE-2016 Board comprised of Sh. Biswajit Roy, Dy. Supdt. (fingerprint) & I/c, CFPB, Ex-officio Chairman, and two members, Shrir H. Sangchungnunga, Director, FPBx, Mizoram, and Shri Rahul Sharma, Dy. Supdt. Police, FPBx, Himachal Pradesh. The All India Board for the Examination of Finger Print Experts -2016.

3. FINGER PRINT COMPETITION AT 60TH ALL INDIA POLICE DUTY MEET (AIPDM) AT MYSURU, KARNATAKA FROM 19TH - 24TH DECEMBER, 2016

The 60th All India Police Meet-2016 was inaugurated on December 19, 2016, by Governor of Karnataka Shri Vajubhai Vala (Chief guest) in the presence of Home Minister Shri G. Parameshwara, Director General of Police Shri Om Prakash, IPS and other dignitaries and 1250 officers belonging to different States, UTs, CISF, BSF, SSB, CRPF, NSG and RPF participated in the events. The various events held at the annual meet included scientific aids to investigation, computer awareness, police photography, videography, anti-sabotage check and police dog competition.

The Finger Print test in Scientific Aids to Investigation of Crime (Practical and viva-voce) for 60th All India Police Duty Meet-2016 was held on 21st December 2016 at Karnataka Police Academy (KSA), Mysuru, Karnataka. A total 114 (One hundred and fourteen only) candidates appeared for the test. The F.P. Test was evaluated by the team of Judges from CFPB, NCRB.

Entire process of test, including practical and viva-voce was conducted in an orderly and peaceful manner. The candidate bearing chest no. 51, 110 and 263 secured I, II, and III positions respectively. The chest numbers were found to be of Ms. R. S. Mulla from Maharashtra, Mr. K.S. Rajesh, Karnataka, Mr. K.S. Ananda, Karnataka respectively. After successful completion of the events, DGP Shri Om Prakash, IPS distributed the medals to the winner of different events on 23.12.2016. The Secretary (Security) MHA, Shri Radha Krishna Kini, IPS also attended the event.

Picture-3: The AIBE-2016 Board comprised of Sh. Biswajit Roy, Dy. Supdt. (Fingerprint) & I/c, CFPB, Shri H. Sangchungnunga, Director, FPBx, Mizoram, and Shri Rahul Sharma, Dy. Supdt. Police, FPBx, Himachal Pradesh.

Picture-4: Dr. Ish Kumar, IPS, Director, NCRB, Punjab and Haryana High Court Justice Suryakant, and Shri K. P. Singh, IPS, DGP, Haryana presenting Ms. Ruchi Raghuvanshi, FPBx, SCRB, Bhopal, Madhya Pradesh with the trophy on her being the topper of AIBE-2016.

ACTIVITIES OF STATE FINGER PRINT BUREAUX

CHAPTER-II

ACTIVITIES OF STATE FINGER PRINT BUREAUX

Some of cases solved where chance prints clues found from the scene of crime or on documents played a pivotal role in solving the crime and subsequent recovery of properties are highlighted below:

ANDHRA PRADESH

1. P.S. V Town, District Nellore, Cr/FIR. No. 366/16 Dt. 04.09.2016 U/s 457,380 IPC

The Suspect slip of Teli Nuri S/o Hameed R/o Delhi was received from S.H.O. Kavali Rural PS for comparison with the Un-identified Chance Prints. On Comparison, with the acquired Prints of the suspects to the chance prints marked A, B & C related with Cr. No. 366/2016 , registered at Town PS, Nellore, Nellore District, were said to identical with said suspect fingerprint Slip. Loss of property in this case was Rs.12, 98,000/-. Based on the information given by the fingerprint Expert the offender was arrested on 26.12.2016. This was only the clue which led to the detection of the case and proving the accused in the court of law.

2. P.S. II Town CCS, Kakinada, District East Godavari, Cr/FIR. No. 52/2016, Dt.22.04.2016 U/s 457,380 IPC.

ARUNACHAL PRADESH

1. P.S. SIC(VIG), Cr./FIR No. 01/10 U/s 120(B)1409/468/471 IPC R/W sec. 13(1) & 13(2) Act, 1988.

The brief facts of the case are that a sum of Rs. 49,50,000/- was sanctioned for the year 2007-2008 under Hariyali Scheme against certain development works for Nari area of Arunachal Pradesh and the public money was misappropriated by framing of incorrect documents. A total number of 42 thumb impressions available on muster roll were received carefully examined manually as well as with AFIS. After examination it is found that the public money was misappropriated by few persons putting thumb impression single handedly and fraudulently. Accordingly, the opinion into the case was submitted in the court.

2. P.S. Itanagar, Cr./FIR No. 76/2013 U/s 457/380/511 IPC.

One sealed packet of exhibits containing 11(eleven) no. of latent prints developed and lifted by IO from the SOC and 4(four) nos. fingerprints slips of the suspected accused person were received in the office of FPBx On 17/08/2013 for examination and comparison in connection with Itanagar PS case no. 76/2013 U/s 457/380/511 IPC. After examining the Exhibits, It was found that one of the chance print marked as exhibits 'X' matched with the Fingerprint slips of one of the accuser's right hand thumb impression of Shri Bamnag Thahng. Accordingly the case was charge sheet in the court.

3. P.S. DRJ, Cr./FIR No. 81/10 U/s 408/420/468/34 IPC.

Casual Labors Pay bill containing finger prints seized from the BDO Office Daporijo during investigation by the IO & marked pay bills as EX-I and Finger prints collected from the suspected person during investigation marked as Ex- II(A) & II(B) were received at the Finger print Bureau PTC Banderdewa for examination and comparison. A total 1795 Nos. of fingerprints were found out of which a total of 1747 nos. of fingerprints found to be blurred, faded, and indistinct or partial/fragmentary which do not contain sufficient number of ridge characteristics and not fit for examination and comparison. After carefully examination of the Exhibits, It was found that only 47 nos. questioned fingerprints and one specimen print matched with each-other and found to be identical. Accordingly the case was charge sheet in the court.

ASSAM

1. P.S. Jorhat, FIR No. 447/16, U/s 447, 436 IPC

On 03.03.2016 night the Chenimary Sankardev Academy Examination Strong room was set on fire and H.S.L.C examination answer sheets were badly damaged. The scene of crime was fully disturbed by public, and inadvertently by fire brigade in performing their duty to douse the fire. But finger print expert from the Bureau detected and developed some chance prints on a broken A.C. sheet recovered from the Strong room ceiling. The chance print led to identify the culprit involved in the crime.

2. P.S. Bharalumukh, District Guwahati, FIR No. 05/16 Dated 04.01.2016, U/s 120(B)/302/34 IPC

On 04.01.2016 receiving the complaint, on the same day finger print expert visited the scene of crime and developed chance prints on knife and painted wooden door surface using Grey powder. The chance prints were compared with the specimen finger print slips of suspected criminals and led to identify the criminal.

BIHAR

1. P.S. Kotwali, District Patna, Dated 05.11.2016

On the night of 5-6 Nov, 2016 some criminals entered the house of Saurabh Kumar located in Kotwali PS of Patna District. Criminals murdered mother & father of Saurabh Kumar and decamped with jewelleryes & other costly articles. Finger print experts team visited the S.O.C. collected six chance prints out of which one chance print developed on the almirah tallied with Left Thumb impression of suspect Jitendra Yadav. Thus fingerprint helped prove the identity of the criminal.

CHANDIGARH

1. P.S. 36. , District Chandigarh, Cr. /Fir No. 326/2014 Dated 15.11.2014 U/s 302,381,120-B, 419, 411, 34 IPC

No. of cases in which Fingerprint Experts deposited before court	12	13	19

33. CHANDIGARH

The UT, Chandigarh has no independent Finger Print Bureau. The record of Fingerprints of UT, Chandigarh is maintained separately by Finger Print Bureau, Phillaur, District Jalandhar, Punjab. The annual report of FPBx, Phillaur also includes the work of Union Territory of Chandigarh.

34. DADRA & NAGAR HAVELI

There is no Finger Print Bureau established in the Union Territory of Dadra & Nagar Haveli.

35. DAMAN & DIU

At present no Finger Print Bureau has been established or functioning in the Union Territory of Daman & Diu.

36. LAKSHADWEEP

The Union Territory of Lakshadweep has no Finger Print Bureau, Unit or cell. AFIS too is not available.

COMPARATIVE STATEMENT ON PERFORMANCE OF STATE FINGER PRINT BUREAUX

10-DIGIT FINGER PRINT RECORD SLIPS: Ten digit finger print slips of criminals convicted for certain specified offences are prepared with name, parentage, address and details of convictions recorded on them, to be maintained as permanent record in the Finger Print Bureaux. These slips are classified and recorded in such a manner that a duplicate slip if available in record can be retrieved.

10-DIGIT FINGER PRINT SEARCH SLIPS: The recorded slips are useful in establishing the identity and proving the previous final history of persons arrested during the investigation of crime by a reference of these slips on record, known as search. Proof of previous conviction is necessary for enhanced punishment on subsequent convictions u/s 75 IPC. Criminals absconding after committing crimes or are wanted for specific offences are often traced with the help of their finger print slips during the process of search. These Finger print search slips are also of immense help in establishing the identity of dead bodies, thus developing leads and establishing motives; and are usually the first step in leading to the solution of a crime.

SCENE OF CRIME: One of the most important contributions sciences has made in the investigation of crime and administration of justice is the development of chance prints left behind by criminals at the scenes of crime and their identification. Despite all precautions, these prints are invariably left behind by criminals at the scene of crimes, or on crime articles. As these prints come directly from the body of a person, their development and identification help to establish his physical presence at the scene of crime. They, thus serve as a valuable connecting link between the crime and the criminal. A fragment of a print found at the scene of crime or on a crime article as long as it is inconsistent with the innocence is considered sufficient to convict a person for murder and sentence him to death.

ANALYSIS OF FP TRANSACTION ACTIVITIES

CHAPTER-IV

ANALYSIS OF FP TRANSACTION ACTIVITIES

Fingerprint science has evolved to be an indispensable part of not only the criminal justice system, but also the governance in countries around the world. Worldwide scientific peer groups are working along in order to utilize the science of fingerprints in as many ways as possible. This chapter deals with the analysis of cumulative factors such as conviction rate, population of the states, reasons of discrepancies in the data provided and an inter se comparison of data procured from the state finger print bureaux along with the depiction of major activities such as record slips, search slips, document cases and chance prints at a glance.

The Following table provides Comparative statement of number of record slips received during the year 2016, the persons convicted in the year under IPC and SLL crimes and the population of the States:

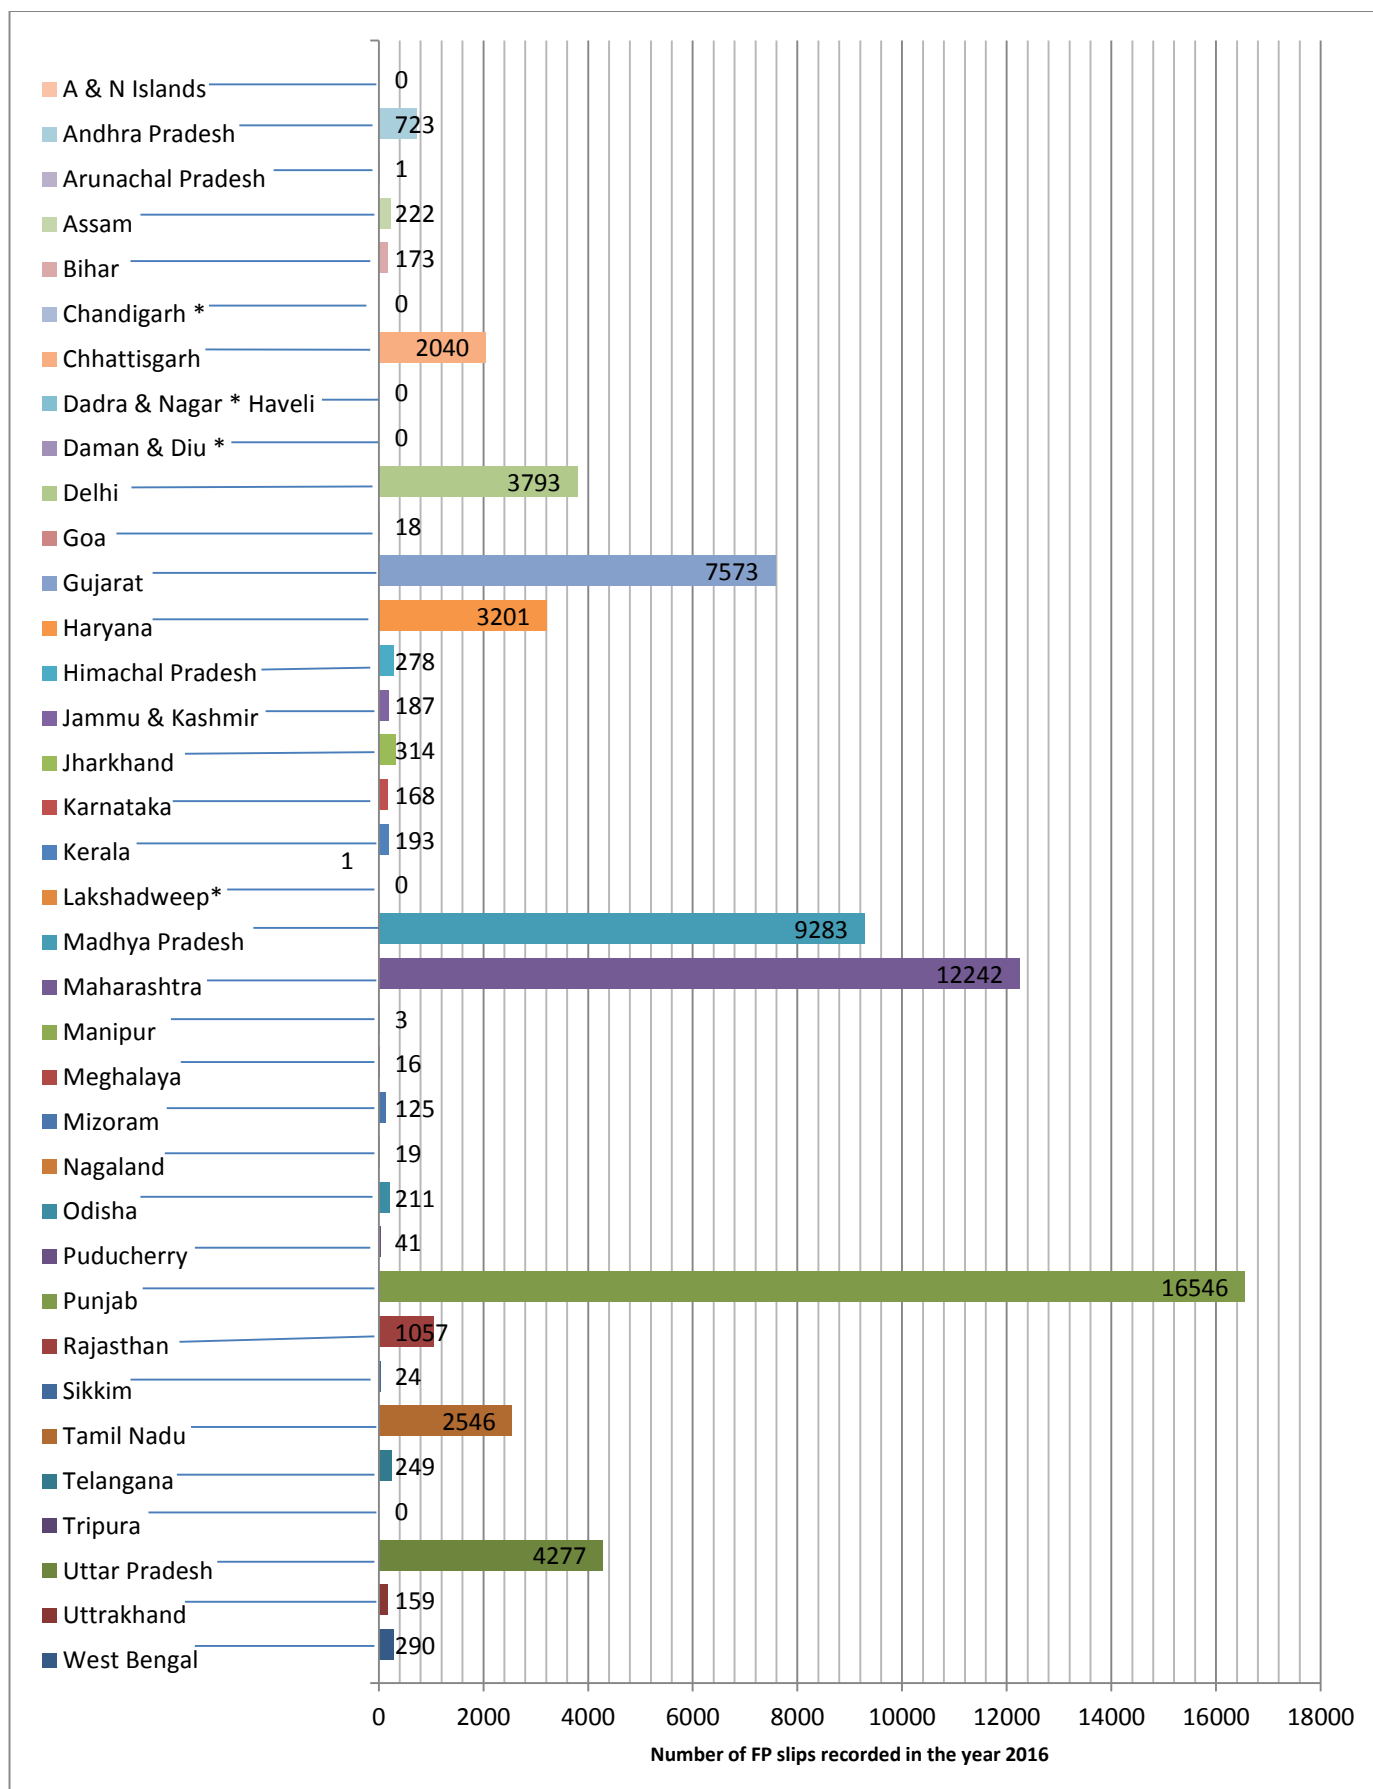

India/ State/Union Territory	Persons Convicted			No. of Record Slips
	IPC	SLL	Total (IPC+SLL)	
Andhra Pradesh	19330	29451	49381	723
Arunachal Pradesh	128	9	137	1
Assam	3068	153	3221	222
Bihar	10561	2043	12604	173

Graph No.1. NUMBER OF FP RECORD (CONVICTION) SLIPS RECORDED IN THE YEAR 2016 (STATE WISE)

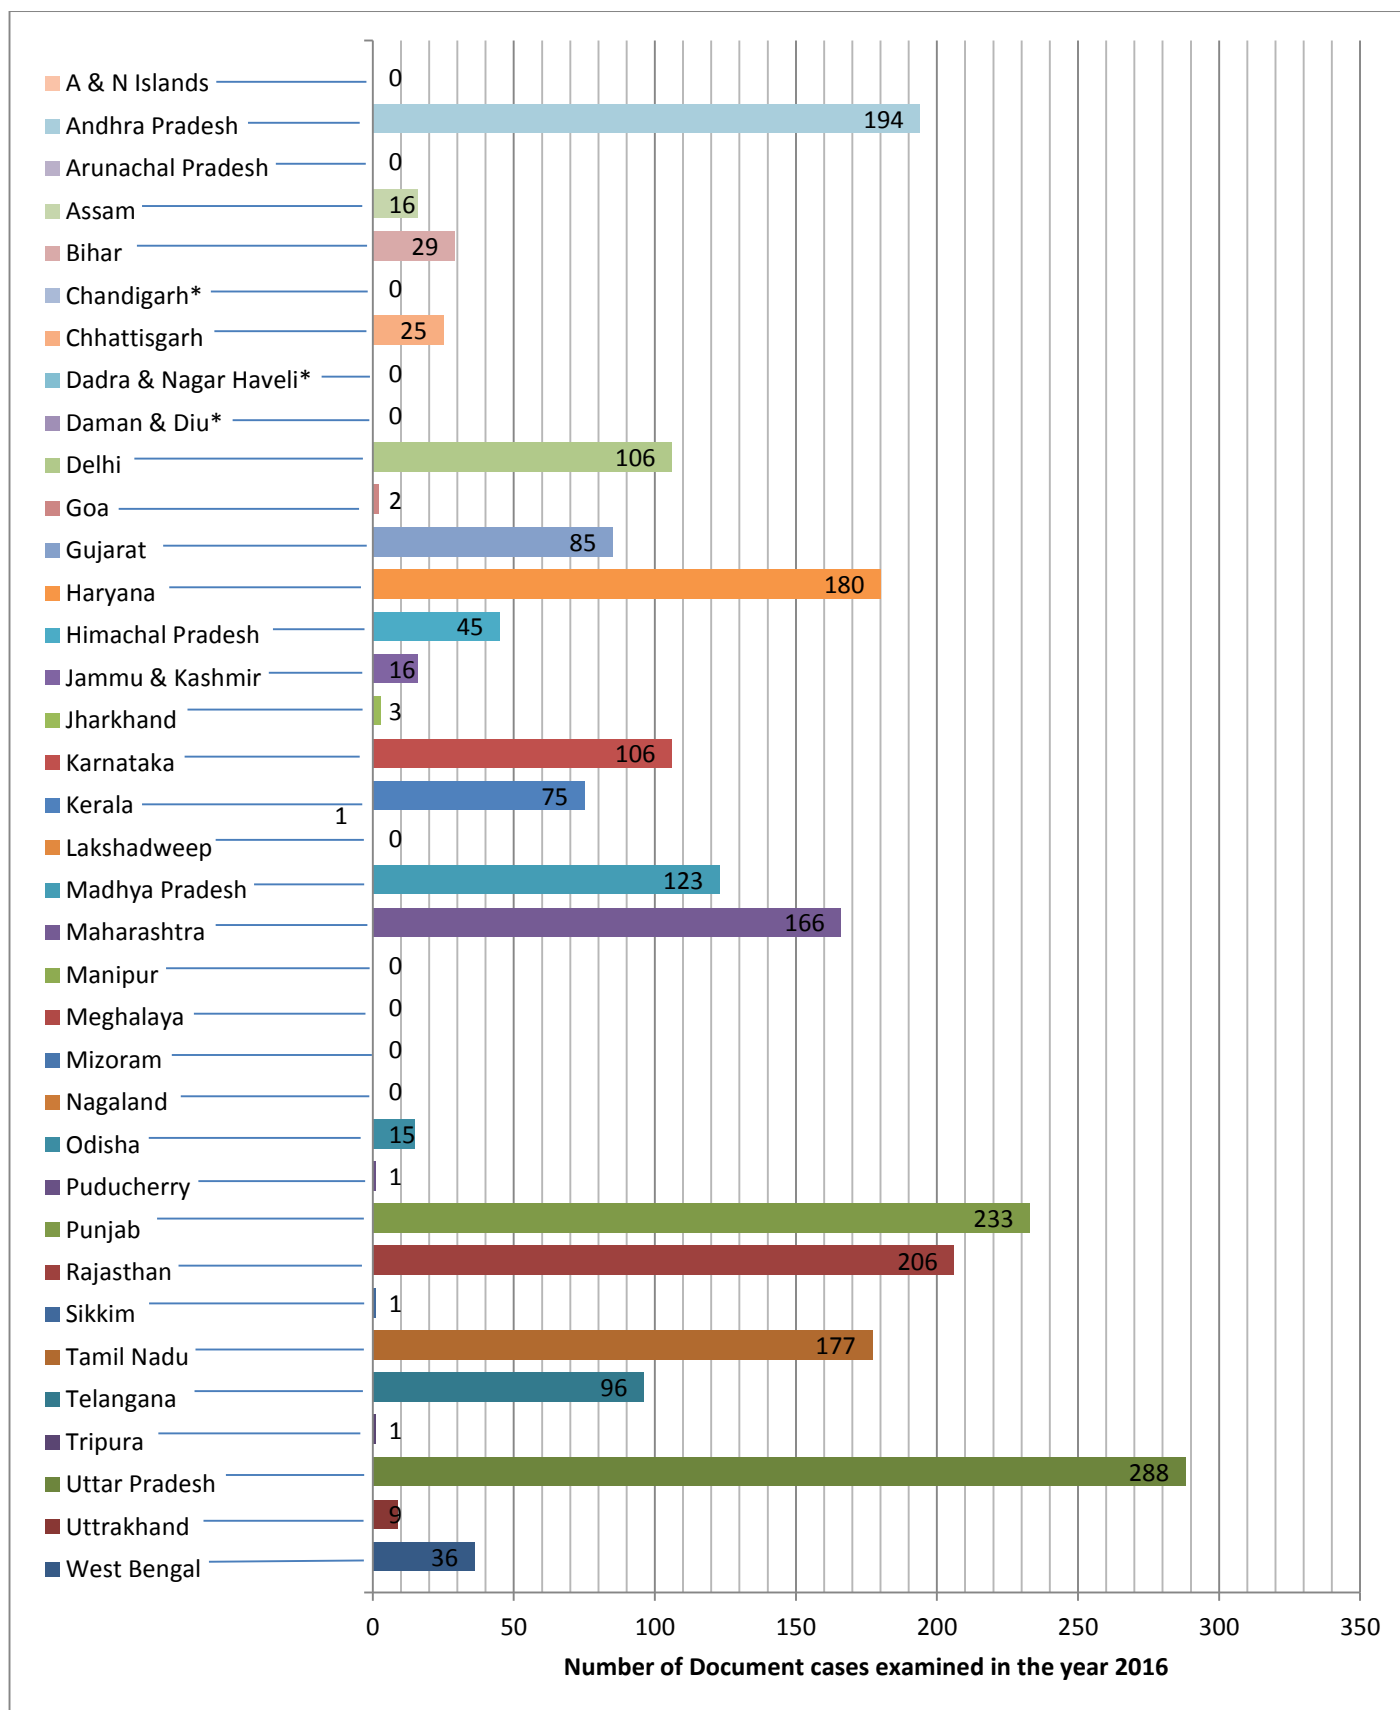

Graph No. 2:- NUMBER OF FP SEARCH (ARRESTEE) SLIPS RECORDED IN THE YEAR 2016 (STATE WISE)

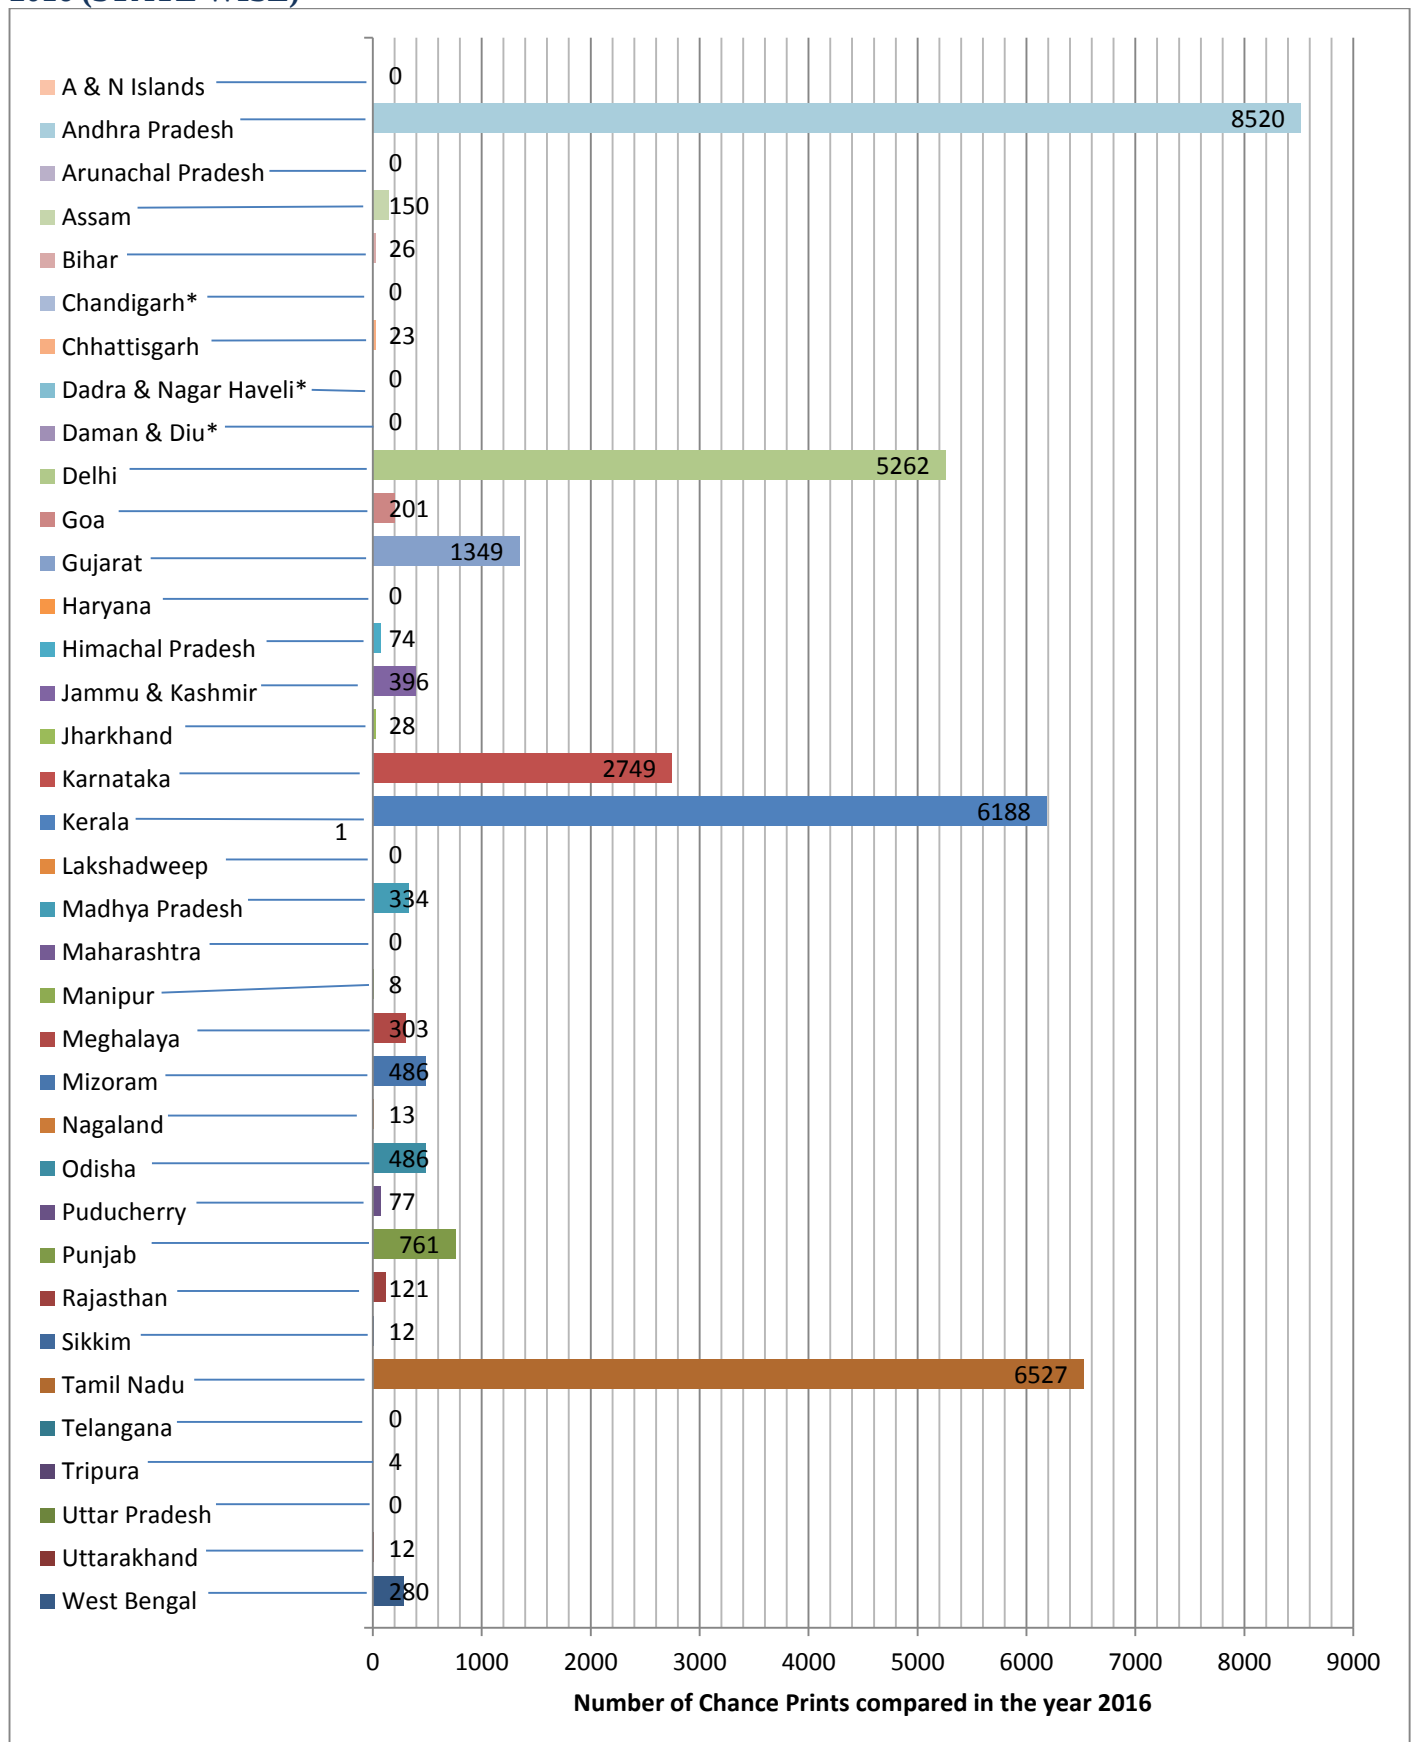

**Graph No. 3:- NUMBER OF DOCUMENT CASES EXAMINED IN THE YEAR 2016
(STATE WISE)**

Graph No. 4:- NUMBER OF NUMBER OF CHANCE PRINTS COMPARED IN THE YEAR 2016 (STATE WISE)

As depicted in Graph No. 1-

The disparity between the number of the persons convicted and the number of FP (conviction) slips recorded / available in CFPB which amounts to a total difference of **19, 94,850** which might raise questions as to how efficient our criminal justice system is. However, before we reach to any conclusion about the said gap between number of the persons convicted and the number of FP (conviction) slips recorded, we need to understand the mandate of CFPB as provided in CFPB Work Manual (approved by MHA, Govt. of India) the that governs the authority for storing / keeping slips of convicted persons. as per CFPB Mandate approved as per the Manual.

As per OM (which is a part of the CFPB Manual) No. 115/POLICE (L)/ 55 (8) Intelligence Bureau, Ministry of Home Affairs, Government of India, Dated 19.02.1955, on the subject of 'Establishment of C.F.P.B and instructions to be followed by State Bureaux and District Police officers in sending F.P. record slips', mentions about the G.O. No. 37/223/55-piii Dated 5.12.55, which incorporates the procedure to be adopted for taking finger impressions of all persons convicted of any offence mentioned in the **schedule of offences** as mentioned in **Annexure II**. The schedule of offences describes various acts and provisions such as **"All persons convicted of offences under chapter XII to XVII IPC which are punishable with rigorous imprisonment for a term of one year or more"**, which empower the central and state finger print bureaux to maintain FP record slips of convicted individuals.

However, the statistics for the number of persons convicted has been taken from another publication of NCRB i.e. **"Crime in India"**, which incorporates a different criteria for calculating the total number of convicted persons in a calendar year. All the offences mentioned in the **IPC and SLL** vary greatly in the quantum of punishment. Moreover, it depends upon the court of law in awarding the punishment which may fall in a variable range. And the point to be noted here is that all the offences mentioned in the **Laws of the Land** do not necessarily constitute a punishment of a year or more. Some may be punishable with an imprisonment from a number of weeks to months whereas some may constitute of only a sum to be paid as fine. Therefore, as per the OM mentioned above, not all convicted persons are liable to get their ten digit fingerprints recorded, which is the utmost cause of the huge gap as mentioned in Para 1, between the number of the persons convicted and the number of FP (conviction) slips recorded, as mentioned in table on page no. 79-80.

As depicted in Graph No. 2-

Some of the states depict the number of slips recorded as Zero. This is due to the fact that some of the states/UTs such as A & N Islands, Bihar, Chandigarh, D & N Haveli, Daman & Diu and Lakshadweep do not have AFIS system yet. The other states such as Assam, Chhattisgarh, J & K, Meghalaya and Sikkim do posses AFIS, but are presently non functional as reported by the respective state/UT's in the ASR forms forwarded to the CFPB.

The Following inferences could be drawn from the analysis of the above graph:

1. The NCT of Delhi has searched a mere figure of 23921 slips despite of being a highly populated state.
2. Madhya Pradesh and Maharashtra have the highest number of search slips. However, due to being highly populated states, even such numbers do not form a good percentage.
3. Majority of the states are lagging behind with a total difference of 42,99,278 in terms of the ten digit slips searched in the year 2016 as compared to the crime incidences as reported in the publication 'Crime in India- 2016'.

As depicted in Graph No. 3-

1. The north eastern states have not received any document case in the year 2016.
2. The number of document cases received in larger states like Andhra Pradesh, Haryana, Tamil Nadu, Maharashtra, Punjab and Uttar Pradesh as compared to other states with a smaller geographical area and population.

As depicted in Graph No. 4-

1. South Indian states such as Andhra Pradesh, Kerala and Tamilnadu have excelled in the category of comparison of chance prints which depicts the significance these states give to the fingerprint evidence.
2. Delhi has also compared a large number of chance prints as compared to other states with a higher population.

CAPACITY BUILDING

CHAPTER-V

CAPACITY BUILDING

TRAINING AND CAPACITY BUILDING IN FINGERPRINT SCIENCE AT CFPB/NCRB, NEW DELHI

One of the objectives of NCRB is to provide training in IT and Finger Print Science for capacity building in Police Forces in the country.

Each year this branch conducts various training programmes for Indian & Foreign Police Officers. Training on subjects Cyber Crime Investigation & Digital Forensics, CCTNS, TOT in Fingerprint Science, Advanced Fingerprint Science, Network & e-Security, Colored Portrait Building System, Operators Course for Statistical Software Crime in India & ADSI, Operator Course for Prison Statistics India etc. is conducted. NCRB also conducts the courses on "Training of Trainers" for development of training resource persons in Police Programmes conducted in NCRB are attended by officers of all ranks including senior officers from States / Union Territories as well as from Central Police Organizations/Central Armed Police Forces. Besides training of Indian Police Officers, NCRB also conducts courses for Foreign Police officers under Indian Technical and Economic Cooperation (ITEC) and Special Commonwealth African Assistance Programme (SCAAP) of Ministry of External Affairs.

Trainings for Indian Nationals in Finger Print Science conducted at New Delhi -2016:

S. NO.	TITLE OF THE TRAINING	DURATION IN WEEKS	PERIOD	ELIGIBILITY	NO. OF PARTICIPANTS
1	TOT on Fingerprint Science	01	09-13 May, 2016	Fingerprint Experts from FPBx and CFPB (1 Course)	20
2	Advanced Fingerprint Science	01	13-17 June, 2016	Fingerprint Experts from FPBx and CFPB (1 Course)	20
3	Refresher Course on AIBE	02	5-16 Sept., 2016	Fingerprint Experts from FPBx and CFPB (1 Course)	24
Total					64

Trainings for Indian Nationals in Finger Print Science conducted at Kolkata -2016

CFPB Kolkata unit has been providing training for law enforcement individual as well as officials from various trades who tend to deal with Fingerprints in one way or the other.

S. NO.	TITLE OF THE TRAINING	DURATION IN WEEKS	PERIOD	ELIGIBILITY	NO. OF PARTICIPANTS
1	Finger print Proficiency Course	18 WEEKS	04.04.2016-06.08.2016	Finger Print Experts from various State Bureaux	10
2	Finger print Proficiency Course	18 WEEKS	29.08.2016-31.12.2016	Finger Print Experts from various State Bureaux	05
Total					15

Trainings for Foreign Nationals in Finger Print Science conducted in the year 2016:

S. NO.	TITLE OF THE TRAINING	DURATION IN WEEKS	PERIOD	ELIGIBILITY	NO. OF PARTICIPANTS
1	Advanced Fingerprint Science and IT	12	04.01.2016 to 25.03.2016	Courses only for Foreign Police Officers sponsored under the ITEC, SCAAP and TCS of Colombo Plan Schemes of the Ministry of External Affairs, Government of India	29
2	Advanced Fingerprint Science	08	04.07.2016 to 26.08.2016	-do-	26
4	Advanced Fingerprint Science	08	03.10.2016 to 25.11.2016	-do-	33
Total					88

Few State/UT Finger Print Bureaux also provide trainings in courses pertaining to Fingerprint and Allied sciences as per their discretion. The following table depicts the number of State/UT FPB Staff trained in FP science:

S No.	States	2014	2015	2016
1.	Andhra Pradesh	46	NF*	NF*
2.	Chhattisgarh	01	02	Nil

3.	Delhi	Nil	19	38

PIONEERS OF FINGERPRINT SCIENCE

There are records of Fingerprints being taken many centuries ago, Ancient artifacts with carvings similar to friction ridge skin have been discovered in many places throughout the world. The ancient Babylonians pressed the tips of their fingertips into clay to record business transactions. Thumbprints begin to be used on clay seals in China to “sign” documents. A petroglyph located on a cliff face in Nova Scotia depicts a hand with exaggerated ridges and finger whorls, presumably left by the Mi'kmaq people.

With the advancement in the field of Identification/ investigation, many of the scientist/ Investigators worked, whose contributions are listed below,

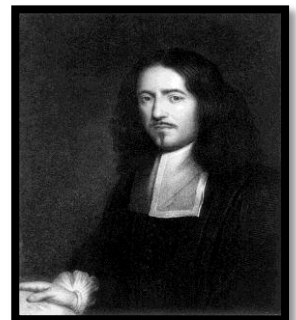

Dr. NEHEMIAH GREW (1641-1712)

- English Plant Morphologist, Considered as “Father of Plant Anatomy”.
- Studied and described the ridges, furrows, and pore structure of friction skin.
- Published very accurate drawings of the Fingerprint patterns and areas of the palms.
- Did not address uniqueness or permanence of the ridges.

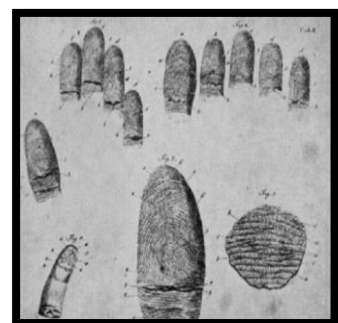

MARCELLO MALPIGHI (1628-1694)

- First to see the capillaries and was a founder of histology, embryology, plant anatomy, and comparative anatomy.
- Used a microscope for the first time to examine friction skin and made observations as to its structure.
- Malpighian layer of skin names after him, for his research contributions.
- Did not address uniqueness or permanence of friction ridges

Dr. J.C.A. MAYER (1747-1801)

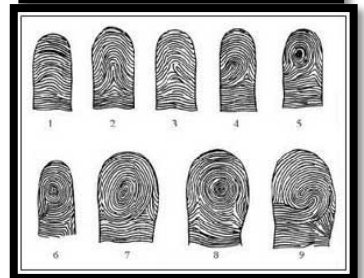

- Authored a book human anatomy and anatomical illustrations. The book is one of the earliest recordings supporting the uniqueness of fingerprints.
- The book included drawings of friction skin and this still valid statement :
- “Although the arrangements of skin ridges are never duplicated in two persons, nevertheless the similarities are closer among some individuals. In others the differences are marked, yet in spite of their peculiarities of arrangement all have certain likeness.” This statement has been verified by all other medical and scientific researcher of friction skin

Dr. JOHANNES E. PURKINJE (1787–1869)

- At Breslau he created the world's first Independent Physiology department and first official Physiology laboratory.
- He discovered the Purkinje effect, Purkinje cells, and Purkinje fibers.
- He was the first to give regular classification of Fingerprint patterns into nine categories as ,

➤ A: Transverse curves, ➤ B: Central longitudinal stria, ➤ C: Oblique stria, ➤ D: Oblique sinus, ➤ E: Almond	➤ F: Spiral, ➤ G: Ellipse or elliptical whorl, ➤ H: Circle or circular whorl, and ➤ I: Double whorl
--	--

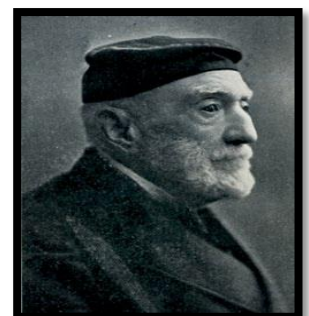

WILLIAM JAMES HERSCHEL (1833-1917)

- He experimented with the idea of using a handprint as a signature by having a man named Rajyadhar Konai put a stamp of his right hand on the back of a contract. The contract was received and accepted as valid.
- He instituted taking fingerprints of both Pensioners and criminals so that it is not carried out by imposters.
- He was the first person to use Handprints/ Fingerprints officially.
- He published an account of his work entitled 'The Origin of Fingerprinting'.

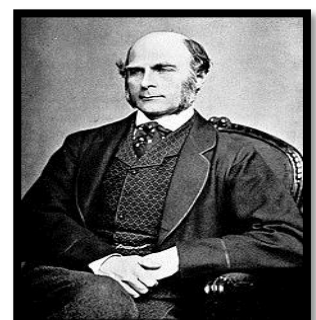

HENRY FAULDS (1843–1930)

- British surgeon and Superintendent of Tsukiji Hospital in Tokyo.
- Wrote an article that discussed fingerprints as a means of identification.
- He published a paper on the subject titled 'On the Skin-Furrows of the Hand', in the scientific journal 'Nature' & was first scientific literature to suggest the basic concepts of the fingerprint system of identification.
- In an article, Faulds proposed using friction ridge individualization at crime scenes and gave two practical examples.
- Recommended printer's Ink for recording of fingerprints.

SIR FRANCIS GALTON (1822-1911)

- Was an English explorer and anthropologist best known for his research in Eugenics and Human Intelligence.
- Established that friction ridge skin was unique and persistent.
- Defined & Named each Peculiar characteristics /Minutiae/ Ridge Characteristics

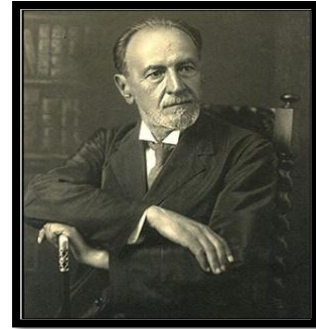

- Wrote book on “Fingerprints” in 1892 & “Decipherment of Blurred Fingerprints”

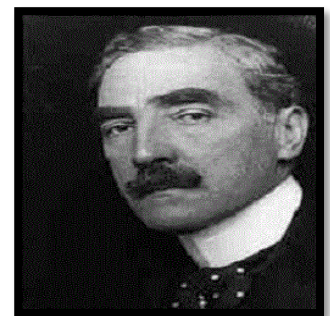

IVÁN (JUAN) VUCETICH (1858-1925)

- His classification system and individualization of prisoners through the use of fingerprints were the first practical uses of the fingerprint science by law enforcement personnel.
- He made the first positive identification of a criminal in a case where Francisca Rojas had killed her two children and then cut her throat, trying to put the blame on the outside attacker. A bloody print identified her as the killer.

SIR EDWARD RICHARD HENRY (1850-1931)

- Inspector General of Police for the Lower Provinces in Bengal.
- Considered as Father of Modern Fingerprint Science.
- With the help of Indian Police Officers Khan Bahadur Azizul Haque, and Rai Bahadur Hem Chandra Bose, the Henry classification system was developed.
- Went before an inquiry committee to convince them to change to fingerprinting criminals instead of using the Bertillon Method.
- Established the Metropolitan Police Fingerprint Bureau, Britain's first.
- Published a book “The Classification and Use of Fingerprints.”

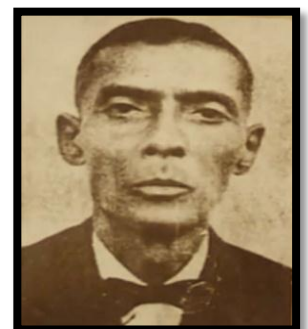

AZIZUL HAQUE (1872 – 1935)

- Officer-in-charge of the Anthropometric Bureau in Calcutta
- Helped in devising the classification formula on a mathematical basis.
- Was awarded the title “Khan Bahadur”
- Was awarded Hon. of Rupees 5000/-

HEM CHANDRA BOSE

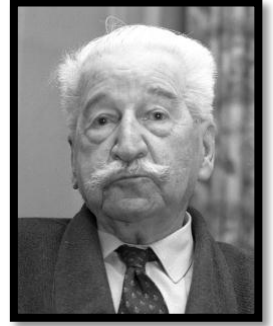

- An officer of the Anthropometric Bureau in Calcutta
- Created a system for single digit impression
- Created a telegraphic code for communicating classification.
- Was awarded the title “Rai Bahadur”
- Wrote a book called “Fingerprint Companion”

EDMOND LOCARD (1877-1966)

- Formulated the basic principle of forensic science: "Every contact leaves a trace"
- Developed the science of Poroscopy.
- Established the first rules of the minimum number of minutiae necessary for identification. He said that if 12 specific points were identical between two fingerprints, it would be sufficient for positive identification.

LAWS RELATING TO FINGERPRINTS IN INDIA

In an endeavor for the betterment of the publication a new chapter laws relating to Finger prints has been added from this year, the chapter contains all relevant legal information pertaining to Finger Print Science in India.

Section 45 of the Indian Evidence Act, 1872, as amended by Act V of 1899, defines:

Any other person whose finger prints are ordered to be maintained by the Govt. of India from time to time, subject to the provisions of the Identification of prisoners Act (act XXXIII of 1920).

"When the Court has to form an opinion upon a point of foreign law, or of science or art, or as to identity of handwriting or finger impressions, the opinions upon that point of persons especially skilled in such foreign law, science or art, or in questions as to identify of handwriting or finger impressions are relevant facts. Such persons are called Experts".

Section 293 of Cr. P.C. states as follows:

- 1) Any document purporting to be a report under the hand of a Government scientific expert to whom this section applies, upon any matter or thing duly submitted to him for examination or analysis and report in the course of any proceeding under this code may be used as evidence in any inquiry, trial or other proceeding under this code.
- 2) The Court may, if it thinks fit, summon and examine any such expert as to the subject-matter of his report.
- 3) Where any such expert is summoned by a Court, and he is unable to attend personally, he may, unless the court has expressly directed him to appear personally, depute any responsible officer working with him to attend the court, if such officer is conversant with the facts of the case and can satisfactorily depose in court on his behalf.
- 4) This section applies to the following Government Scientific Experts, namely:-
 - a) Any Chemical Examiner or Assistant Chemical Examiner to Government.
 - b) The Chief Inspector of Explosives.
 - c) The Director of the Finger Print Bureau.
 - d) The Director, Haffkine Institute, Bombay.
 - e) The Director of a Central Forensic Science Laboratory or a State / UT Forensic Science Laboratory.
 - f) The Serologist to the Government.

To ascertain, whether a finger print is that of a person by whom it purports to have been made, the court may direct any person present in the court to record his finger prints for the purpose of enabling the court to compare the finger prints alleged to have been made by such person. When given by recognized finger print experts, evidence as to the identification of persons by means of finger prints left at the scene of crime, is a fact. Summon from court is received whenever, court requires the services of experts either to prove the identity of the accused person or to give evidence in case in which experts opinion has already been furnished by the Bureau.

**LAWS RELATING TO PREPARATION OF RECORD AND SEARCH SLIPS****Identification of Prisoners Act, 1920****Section 3: Related to Convicted Persons:**

- a) Every person who has been convicted of any offence punishable with rigorous imprisonment for a term of one year or upwards or of any offence which would render him liable to enhanced punishment on a subsequent conviction and
- b) Every person ordered to give security of his good behavior under Section 118 CRPC shall if so required allow his measurements and photographs to be taken by a police officer in the prescribed manner.

Section 4: Empowers police officers for taking fingerprints of non-convicted arrested persons in connection with an offence punishable with RI for one year or more.

Section 5: Empowers a magistrate of first class to order a person to give his fingerprint for the purpose of any investigation or proceedings.

Section 6: i) Empowers the use of necessary means to secure the fingerprints of any person who resists or refuses taking of fingerprints.

ii) Resistance or refusal is deemed to be an offence u/s 186 IPC.

Section 7: Deals with destruction of finger print slips on acquittal or on discharge or on release without trial.

SCHEDULE OF OFFENCES FOR TAKING FINGER IMPRESSIONS AS PER CFPB MANUAL:

As per OM No. 115/POLICE (L)/ 55 (8) Intelligence Bureau, Ministry of Home Affairs, Government of India, Dated 19.02.1955, on the subject of 'Establishment of C.F.P.B and instructions to be followed by State Bureaux and District Police officers in sending F.P. record slips', mentions about the G.O. No. 37/223/55-piii Dated 5.12.55, which incorporates the procedure to be adopted for taking finger impressions of all persons convicted of any offence mentioned in the schedule of offences.

Finger print slips of the following persons will be recorded at the Central Finger Print Bureau:

- 1) All persons convicted of offences under chapter XII to XVII IPC which are punishable with rigorous imprisonment for a term of one year or more.
- 2) All persons convicted of any offence under Chapter VI IPC or of sabotage and subversive activities against State.
- 3) All persons convicted of offences under section 170, 302, and 304 (murder for gain), 328, 338, 465 to 477A, 489A to 489D I.P.C.
- 4) All persons convicted under the Arms, Opium and State Excise acts who are suspected to be smugglers in Arms, Opium by dangerous drugs as defined in the Dangerous Drugs Act (Act II of 1930) or entailing enhanced punishment on reconviction .

- 5) All persons convicted of smuggling gold, currency and valuable articles under Foreign exchange Regulation Act VII of 1947.
- 6) All persons ordered to execute bonds under sections 109 and 110 Cr.P.C (for offence against property only).
- 7) All traffickers in women and children who are convicted under section 363 to 373 I.P.C.
- 8) All persons convicted under section 5 of Act LXXIV of 1950 for unlawful possession of telegraph wires.
- 9) All persons convicted under section 3 of Ordinance XIX of 1944 for unlawful possessions of Railway Stores.
- 10) All professional criminals and persons of dangerous character externed from any area under any state Act.
- 11) All foreigners externed under Foreigners Act XXXI of 1946.
- 12) All approvers in gang dacoity and criminal conspiracy cases.
- 13) All persons suspected of being professional itinerant criminals and persons of notoriously criminal reputation who habitually absent themselves from their homes and are believed to travel to other states for the purpose of committing crime and who have been arrested by police and whose finger prints have been taken, even if they are acquitted provided that in case of acquittal permission for record for finger prints is obtained from the court under section 7 of Act XXXIII of 1920.
- 14) All persons convicted for attempt or abetment (sec 511 or 109/114 IPC) and criminal conspiracy (sec 120B IPC) for offences mentioned in this schedule.
- 15) All Indian nationals convicted outside India of any offence for which finger prints have been received at the State Bureau from those countries.
- 16) All International criminals and absconders whose finger prints are sent to the State Bureau from countries outside India.
- 17) All persons convicted under explosive Substances Act (Act VI of 1908).
- 18) All persons convicted under the official Secrets Act (Act XIX of 1923).
- 19) All persons convicted under sec 101, 126 and 128 of the Indian Railways Act (Act IX of 1890).
- 20) Any other person whose finger prints are ordered to be maintained by the Govt. of India from time to time, subject to the provisions of the Identification of prisoners Act (act XXXIII of 1920).

Note: The taking of finger prints of persons who are local men and convicted of offences of trivial nature will be subject to the discretion of the Supdt. of Police of the district concerned.

IMPORTANT COURT VERDICTS ON FINGER PRINT EVIDENCE

1. Supreme Court Ruling Of 1961 : [State of Bombay Vs. Kathikalu Oghad AIR 1961 SC 1808]

A thumb impression of an accused taken by the police in course of investigation which was later on produced at the trial did not amount to testimonial compulsion under Article 20(3) and was not on that account inadmissible. It held that the application of finger prints in the identification of persons does not violate the fundamental rights under Article 20(3) of the constitution.

It was further held that to be a witness in its wider sense means giving an oral or written statement but does not amount to exposing a part of the body for the purpose of identification.

2. Supreme Court Ruling Of 1972 : [AIR 1972 SC 975]

“The comparison and identification of finger prints has developed into a science and the results derived there from have reached a stage of exactitude. As long as the report shows that the opinion was based on observations which led to a conclusion, such opinion can be accepted.”

“Unless there is a doubt as to the correctness of the opinion, the report of the examiner may be accepted without examination of the expert.”

3. Supreme Court Ruling Of 1978: [Mohanlal Vs. Ajit Singh AIR July 1978 SC 1183]

The hon'ble Supreme Court ruled that an opinion based on 8 identical ridge characteristics was fully justified and conformed to the views expressed in scientific books on the subject.

“Nothing substantial has been urged to challenge the opinion of the director of the fingerprint Bureau and all that has been argued is that as there were only 8 points of similarity, there was not enough basis for the expert's opinion about the identity of finger prints . Reference in this has been made to B.L.Saxena's 'Identification of handwriting, disputed documents, finger prints, foot prints and detection of forgeries' 1968 edition page 247, Walter R. Scott's 'Finger print mechanics' page 62 and M.K.Mehta's 'The identification of thumb impression and the cross examination of finger print experts' second edition page 28. We have gone through these books but they do not really support the argument of the learned counsel for the respondent. While referring to the old practice of looking for a minimum of 12 identical characteristic details, Saxena has admitted that the modern view is that 6 points of similarity are sufficient to establish the identity of finger prints. Walter Scott has stated that as a matter of practice most experts who work with finger prints constantly satisfy themselves as to the identity with 8 or even 6 points.”

The larger surface of the fully rolled impression not only allows accurate classification but it also gives more points for comparison. (For representative purpose only)

4. Supreme Court Ruling of 1979 : [Jaspal Singh Vs.State of Punjab AIR 1979 SC 1708]

“The science of Finger print identification is an exact science and does not admit of any mistake or doubt.”

Annexure-III

RECOMMENDATIONS OF XVII ALL INDIA CONFERENCE OF DIRECTORS OF FINGER PRINT BUREAUX HELD AT PHQ BHOPAL ON FEBRUARY 2-3, 2016

1. The Identification of Prisoner's Act 1920 should be reviewed / amended in view of use of other biometric attributes and digital tools for capturing and recording them. The issue may be taken up with MHA.
2. Qualified Trainers in F.P. Science should be empanelled on an All India basis by the CFPB/NCRB to act as faculty and impart training at various institutes. This list should be periodically updated and uploaded on the NCRB website for ease of use and transparency.
3. It was also proposed to that F.P. Training Courses sponsored by CFPB / NCRB should be started at Regional Police / Forensic Training Centres / Institutes i.e. one each in North (CDTS, Chandigarh), South (NPA Hyderabad), East (NEPA, Meghalaya), and West (GFSU, Gandhi Nagar). This would help in decentralizing the training and also in enhanced participation.
4. The conference recommended that the CFPB / NCRB would explore the possibility of providing exposure to Finger print experts of the country on the latest fingerprint techniques prevalent in advanced countries in coordination with Ministry of External Affairs, Govt. of India, MHA and BPR&D.
5. The conference suggested setting-up of three working groups on (a) **Strategic Planning and Administrative matters** including uniform staff pattern and deployment of F.P. Staff, comprising of Madhya Pradesh, Himachal Pradesh, Telangana, Manipur, Maharashtra, Kerala and Tamil Nadu. The group will look into possibility of technical / special allowance to the fingerprint Personnel, filling up vacancies in the F.P. Bureaux on priority, and a mandatory AIBE accreditation / certification for all fingerprint personnel of India. (b) Working group on **Training** comprising of MP, Punjab, Delhi, Punjabi University Patiala, Tamil Nadu, Karnataka, Telangana & Andhra Pradesh in coordination with NCRB. This group would undertake activities like standardization of the curriculum, condensing the syllabus and duration of Finger Print proficiency training course conducted by CFPB / NCRB, online training, testing and certification etc. (c) Working group on **Technology and Technical Matters** comprising of Telangana, Karnataka, MP, Gujarat, Punjab, Tamil Nadu & Himachal Pradesh. The working group will deliberate on issues related to the latest techniques, development of modern F.P. Laboratories, standardized list of F.P. equipment, exchanging of fingerprint data between States/UTs, provision of IT hardware, and connectivity should be made for jails, courts, health centers and protection homes etc. for enrolment of finger prints, Integration of AFIS and CCTNS in consultation with industry / stakeholders.
6. The conference unanimously recommended that CFPB unit at Kolkata should be relocated to New Delhi in the new premise at Mahipalpur, New Delhi, and all the training modules should be consolidated in the upcoming new infrastructure of NCRB at New Delhi.
7. The conference also recommended Standard format for giving F.P. opinion needs to be re-worked to incorporate the antecedents of the experts / officers who give evidence before the court of law. Himachal Pradesh was requested to prepare this format.
8. The conference was unanimous for recommending mandatory AIBE accreditation / certification for all fingerprint personnel of the country. There will be no change whatsoever in eligibility conditions to appear in All India board for the examination of Finger Print Experts. The issue may be taken up with MHA to issue an advisory.

Annexure-IV

**SANCTIONED AND POSTED STAFF STRENGTH IN PROMINENT STATE FPBX AS
ON 31.12.2016**

This annexure gives overview of staff position in prominent state finger print bureaux functioning in the country.

1. **ANDHRA PRADESH**

Sl.No.	Post	Sanctioned Strength	Posted Strength	Vacancy

The no. of sanctioned, posted staff and vacancies may be taken as indicative, because in some bureaux there is more staff posted than actually sanctioned position thus the value of vacancy too would not be correct

Annexure– V (a)

AUTOMATED FINGERPRINT IDENTIFICATION SYSTEM

Automation of the fingerprinting technology has been the agenda of scientific and industrialist peers in order to provide the law enforcement agencies with the best of the tools and techniques to maintain highest possible decorum of law and order. Since, FACTS is the indigenous version of AFIS being used by finger print bureaux throughout the country, following is the brief illustration describing the working a generic FACTS system.

The following diagram shows the work transaction mechanism of FACTS 5.0.

**AFIS BASED COMPARISON AND MARKING OF IDENTICAL POINTS
(FOR REPRESENTATIVE PURPOSE ONLY)**

The first FACTS was developed by NCRB with assistance from CMC Ltd with the most basic features for a automated system. With the advent the microprocessors and communication technology, the latest FACTS are equipped with the state of the art advantages that improve the efficiency of a fingerprint expert. Following is an analytical comparison of the range of features developed since the inception of the FACTS system.

AFIS Interface Specification

The Electronic Fingerprint Transmission Specification or EFTS defines the interface between the IAFIS and other agencies' systems. The EFTS contains a description of operational concepts, descriptors, field edit specifications, image quality specifications, and other information related to IAFIS services. The Electronic Biometric Transmission Specification (EBTS) is the latest upgrade to the FBI fingerprint specification and replaces EFTS Version 7.1. The scope of the EBTS has been expanded over previous versions to include additional biometric modalities (e.g., palmprint, facial, and iris) in recognition of the rapidly developing biometric identification industry. The most recent update to the American National Standards Institute /National Institute of Standards and Technology-Information Technology Laboratory 1-2015 (ANSI/NIST-ITL 1-2011, Update: 2015) standard includes

new record types to facilitate data sharing for new biometric modalities. Integrating biometric data in accordance with the ANSI/NIST standard, the FBI EBTS provides a description of all requests and responses associated with electronic fingerprint and other biometric identification services.

29. TRIPURA

Information not furnished by the State Bureau.

30. UTTARAKHAND

- | | |
|--------------------|-------------------|
| a) Live Scanner | b) Digital Camera |
| c) Flatbed Scanner | d) AFIS Sonda 8S |

31. UTTAR PRADESH

Information not furnished by the State Bureau.

32. WEST BENGAL

- | | | |
|-------------------|------------|-------------------|
| a) Detector Light | Microscope | d) Developing kit |
| b) Electronic | c) FACTS 5 | e) Lens |

33. CHANDIGARH

The UT, Chandigarh has no independent Finger Print Bureau. The record of fingerprints of UT, Chandigarh is maintained by Finger Print Bureau, Phillaur, District Jalandhar, Punjab. Chandigarh has not independent Finger Print Bureau. The annual report of FPBx, Phillaur also includes the work of Union Territory of Chandigarh. AFIS too is not available.

34. DADRA & NAGAR HAVELI

There is no Finger Print Bureau established in the Union Territory of Dadra & Nagar Haveli. AFIS too is not available.

35. DAMAN & DIU

At present no Finger Print Bureau has been established or functioning in the Union Territory of Daman & Diu. AFIS too is not available.

36. LAKSHADWEEP

The Union Territory of Lakshadweep has no Finger Print Bureau, Unit or cell. AFIS too is not available.

Annexure-VII

LIST OF BOOKS ON FINGERPRINT SCIENCE*

S. No.	Title of the Book	Author	Year of Publication
I	FUNDAMENTALS OF FINGERPRINT SCIENCE		
1	Fundamentals of Fingerprint Analysis	Hillary Moses Daluz	2014
2	Fingerprints: Analysis and Understanding	Mark Hawthorne	2008
3	Fingerprints and Other Ridge Skin Impressions	Christophe Champod, Chris J. Lennard, Pierre Margot, Milutin Stoilovic	2004, 2016 (2 nd edi.)
4	Friction Ridge Skin: Comparison and Identification of Fingerprints	James F. Cowger	1992
5	The Science of Fingerprints	United States. Federal Bureau of Investigation	2015
6	Quantitative-Qualitative Friction Ridge Analysis: An Introduction to Basic and Advanced Ridgeology	David R. Ashbaugh	1999
7.	Finger Print Identification	Surinder Nath	2010
II	ADVANCED FINGERPRINT SCIENCE AND TECHNOLOGY		
8	Lee and Gaensslen's Advances in Fingerprint Technology, Third Edition	Robert Ramotowski	2012
9	Fingerprint Detection with Lasers, Second Edition	Menzel	1999
10	Fingerprint Analysis Laboratory Workbook	Hillary Moses Daluz	2014
11	Touch less Fingerprint Biometrics	Ruggero Donida Labati, Vincenzo Piuri, Fabio Scotti	2015
12	Hand Book of Fingerprint Recognition	Davide Maltoni, Dario Maio, Anil K. Jain, Salil Prabhakar	2003
13	Automatic Fingerprint Recognitions Systems	Nalini Ratha Ruud Bolle	2003
III	CRIME SCENE INVESTIGATION		
14	Hidden Evidence: Forty True Crimes and How Forensic Science Helped Solve Them	David Owen	2003
15	Fisher's Techniques of Crime Scene Investigation First International Edition	William J. Tilstone, Michael L. Hastrup, Camilla Hald	2012
IV	FINGER PRINT BOOKS IN HINDI		
16	हस्तलेखाएवंअंगुलिछापविज्ञान(Handwriting and Fingerprints Science in Hindi, 5th Edition)	B.L. Babel	2013
17	अंगुलिछापविज्ञान	S. Siddique	-
18	आधुनिकअंगुलिचिन्हविज्ञान	Dr. Nishant Singh	2008

**List is suggestive & random; CFPB does not recommend or promote any of the books given in the list.*

**Annexure– VIII****ADDRESSES OF STATE FINGER PRINT BUREAUX / UNITS**

Sl. No.	State	Bureau/Unit/ Cell	Address
	Andaman & Nicobar	Port Blair (Unit)	Dy. Superintendent of Police (CID) Finger Print Cell, FSL, CID Office Complex Aberdeen Bazar, Port Blair- 744 101 Tel. No. 03192-241092, 03192-233307 Fax No.03192-230262

15.	Jharkhand	Ranchi	State Examiner of Finger Prints Finger Print Bureau, Jharkhand, CID HQRS, Raja Rani Kothi (Doranda) Ranchi - 834 002, Jharkhand

			Tel No : 0651-2490377 Fax. No.: 0651-2490295 Email: fpb-cid@jhpolicen.gov.in
16.	Karnataka	Bengaluru	Supdt. of Police & Director Finger Print Bureau, Karnataka Behind Madiwala, Police Station Bengaluru-560068 Tel. No. 080-25634063, 22943287 TeleFax No. 080-22943590 Email: fpb@ksp.gov.in
17.	Kerala	Thiruvanantha puram	Director, State Finger Print Bureau, Kerala SCRB, Pattom, Thiruvananthapuram - 695004 Tel. & Fax No. 0471-2551483 E-mail: directorsfpb@keralapolice.gov.in
18.	Lakshadweep	Kavaratti	The Superintendent of Police Union Territory of Lakshadweep Police Headquarters, Kavaratti- 682 555 Ph: 04896-262258: FAX: 04896-262624 Email: lak-sop@nic.in, dcrb_lk@nic.in
19.	Madhya Pradesh	Bhopal	Director/AIG State Finger Print Bureau, M.P., C/o SCRB Police Head Quarters, Bhopal - 462 008, M.P. Tel.No.0755-2443311. FaxNo.0755- 2443634 Email: dir_fpb@mppolice.gov.in
20.	Maharashtra	Pune	Director/Supdt. of Police (fingerprint) State Finger Print Bureau, Maharashtra CID, Pashan Road, Pune - 411 008 Maharashtra Telefax. 020-25638444 E-mail: fpbmaharashtra@gmail.com dis.cid.fpb@mahapolice.gov.in
21.	Manipur	Imphal	Ex-Officio Director cum S.P. Finger Print Bureau, CID / CB, Manipur Pangei, Imphal-795 001 Tel. & Fax No. 0385-2451501 Fax No. 0385-2451501 E-mail: cidcb-mn@nic.in
22.	Meghalaya	Shillong	Special Supdt. of Police O/o The Additional Director General of Police, CID, Meghalaya, Shillong 793001 Tel. No. 0354-2224760 Fax No: 0364-2224181 E-mail: fpbmeghshillong@gmail.com
23.	Mizoram	Aizawl	Director, Finger Print Bureau, FSL New Secretariat Complex, Khatla, Mizoram, Aizawl – 796 001 Tel. No. 0389-2336131 Fax No. 0389-2336231 E-mail: fslmizoram@gamil.com
24.	Nagaland	Dimapur	Dy. S.P., FPBx, O/o the Dy. Director, FSL, Nagaland, Dimapur - 797112 Tel & Fax No. 03862-248271 Email : fsl-nldmr@rediffmail.com

25.	Odisha	Rasulgarh	Director/DSP, State Finger Print Bureau Rasulgarh, Bhubaneswar-751010, Odisha Tel. No. 0674-2580110 Fax No. 0674-2587234 E-mail: scrborissa@gmail.com
26.	Puducherry	Puducherry	In-Charge, Finger Print Bureau No.1 Dumas Street, Police Head Quarters CID Complex, Puducherry - 605 001 Tel.: 0413-2231329 Fax No. 0413-2340601 E-mail: fbpbdy@gmail.com
27.	Punjab	Phillaur	Director, State Finger Print Bureau, Punjab Maharaja Ranjit Singh Punjab Police Academy Phillaur- 144410, Jalandhar, Punjab Tele & Fax No. 01826-224939 E-mail : directorfpb@gmail.com
28.	Rajasthan	Jaipur	Director, State Finger Print Bureau State Crime Records Bureau Nehru Nagar, Jaipur, Rajasthan-302 016 Tel. No. 0141-2300641 Fax No. 0141-2300597 E-mail: director.fpb.scrbj@rajpolice.gov.in
29.	Sikkim	Gangtok	Sr. Superintendent of Police Crime Branch, C.I.D, Police Headquarters Gangtok-737 101, Sikkim Tel. No. 03592-202087 Fax No. 03592-204297
30.	Tamil Nadu	Chennai	Director/SP(fingerprint), FPBx, State Crime Records Bureau 95, Santhome High Road, SCRB Building Raja Annamalaipuram, Chennai-600 028. Tel. No. 044-24958585 Fax No. 044-24622744 E-mail: sptnfpbchennai@gmail.com
31.	Telangana	Hyderabad	I/c, Dy. SP, Finger Print Bureau, CID 4th Floor, DGP Office Complex, Lakadi Ka Pul, Saifabad, Telangana, Hyderabad-500004 Tel. No. 040-23240768 E-mail: dsp@fpb.tspolice.gov.in
32.	Tripura	Agartala	Supdt. of Police, CID Finger Print Bureau, Tripura A.D. Nagar, Agartala, West Tripura Tel. No. 0381-2375604 Fax No. 0381-2376979 Email : spcid_tri@nic.in
33.	Uttarakhand	Dehradun	Director(In-charge) Finger Print Bureau, SCRB PHQ 12, Subhash Road, Dehradun-248 001, Uttarakhand Tel No. 0135-2717316, 0135-2726206 Fax No. 0135-2712080 Email:spscrbuk.uap@uttarakhandpolice.ukgov.in
34.	Uttar Pradesh	Lucknow	Director / Dy.SP Finger Print Bureau, forensic science laboratory campus,

			Mahanagar, Lucknow, Uttar Pradesh-226006 Tel. No. 0522-2335200 Fax No. 0522-2335200, 0522-2288554 Email : sadgts@up.nic.in
35.	West Bengal	Kolkata	Director-in-Charge Finger Print Bureau, CID, West Bengal SCRB, Bhabani Bhawan (3 rd Floor) Alipore, Kolkata-700027 Tel. No. 033-24506163 Fax No. 033-24506163 Email: ocfpb.cidwb@gmail.com

Glossary

- ❖ **AMPUTATED:** The removal of a limb or other body extremity by trauma, prolonged constriction or surgery.
- ❖ **AUTOMATED FINGERPRINT IDENTIFICATION SYSTEM—1:** An automated, minutiae-based identification system that may consist of two or more distinct databases comprising two-finger identification records and ten-finger latent cognizant records (records of individuals more likely to be found at crime scenes, for example, burglars). **2:** A computer-based system for reading, cataloguing, searching, matching, and storing fingerprints and related data. (ANSI/IAI) **3:** A generic term for a fingerprint matching, storage, and retrieval system. (SWGFAST 2011)
- ❖ **ACE-V—**The process for identifying latent fingerprints, which involves Analysis, Comparison, Evaluation, and Verification:
 - a. Analysis is the qualitative and quantitative assessment of Level 1, Level 2, and Level 3 Details to determine proportion, interrelationship, and value for individualization.
 - b. During Comparison, the latent print examiner looks at the attributes noted during analysis for differences and agreement between the latent print and the known exemplar.
 - c. Evaluation follows extensive comparison by making a determination if two impressions were made by the same source, not from the same source, or if the information is inconclusive. (A determination is made as to the results of the Comparison process. The fingerprint community accepts three conclusions: (a) the latent print and known exemplar were made by the same source, (b) the latent print and known exemplar were not made by the same source, or (c) a conclusive comparison could not be determined. This could be due to a lack of comparable area in the known exemplar or lack of clarity due to improperly recorded known exemplars.)
 - d. Verification occurs when a second qualified examiner does an independent assessment of the latent print and known exemplar, utilizing the ACE process.
- ❖ **ANSI/NIST STANDARD—**Standard proposed by NIST and adopted by ANSI. For example, the ANSI/NIST-ITL standard Data Format for the Interchange of Fingerprint, Facial & Other Biometric Information is used by law enforcement, intelligence, military, and homeland security organizations throughout the world. The first version of this standard dates to 1986. Over the years, it has been updated and expanded to cover more biometric modalities beyond the original record type of fingerprint minutiae. (NIST)
- ❖ **BACKGROUND DISTURBANCE / INTERFERENCE:** A feature of the background (such as the texture or pattern) of the substrate (surface) that the mark is

left on, which affects the appearance and resultant interpretation of the friction ridge flow or ridge details.

- ❖ **CADAVER:** A deceased person.
- ❖ **CHANCE PRINT OR SCENE OF CRIME PRINT:** means any chance or accidental impression left by friction ridges skin on a surface, regardless of whether it is visible or invisible at the time of deposition.
- ❖ **DISPATCH CHEQUE:** The details in triplicate prepared by the State Bureaux containing Name, Parentage of the convicts and Cheque No., Date and District of Origin of Finger Print Record Slips for forwarding the Finger Print Record Slips to other Bureaux are called Dispatch Cheques /Invoice.
- ❖ **DATABASES:** Collections of data and associated material designed to provide information rather than for archive, which are stored systematically in hard copy or electronic format and are, e.g. used for: providing information on the possible origin of objects or substances found in casework; and/or providing statistical information.
- ❖ **EDGEOSCOPY:** Study of the contour or shape of the edges of friction ridges.
- ❖ **EXPERT (CFPB):** 'Expert' means an officer working in the CFPB having undergone thorough training in classifying, recording & searching of F.P. Slips and examining of latent and documentary prints either in any State Bureau or at the Central Finger Print Bureau and having a Finger Print expert certificate by clearing the All India Board for Examination of Finger Print Experts.
- ❖ **ELIMINATION FINGERPRINTS—1:** Fingerprint images taken from persons with legitimate access to evidence under examination for latent fingerprint. **2:** Exemplars of friction ridge skin detail of persons known to have had legitimate access to an object or location.
- ❖ **HENRY CLASSIFICATION—** An alphanumeric system of fingerprint classification named after Sir Edward Richard Henry used for filing, searching, and retrieving ten-print records.
- ❖ **FINGER PRINT SLIP FOR RECORD:** The form containing 10-digit rolled impressions and plain prints taken in proper sequence for record with particulars regarding name, parentage, residence, conviction, etc. of a convict is called a Finger Print Slip for record.
- ❖ **FINGER PRINT SLIP FOR SEARCH:** Similar form with 10 digit impressions when used for search to trace previous conviction from the record of the Bureau is called Finger Print slip for search.

- ❖ **INKED FINGERPRINT** - The Intentional recording of the friction ridge skin. Using black printer's ink and a fingerprint roller, the ridge characteristics of a particular individual, can be formally recorded on a standard fingerprint card.
- ❖ **INTERPOL**—Originally the International Police Commission, established in 1923 with the first headquarters in Vienna, Austria. With the General Secretariat now in Lyon, France, Interpol focuses on international crimes that threaten public safety, especially those involving terrorism, criminal organizations, drugs, finances and technology, and trafficking in human beings, and provides fugitive investigative support.
- ❖ **LATENT(Chance print)/LATENT SEARCH**—A search of a latent print against other latent prints, which are usually stored in the Unsolved Latent File, and which has the potential to link crimes committed by same person, even though that person is as yet unidentified. Also referred to as a latent/unsolved latent search.
- ❖ **LIVESCAN**: „Livescan“ is an electronic biometric platform for capturing, storing and transmitting friction ridge detail.
- ❖ **MINUTIAE DATA**—The data representing the relative position, orientation, and in some cases, the relationship and/or types of the minutiae in a fingerprint image.
- ❖ **PATTERN CLASSIFICATION**—Characterization of a fingerprint as containing one of seven fingerprint patterns: arch, tented arch, right-slant loop, left-slant loop, whorl, amputation, or scar. The Integrated Automated Fingerprint Identification System will provide for both pattern level and Henry classifications.
- ❖ **TEN-PRINT**—A fingerprint card (or fingerprint card equivalent) containing rolled and plain impressions from the ten fingers of an individual. The standard format contains 14 impressions: one rolled fingerprint impression of each finger, plain fingerprint impressions of each thumb, and plain impressions of the four fingers of each hand simultaneously.

Abbreviations

ACE-V- Analysis, Comparison, Evaluation & Verification

AFIS - Automated Fingerprint Identification System

ANSI- American National Standards Institute

CADB: Criminal Attribute Database (Personal Information and Criminal History of the convicts).

EFTS - Electronic Fingerprint Transmission Specification

EBTS - Electronic Biometric Transmission Specification

FACTS: Fingerprint Analysis and Criminal Tracing System

FBI - Federal Bureau of Investigation

INTERPOL- International Criminal Police Organization

NAFIS - National Automated Fingerprint Identification System

NIST - National Institute of Standards and Technology

NCIC - National Crime Information Center

PID Number – Personal Identification Number

PCN - Provisional Criminal Number

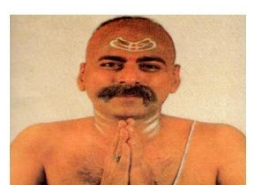

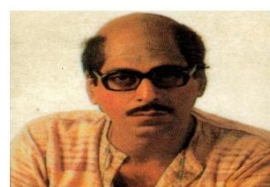

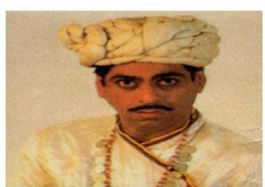

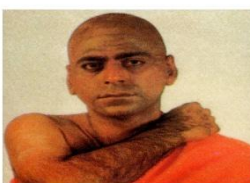

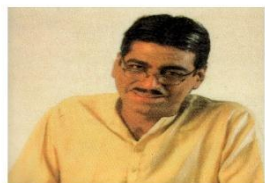

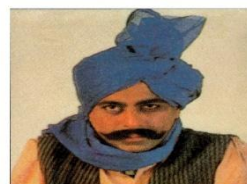

RCN - Regional Criminal Number

UPD- Updating
