**MESSAGE**

“Crime in India-2019” is the national report on crime statistics in India. The report comprehensively covers a wide range of crime statistics collected from all States/UTs. I am sure the report will be beneficial to various stakeholders including policy makers, researchers, academicians and different police organizations in the country.

2. I take this opportunity to commend all the States and Union Territories for their sincere efforts in furnishing the data required for this publication even as they managed the challenging situation arising due to the COVID-19 pandemic. I also appreciate the efforts of Director, NCRB and his team for collecting, collating and publishing of the report in a timely manner.
