GOVERNMENT OF INDIA

NH-8, Mahipalpur, New Delhi-110037

FOREWORD

It is a matter of immense pleasure for me to bring out the 23rd edition of 'Finger Prints in India' for the year 2019. The publication had started in the year 1997.

This publication contains details of the important cases solved by the Central Finger Print Bureau (CFPB) as well as State Finger Print Bureaux (SFPBx) through the use of Finger print Science. It also carries information on transactional activities of SFPBx such as number of visits to scene of crimes, number of chance prints lifted from those sites, number of convicts fingerprints enrolled, number of search slips processed to ascertain their criminal history, number of document cases examined, experts opinion given in the Court of Law, etc.

It is a matter of satisfaction to note that Finger Print staff of various Bureaux have visited 59,039 scenes of crimes (SOC) and developed chance prints in 33,699 cases. Out of these cases, 39,025 chance prints were found fit for comparison. It is pertinent to note that FP Experts of Andhra Pradesh have identified the culprits in 512 cases by matching the developed 11,235 chance prints with the database. Whereas the next best performing State, Kerala have identified the culprits in 402 cases by matching the developed 1809 chance prints with the database. In search slip tracing, Gujarat topped the list by providing trace information in 69,636 cases followed by Tamil Nadu 11,524 and Delhi in 8,517 cases. The State Finger print Bureaux also examined and gave opinion regarding impersonation on 1896 document cases.

During this year, substantial work has been completed in implementation of National Automated Finger print Identification System (NAFIS). Under this project, 1381 workstations have been provided to the Districts, Commissionerates, State finger print Bureaux and CFPB. Moreover, Finger print enrolment device (FED), Flat Bed Scanner, Single Digit Live scanner, Web Cam were also supplied to these offices to make them self-sufficient. Various Changes

proposed by FP Experts to accommodate Indian conditions were incorporated in NAFIS software and system is made operational at NCRB Hqrs. Few workstations of Haryana, Rajasthan and Delhi have been connected to NAFIS and some functionalities like Fingerprint enrolment using FED & flatbed scanner, search slip processing and chance print processing etc have been tested. The implementation of NAFIS will greatly reduce the time and efforts as there will be no need to send the physical Finger Print slips to SFPB/CFPB and the IO would be able to get the results online instantly. A mobile app is also being rolled out as a part of NAFIS which will enable the police personnel posted at check posts to verify the antecedents of accused persons at the spot. After Go-live of the project pan India, I am sure the fingerprint science will regain its rightful place in police investigations and sufficient strength of FP staff will also hopefully be posted in different states and union territories.

NCRB is also making efforts for bringing new Act by repealing the existing Identification of Prisoners Act 1920, so as to empower police officers/Jail officers to capture advance biometrics of any arrested person. This will increase the database size drastically since requirement of one year rigorous imprisonment is proposed to be removed in the new Act.

Further, the XX All India Conference of Directors of Finger Print Bureaux of States/UTs was organized on 17th & 18th October 2019, at NCRB Auditorium. A total of 76 delegates from various Finger Print Bureaux of the States/UTs, CFSL-CBI, CFPB/NCRB, Colleges and Universities participated in this two day event and deliberated on important issues related to Finger Prints.

I take this opportunity to compliment Central Finger Print Bureau team for their efforts in brining out this publication. I am sure that the present edition of this annual report will be found useful by all stake holders. Suggestions, if any, are welcome.

EXECUTIVE SUMMARY

'Finger Prints in India 2019' is the 23rd edition of annual publication of Central Finger Print Bureau (CFPB) under the aegis of National Crime Records Bureau (NCRB). It presents the annual performance report for the calendar year 2019 of the Central and State/UT Finger Print Bureaux (SFPBx) including the activities, achievements, database status, trainings undertaken etc. This publication also presents other useful information such as relevant laws, equipment and relevant books, all at a glance, enabling the Finger print experts, readers and the stakeholders throughout the country to equip themselves with the latest developments in the field.

Chapter I - ACTIVITIES OF CENTRAL FINGER PRINT BUREAU

In the year 2019, CFPB has examined and sent opinion/report in 126 document cases received from Nationalized Banks, Recruitment Agencies, Insurance companies, and 89 chance prints received from various State/UT Finger Print Bureaux. The Bureau has been able to achieve a search slip trace percentage of 22.1 from the last year trace percentage of 11.23. The bureau organized the XX All India Conference of Directors of Finger Print Bureaux of States/UTs on **17th & 18th October, 2019** at National Crime Records Bureau (NCRB) Hqrs New Delhi, with the participation of 78 delegates. All India Board Examination for Finger Print Experts (AIBE) 2019, was conducted by CFPB from 16th to 18th November 2019, for Finger Print personnel from States/UTs. For this examination, 41 eligible nominations were received, out of which 37 candidates appeared for the examination and 33 candidates were successful making the passing percentage of AIBE 2019 at 94.5%. The first position was bagged by Sh. Sudheesh K.V., Finger Print Searcher, Kerala.

MHA issued financial sanction and administrative approval for NCRB to enter into an agreement with M/s Smart Chip for Procurement of National Automated Fingerprint Identification System (NAFIS). Under this project, 1300+ WS were distributed to State/UT's FPB, Commissionerate's and District units. Work Station comprises of CPU and Monitor, Morpho Top FED's, Single Digit live scanner (Bio-login), Flat Bed scanner and printers. Benefits arriving from NAFIS were informed to all the States/UTs with a request to decide as whether they wish to continue their AFIS system or to switch over to NCRB. Solution provider has supplied the complete hardware to all the State Fingerprint Bureaux, Districts, commissionerate and made NAFIS Data Center operational at NCRB Hqrs. Disaster recovery center is also operational at NDC, Bhubaneswar. NAFIS software has been customized to suite Indian requirements. Solution provider has developed migration utility for transferring the existing digitized data into NAFIS. Infrastructure has been established at NCRB Hqrs, Lucknow and Bhopal for digitizing the fingerprint slips which are not in digital form.

A committee was constituted to work out the modalities for accreditation of State/UT's FPB and to identify parameters for selection of the best Finger Print Bureau. On its deliberation a one day NABL awareness program was organized in which State/UT's FPB officials were actively participated in the discussions with an optimistic approach towards achieving NABL accreditation. The National Accreditation Board for Testing and Calibration Laboratories (NABL) is an autonomous body under the guidance of the Dept. of Science & Technology, Govt. of India whose purpose is to provide accreditation to testing and calibration of clinical laboratories in the country.

A meeting was organized by the Manpower Committee, for suggesting manpower &

staffing pattern for State/UT's FPBx. Most of the Directors of SFPB and other senior officers were a part of the meeting and listed the suggestions, Recommendations of the comitte has been circulated to all States/UTs for early implementation.

Chapter II - ACTIVITIES OF STATE FINGER PRINT BUREAUX

Main responsibility of FP expert is to develop the chance prints left by criminals at the crime scene and to match with the fingerprints of the existing criminals. Further, FP experts also receive fingerprint slips of arrested persons for providing the previous criminal history by comparing fingerprints. Expert opinion is given on the handwriting in the questioned documents referred to the Finger Print Bureaux. As the total number of activities is very large, each State has submitted a few important cases based on the sensitivity, value of property lost/recovered, detection of a series of cases etc. for printing in this publication.

In the year 2019, FP staff from SFPBx have visited 36,379 crime scenes and found 39,075 chance prints fit for comparison. SFPBx has forwarded details of 240 important cases solved through finger prints in the calendar year 2019 to CFPB for inclusion in the annual report, out of which 63 were shortlisted for publishing in 'FPI 2019' under murder, theft, dacoity, robbery, Arms Act and NDPS Act.

Chapter III - TRANSACTIONAL ACTIVITIES OF CFPB AND SFPBx

State wise statistics related to transactional activities such as number of FP slips of convicted and arrested persons received, accepted and enrolled, number of crime scenes visited, number of chance prints developed and compared, number of document cases received and opinion given are covered in this chapter. CFPB received 41,429 FP Slips for record and 48,792 cases for search in the central database. State Finger Print Bureaux have received 73,125 finger print record slips from Districts / Police Stations and a total of 4,87,268 fit search slips for conducting search in the respective databases of Finger Print Bureaux of States/UTs and rejected 23,938 slips for rectification. A total of 1937 document cases were received in the SFPBx out of which 1896 cases were examined by FP experts. In 240 cases, FP experts from various SFPBx deposed in the Courts of Law for testimonies. In case of development of chance finger prints FIT for comparison from scene of crime (SOC), Andhra Pradesh topped the list with 9418 chance prints, followed by 7687 chance prints by Kerala. State of Andhra Pradesh topped the list by identifying 512 chance print cases and in document cases Punjab led with 279 cases. Following table shows the All India Statistics of the finger print transactions in States/UTs during 2019.

Transactional Activities of State Finger Print Bureaux				
	Convict Slips Received	Arrestee Slips Received	Chance Prints Developed (FIT for comparison)	FP Document Cases Received
TOTAL	73125	511206	39025	1937

Chapter IV - ANALYSIS OF FP TRANSACTIONAL ACTIVITIES

This chapter consists of the analysis of various finger print related transactional activities performed in States/UTs. There was a need of minor modifications in ASR 2018 like removal of No. of search slip from record section and removal of No. of record slip from Search section and minor amendment in Chance print information. The revised ASR 2019 form has facilitated in gathering crime specific information from the States/UTs.

The States of Punjab, Uttar Pradesh and Tamil Nadu have examined significant number of document cases in the year 2019. States such as Maharashtra & Madhya Pradesh have recorded the highest number of arrestee slips. Record slips of those convicted for murder, grievous hurt, rape and attempt to murder are the highest in number as compared to other IPC heads whereas the search slips recorded also demonstrate a sharp rise in crimes such as assault on women, kidnapping, and abduction. The number of persons arrested and convicted for the offence of theft is higher than those involved in each of robbery, burglary and dacoity. The number of persons arrested and convicted for NDPS comes second after other SLL crimes. States of Madhya Pradesh and Punjab received the highest number of conviction slips.

Chapter V - CAPACITY BUILDING

This chapter provides information pertaining to capacity building and various training programs conducted during the calendar year. CFPB/NCRB organizes a number of training/refresher courses for police officers/staff of FPBx from India as well as from foreign countries.

	(A) NUMBER OF		(B) NUMBER OF	
	Persons Trained at		Own Staff Trained at SFPBx	Other Officials Trained at SFPBx
	CFPB NEW DELHI	CFPB KOLKATA		
TOTAL	154	175	361	25,817

ANNEXURE:

Useful information like pioneers of Finger Print Science, laws related to fingerprints in India, recommendation of XIX All India FP Directors conference, staff posted in various Finger Print Bureaux, overview of NAFIS, availability of different types of equipment in each State/UT, list of AIBE toppers, standard books on finger print science, contact details of State FPBx are covered in the annexure part of this publication.

METHODOLOGY OF DATA COLLECTION AND CONTENT FORMATION

The Bureau brings out its annual report entitled 'Finger Prints in India', which is a collection of statistical data on the performance and activities of States/UTs Finger Print Bureaux, CFPB, and other information related to Finger Prints.

The process of publication of the annual report i.e. 'Finger Prints in India' consists of the following steps:

- i. Letter was sent during this year to all the Finger Print Bureaux of the country to send data and information about their activities in the standard Annual Statistics Report (ASR) form. It had the following details :
 - a) Number of convicted persons' finger prints maintained at the State Fingerprint Bureau during the beginning of the year, number of FP slips added in the year under consideration, FP slips received but returned back to police station due to errors, number of FP slips digitized and entered into AFIS, number of FP slips eliminated.
 - b) Similar type of information is received in respect of arrested persons.
 - c) Number of FP cases received at Finger Print Bureau seeking previous criminal history, number of cases traced pendency at Finger Print Bureau.
 - d) Record of convicts such as who prepared FP slips, method of preparation of FP slips, governing rules, dispatch of slips.
 - e) Category of offences for which Finger Prints obtained in the State Finger Print Bureau.
 - f) Single Digit Section, Scene of Crime details, Documents Section (Govt. and others), Absconder Action/Death Reports.
 - g) AFIS details regarding its connectivity and functionality status in SFPBx along with availability of FP Live Scanner.
 - h) Details of training courses being run, its faculty strength and cross-section of officials attending it from police and non-police background.
 - i) Organizational structure of existing FPBx of States/UTs including sanctioned strength, actual strength, vacancies and DFPB as well as source of allotment of funds to them.
 - j) Summary on the milestones achieved by the Bureaux of States/UTs and suggestions for future developments.
 - k) Information in connection with the crime data related to finger prints by categorizing into various crime heads such as; Murder (Section 302), culpable homicide not amounting to Murder (Section 304), Causing death by Negligence (Section 304-A), Dowry deaths (Section 304-B), Abetment to suicide (Section 305/306), Attempt to Murder (Section 307) & Culpable

Homicide (Section 308), Grievous Hurt (Section 325,326), Acid Attack (Section 326A, 326B). Assault on Women (Section 354,354A, B,C,D), Kidnapping & Abduction (Section 363,363A,364,364A,366A, B& Section 365 to 369) Human Trafficking (Section 370, 370A,372,373), Rape (Section 376) etc.

- l) Information on finger print (Record and Search) slips about Foreign Nationals committing crime in India and also about Indians involved in crime abroad.
 - m) Information about R&D activities taking place in the SFPBx.
 - n) Chance Print (Scene of Crime) details describing a clear picture of chance print comparison happening in SFPBx and in districts. The table has a column to specify Chance Prints lifted by Finger Print staff, police personnel or other staff.
 - o) Provision is made to furnish judgment details regarding important cases solved by SFPB.
 - p) Information about finger print equipments available at state FPB or subordinate offices.
 - q) Information on vehicles available for finger print work at state, district and police station levels is also introduced.
- ii) On receiving the data from States/UTs, CFPB officials compile and verify with the statistics of previous years. If any abnormality is noticed, then concerned States/UTs are asked to reconfirm/rectify.
- iii) Based on the reconfirmed data, this publication is prepared.
- iv) In chapter IV, analytical and graphical representations of transactional details of the states have also been presented for ease of comprehension and comparison.

CHAPTER-I

ACTIVITIES OF CFPB

Chapter – I

ACTIVITIES OF CFPB

The Central Finger Print Bureau is an apex body in the country which co-ordinates, guides, monitors, and provides technical support to the State Finger Print Bureaux, as well as investigation agencies and international organizations like INTERPOL in all matters related to Finger Print Science.

The Bureau maintains the records of 10-digit Finger Print slips of persons convicted under various laws as per OM No. 115/POLICE (L)/55(8) Intelligence Bureau, Ministry of Home Affairs, Government of India, dated 19.02.1955, on the subject of 'Establishment of CFPB and Instructions to be followed by State Bureaux and District Police Officers in sending FP Record Slips'. As on **31.12.2019**, the number of digitized Finger Print slips maintained in the database is **12, 66,147** which is tantamount to over 12 million (or one crore finger impressions). State Finger Print Bureaux and INTERPOL (through CBI) regularly request CFPB to furnish the previous criminal antecedents of the arrested persons by sending the arrested persons' Finger Prints. Similar requests are also being made to CFPB concerning Chance Prints developed at the Scene of Crime (SoC).

The Bureau imparts training in various aspects of Finger Print Science to police and non-police personnel coming from States/UTs of India. The Bureau is also mandated to conduct All India Board Examination (AIBE) annually for the accreditation of Finger Print Experts. All India Conference of Directors of Finger Print Bureaux of States/UTs is also organized by CFPB with the assistance of a State/UT which wishes to host the event. The conference provides a forum for Finger Print professionals to deliberate on recent advancements in the field of Finger Print science and other issues concerning the Finger Print fraternity of the nation. CFPB has a branch at Kolkata which is mainly organizing training courses for the North Eastern States and examining the questioned documents.

A. National Automated Finger Print Identification System (NAFIS)

National Automated Fingerprint Identification System (NAFIS) has been conceptualized on the principles of the cloud computing model where fingerprints will be digitized at the district level itself and transferred to CFPB through hardware and software provided by NCRB. The solution provider has established the Datacenter at NCRB Hqrs by installing the required number of servers, network switches, firewalls etc. The operating environment of NAFIS will be Linux Operating System with Oracle database and ALFRESCO document management system. NAFIS solution has been customized to accommodate Indian requirements and the suggestions made during the User Acceptance Test are also incorporated. A sufficient number of fingerprint matchers have been installed to accommodate 500 concurrent users and to give a result within 18 seconds. The disaster recovery center has been established at NDC, Bhubaneswar.

The digital Fingerprint slips will be stored in dedicated virtual partitions allotted to each State/UT in the Central NCRB server. Only authorized users from States/UTs can edit/modify/update the data stored in the exclusive space allotted to the States/UTs with an audit trail. They will however be able to make searches across the data of all the States/UTs for identifying inter-state criminals. Under this Project, each District has been provided with

one work station, one fingerprint enrolment device, one flatbed scanner, and two single-digit live scanners. Fingerprints of the criminals can be enrolled directly with FED provided at each District Hqrs, whereas other Police stations can send the FP slips to the District Hqrs for digitization. FP Expert stationed at the District Hqrs can perform all the fingerprint activities such as obtaining the previous criminal history of suspected/arrested persons, enhancing the quality of the chance prints lifted from the crime scene, national-level matching of chance prints lifted from the crime scene, examining the questioned documents, etc. With the help of a Bio search Mobile app delivered under this project, it is possible to verify the antecedents of the suspect persons in the field itself. Thus, NAFIS will be a game-changer as it will drastically reduce the time and efforts of the investigating agencies, because the investigator will be able to get the results online.

Around 45 lakhs of Fingerprint slips are in digital form in different State AFIS Servers which are being migrated into NAFIS. Further, infrastructure has been established at CFPB New Delhi, Lucknow and Bhopal for digitizing about 15 lakhs physical slips available in different States/UTs. When such a voluminous fingerprint data is made available in NAFIS for searching, many interstate criminals are likely to be traced resulting in solving several unsolved cases, through fingerprint matching. Moreover, Investigating Officers will be immensely benefitted because the chance prints lifted from the crime scene will be processed immediately at the District Hqrs.

A large number of countries including Interpol are maintaining the fingerprint database in NIST format and therefore NAFIS is also built as per NIST standards. States like Andhra Pradesh, Karnataka, Kerala, Maharashtra, and Telangana have recently installed the NIST compliant AFIS system, and to protect their investment, bridge software is being developed to replicate their data into NAFIS. However, all these States will also be making national searches with the equipment provided by NCRB.

NAFIS and CCTNS are being integrated for the exchange of the demographic data. Since demographic data is being entered in CCTNS when a criminal is arrested/convicted, such details need not be re-entered by FP experts and instead, all such details will be copied into NAFIS. Generally, FP experts are not conversant with typing and CCTNS integration will relieve them from the burden of data entry. Further, NAFIS will enable a unique identifier of the criminal to CCTNS, so that all crimes committed by an individual can be easily determined.

The solution provider will be training about 300 persons on the usage of NAFIS. Subsequently, CFPB officers will conduct such trainings in all the States/UTs. It is planned to conduct NAFIS training until a sufficient number of trained manpower is available for operating NAFIS workstations. Training courses are also conducted on topics like System Administration, troubleshooting. Disaster Recovery Centre has been established at NDC, Bhubaneswar which will become active, if the data center is down for any reason. Hence, NAFIS services will be available to all the users even if a disaster happens in Delhi.

B. Important Document Cases solved at CFPB, New Delhi

During the year, 2019-20, CFPB, New Delhi office gave an opinion on 90 cases received from different agencies like Post office, police agencies like CRPF, recruitment agencies like SSC, Banks, etc. Brief descriptions of some of the cases are given below:-

- I.** SSC, Prayagraj has forwarded, 31 cases of suspected impersonation during the recruitment process to the Central Finger Print Bureau, with a request to examine the questioned documents and the specimens. It was informed that they had approached CFPB after getting a summon from Allahabad High Court, with a directive to appear with a report on comparison of fingerprints. The cases pertained to the examination of questioned documents of the candidates who appeared in the written examination. In most cases, the prints were of very poor quality posing difficulty in examination with an additional pressure of time from the SSC to furnish the expert opinion on a priority basis. Despite all the odds, the experts showed full dedication displaying the best professional skills, and the impersonation in the cases was established.
- II.** CFPB had received 19 Document cases from Sr. Supdt. of Post Offices, Solapur Division, Solapur-413001. In these cases, withdrawal slips of various depositors bearing Fingerprints were received to be compared with the specimen fingerprints present on relevant claim forms and written statements of the depositors. Luckily, most of the questioned prints were of decipherable quality but the specimen prints were of extremely poor quality. The postal authorities were repeatedly contacted by post, phone, etc. and they were even offered the assistance of services of the state fingerprint experts for the purpose, but it proved to be next to difficult for acquiring the better prints. Ultimately, the highest postal authorities in the state were contacted with a request to direct the concerned authority. Finally, the specimen prints of decipherable quality were received and experts of CFPB could conclusively establish impersonation.
- III.** International Case: A case of land transaction deal was received from Bhutan. In this case, the land belonging to Mrs. Tshering Choki was already transferred to Mrs. Jigme Chodan in original documents received from Royal Govt. of Bhutan, National Law Commission, Department of Land Administration and Management (Urban Division). But Ms. Tshering Choki denied execution of the agreement and prayed for verification of the finger impression on the land agreement.
- On examination of the relevant documents, experts could establish that specimen prints on fingerprint slip and questioned prints on agreement form were different leading to the conclusion that the original proprietor of the land did not participate in the transaction agreement deal.
- IV.** Plenty of cases were received from CRPF Allahabad, Chhattisgarh, and other places regarding impersonation in recruitments in which most of the questioned prints happened to be of poor quality. Despite these challenges, fingerprint experts utilizing their professional expertise and competence did their job with repeated checks, cross-checks, and photography. Experts, with sheer diligence, perseverance, and skill could finally furnish their opinion.

C. Important Document Cases Solved at CFPB, Kolkata

During the year 2019, a total of 36 numbers of document cases have been received in this office from different Ld. Courts, CBI, nationalized Banks, Railways, Post Offices, LIC, etc., out of which 23 cases have been examined and opinion of the experts have been furnished thereon.

I. Document Case No. 28/2019:

A notable case was received from the Branch Head, Punjab National Bank, BO Barachatti, Gaya. In this case, the accused had withdrawn a total sum of Rs. 1, 55,000/- fraudulently on different dates from Savings account No. 1205000100143160 in the name of Munna Prasad Gupta by producing withdrawal slip and affixing his finger impressions. All the withdrawal slips along with the specimen finger impressions of the original account holder, i.e. Munna Prasad Gupta have been forwarded to this office by the Bank authority for the examination of disputed finger impressions and furnishing expert's opinion thereon.

On being examined, it was detected that the finger impressions appeared in the withdrawal slips were different from the specimen finger impressions of the original Account Holder i.e. Munna Prasad Gupta.

II. Document Case No.07/2019:

A case had been received for the examination of the Fingerprints in the land deed, to be compared with the finger impressions that appeared in the records (Register) maintained at Registration Directorate, Kolkata. from the Ld. Chief Judicial Magistrate, Sultanpur (U.P) vide FIR No. 85/2016 U/s 419, 420, 506 IPC, Police Station Kotwali Lambhua, Sultanpur. In this case, Smt. Prabhawati Devi intended to sell her one plot (land) in Sultanpur, Uttar Pradesh. In the due course of this dealing, the Land Deed bearing finger impressions of Smt. Prabhawati Devi has been forwarded to the Registration Directorate (Registrar of Insurance, 5, Govt. Place North, Kolkata-1) where all the records of the land were maintained.

All the related documents have been received by this office from Ld. OM, Sultanpur (U.P.) for examination whether the finger impressions appeared in the Land Deed are the same with the finger impressions that appeared in the records (Register) maintained at Registration Directorate, Kolkata. After a thorough examination, it was found that the finger impressions in the name of Smt. Prabhawati Devi that appeared in the Land Deed was different from the finger impressions that appeared in the Register maintained at Registration Directorate, Kolkata.

D. Amendments in Identification of Prisoners Act 1920

CFPB requested all States/UTs to offer their views about the amendments required in the Identification of Prisoners Act 1920. Representatives of few neighboring states like Haryana, Delhi, and Uttar Pradesh along with BPR&D were invited to NCRB for meetings and a lot of deliberations were held in this regard. Information about modern biometrics was collected and a detailed proposal was prepared to highlight all the clauses that require amendment. The comprehensive justification was also worked out and the same was sent to MHA for approval. Meetings were held at MHA and the file was forwarded to the legal department. The Act, if amended would include more number of arrestees/convicts leading to a significant increase in the national database. The key amendments proposed were: Change of title to 'Identification of Arrested and Suspected Persons' Act; inclusion of biometrics such as Palm Impressions, Voice samples, Iris Scan, DNA typing, etc. ; Removal of mandatory one-year rigorous imprisonment clause; powers for Magistrate to order for taking measurements of juveniles.

E. XX All India Conference of Directors of Finger Print Bureaux held at, National Crime Records Bureau (NCRB), New Delhi.

The XX All India Conference of Directors of Finger Print Bureaux of States/UTs was organized on **17th & 18th October 2019** at the National Crime Records Bureau (NCRB), New Delhi. Hon'ble Minister of State Shri. G. Krishna Reddy inaugurated the conference and emphasized the importance of Fingerprint Science in the criminal investigation. The conference was attended by **78** delegates from various Finger Print Bureaux of the States/UTs, CFSL-CBI, NIA, FSL, postgraduate and research students from Colleges and Universities offering Forensic Science and Criminology course. A team of officers from the Central Finger Print Bureau / NCRB played a significant role in making this event a huge success.

Pic.No.1: Chief Guest Hon'ble Minister of State (Home) Shri G. Krishan Reddy and other dignitaries inaugurating the Conference.

Pic.No.2: Release of "Finger Prints in India 2018" by the Chief Guest.

In the inaugural function Smt. Punya Salila Srivastava, IAS, Joint Secretary, Ministry of Home Affairs, emphasized the importance of the National Automated Finger Print Identification System (NAFIS) and how it helps in the police investigation. Shri Ram Phal Pawar, IPS, Director, NCRB, and other senior dignitaries and delegates graced this occasion.

G. All India Board Examination for Finger Print Experts 2019

The Central Finger Print Bureau (CFPB), NCRB has been conducting “All India Board Examination” (AIBE) for accreditation of Finger Print Experts since 1958. This year AIBE-2019 was conducted from 16th to 18th November 2019. The examination comprised of theory, practical and viva-voce examination. A total number of 41 eligible nominations were received and 04 candidates were absent from the examination. Thus, 37 candidates have appeared in the examination but 10 candidates failed to clear the examination. So the passing percentage of AIBE 2019 was 94.5%. First Position was bagged by Sh. Sudheesh K.V., Finger Print Searcher from Kerala scoring 235.5 marks out of 250. Results are made available on NCRB website, www.ncrb.gov.in

H. 62nd All India Police Duty Meet (AIPDM) 2018 held from 16th to 20th July, 2019 at Lucknow, Uttar Pradesh

Scientific Aids to Investigation competition at All India Police Duty Meet is generally held in 6 disciplines namely (i) Finger Prints (ii) Crime Investigation, Criminal Laws, Rules & Procedures and Court Judgments (iii) Police Portraits (iv) Observation (v) Lifting and Packing of Exhibits and (vi) Photography. For Finger Print competition, the team from CFPB creates a mock scene of crime (SoC) with 2 or 3 objects on which latent finger impressions are provided. The nature of the objects is such as to necessitate the use of 2 or 3 different types of powders for developing the latent fingerprints. Each competitor is asked to examine and develop these latent prints within the prescribed time not exceeding 20 minutes.

62nd All India Police Duty Meet (AIPDM) 2018, was held from 16th to 20th July 2019, at Police Head Quarters (Signature Building), Lucknow, Uttar Pradesh. To evaluate Finger Print competition, Sh. Shibajee Tripathy, Dy.Suptd (FP) and Sh. Aftab Alam, Dy.Suptd (FP), were deputed as judges from CFPB, Delhi. Their team arranged the crime scene and Judges examined the developed prints during the event. In the event, candidates bearing chest number 455, 425 and 438 had secured First, Second and Third position respectively.

I. Meeting on Manpower:

A meeting under the chairmanship of JD (CCTNS) was held on 18.02.2019, for suggesting Manpower & staffing pattern for State FPBx. Total 15 Directors and Officers from State Finger Print Bureaux attended the meeting and suggested staffing strength based on the number of PS, crime rate accordingly (Large, Medium & Small states). The committee discussed the subject in detail and arrived at the following recommendations:

- a) Each Police Sub division (SDPO) will have one Sub Inspector (FP) and one Police Constable (FP)/Multi-tasking Staff.
- b) Each Police District will have one Inspector (FP) and one Photographer in the rank of Head Constable (FP).
- c) Each Range will have one Dy SP (FP) and one Police Constable (FP)/Multi-tasking Staff.
- d) Each Zone will have one Addl. SP (FP) and one Police Constable (FP)/Multi-tasking Staff.

CHAPTER-II

ACTIVITIES OF STATE FINGERPRINT BUREAUX

ACTIVITIES OF STATE FINGER PRINT BUREAUX

Finger Print Bureaux operating in States/UTs are assisting Police in their investigation by visiting the scene of crime and matching the chance prints developed at the scene of crime (SoC) with the FP database. Some of the important cases solved through Fingerprint science in various states are highlighted below:

ANDAMAN & NICOBAR ISLANDS

1. **P.S. Aberdeen, District South Andaman, FIR No. 347/2019, Dated 18.06.2019 u/s 454/380/34 IPC**

On 18.06.2019, a team lead by Fingerprint Expert Sh. T.K. William, a Sub-Inspector from Fingerprint Cell (CID) visited the crime scene u/s 454/380/34 IPC of P.S. Aberdeen, Port Blair. After a thorough examination of the scene of crime, Sh. T. K. William developed chance prints on the glass object, using black and silver powder. Later it was found identical with the right index finger and right middle finger of the search slip of the suspect Vinod Varma S/o late Munnalal. Thus, the fingerprint expert helped in providing scientific and infallible evidence against the culprit.

2. **P.S. Pahargaoan, District South Andaman, FIR No. 496/2019, Dated 26.11.2019 u/s 457/380 IPC**

On 26.11.2019, a team lead by Fingerprint Expert A.K. Mourya (PC/667) from fingerprint cell (CID) visited the crime scene u/s 457/380 IPC of P.S. Pahargaoan, Port Blair. On thorough examination of the scene of crime, they developed chance prints on the maroon colored Tile using white powder. Later they were found identical with the right middle finger and right ring finger of search slip of the suspect Mahesh Singh S/o Maran Singh, r/o Brookshabad Thus, the fingerprint expert helped in providing scientific and infallible evidence against the culprit.

ANDHRA PRADESH

1. **P.S. Srikakulam-II Town, District Srikakulam, FIR No. 232/2019 Dated 13.10.2019 u/s 457,380 IPC**

This is a grave HB offence that occurred on 13-10-2019 and the offender escaped with the booty worth of Rs. 17,00,000/-. Fingerprint Expert B. Murali Mohan Rao visited the scene of offence on 13-10-2019 and developed 07 chance prints. After the elimination process with inmate FP slips, a comparison was done with the available database and one chance print was identified with the left middle finger impression of ex-convict: Ponnada Veera babu @ Ravi Shankar, S/o Late Venkateswarlu, aged 29/2019, R/o Yethimoga, Jagannathapuram, Kakinada, East Godavari District, Andhra Pradesh. Based on the report furnished by the FP Expert, the offender was apprehended on 03-11-2019 and the property worth of Rs. 7, 00,000/- was recovered. Importance of Finger Prints was witnessed in the identification of the burglar and in the disposal of a grave crime, related to property.

2. P.S. Pedapadu, District West Godavari, FIR No. 177/2019 Dated 22.08.2019 u/s 457, 380 IPC

This is a grave HB offence, that occurred on 22-08-2019 and the offender escaped with the property worth Rs.15, 00,000/-. FP Expert M.Rajesh visited the scene of offence on 22-08-2019 and developed 08 chance prints. After elimination and examination, the query chance prints were identified with the left ring, left index and right index fingerprint impressions and left-hand palm print impression of criminal Jikkula Rajesh S/o Sathyam, age.20/2017, R/o Kaikondaigudem (V), Khammam Urban (M), Khammam District, Telangana State. Based on the information furnished by the FP Expert, the offender was arrested on 25-09-2019 and the entire property of Rs. 15, 00,000/- was recovered. The Fingerprint was the only clue to identify the criminal which led to solving the case. Thus, the Finger Prints helped the investigating officer in unraveling this crime by providing a vital clue of the culprit.

3. P.S. Prakash Nagar, Rajamahendravaram, District East Godavari, FIR No. 363/2019 Dated 24.11.2019 u/s 457, 380 IPC

This is a grave HB offence, that occurred on 24-11-2019 and the offender escaped with the property worth of Rs.13, 50,000/-. FP Expert K.M.Swaroop Kumar visited the scene of offence on 24-11-2019 and developed 06 chance prints. After elimination and examination, the query chance print was identified with the Left Middle Finger impression of Kuthadi Venkata Ramana, S/o. Thrimurthulu, age:25/2017, R/o Kavalagoyya, Rajahmundry, Rajamahendravaram. Based on the information furnished by the FP Expert, the offender was arrested on 04-12-2019 and the property worth Rs. 20, 00,000/- was recovered from the offender. The Fingerprint was the only clue to identify the criminal which led to the cracking of the case. Thus, the Finger Prints helped the investigating agency to solve this crime, by providing a vital clue of the culprit.

4. **P.S. Arundelpet, District Guntur Urban, FIR No. 610/2019, Dated 30.11.2019 u/s 394 IPC, altered to 302/380 IPC**

In this case, the offence occurred in Sri Sita Ramanjaneya Swamy Temple on 30-11-2019 and the offender escaped with the property worth of Rs.3, 000/-. FP Expert K. Ravindra Reddy visited the scene of offence on 01.12.2019 and developed 05 chance prints. After elimination and examination, the query chance prints were identified with the Left Ring and Left Middle Finger impression of Tanneru Ankamma Rao S/o Veeraiah age: 23/2015, r/o. Opp. Nagurvali Theatre, NimmalaThota, Narasaraopet, Guntur. Based on the information furnished by the expert, the I.O. arrested the offender on 12-05-2019 and Rs. 582/- were recovered from the said offender. This was only due to the Fingerprint clue, the criminal was identified and the case was solved. In this case, the injured lady was shifted to Govt. General Hospital, Guntur for treatment, and while undergoing treatment the injured lady died on 08.12.2019. Hence in the case, the section was later altered from 394 to 302, 380 IPC.

5. **P.S. Arilova, District Visakhapatnam City, FIR No. 28/2019, Dated 12.04.2018 u/s 457/380 IPC**

This is a grave HB offence, that occurred on 17-01-2019 and the offender escaped with the property worth of Rs.22, 95,000/-. FP Expert T. Ramachandra Rao visited the scene of offence on 17-01-2019 and developed 18 chance prints. After elimination and examination, the query chance print was identified with the left Middle Finger impression of ex-convict Dangeti Sathish S/o Prasad, age:27/2011, Occupation -Watchman, r/o: D.no.15-08-33 Near Kanakadurga Hospital Down, Venkateswara Nagar, Visakhapatnam City. Based on the information furnished by the FP Expert, the offender was arrested on 25-01-2019 and the property of Rs. 6, 60,000/- was recovered. In this case, the chance prints lifted from the scene of crime were the only clue to establish the identity of the accused, which was scientifically proved in the court of law beyond doubt. Thus,

this case stood as a classic example to denote the significance of fingerprint evidence in crime investigation and legal acceptance. FP Expert Sri T. Rama Chandra Rao attended the court of Chief Metropolitan Magistrate at Vishakhapatnam City on 18.06.2019 and deposed his evidence and scientifically proved the presence of accused at soc beyond doubt. The Honourable Court considered this scientific evidence as very crucial and sentenced the burglar with Rigorous Imprisonment (RI) for six months.

ASSAM

1. P.S. Azara, District Kamrup, FIR No. 5/19, Dated 07.03.2019, u/s Nil

On 07/03/2019, at 1.25 pm, one HC/GD/CISF S.I. Sh. Surendra Singh shot himself with INSAS Rifle at the airport cargo gate, LGBI Airport during duty time. Later, the doctor declared him dead. Fingerprint Expert Rishi Deb visited the Scene of crime i.e. LGBI airport cargo gate, Borjhar, Guwahati, and collected 2 chance prints on the exhibit i.e. “One 5.56 mm INSAS Rifle butt no. 24 & body no. 18491075”. The Rifle was used to commit suicide by HC/GD/CISF S.I. Surendra Singh. The chance print on the exhibit, marked as “C-1” was found Identical with the specimen LTI, marked as “S-1” collected from the dead body of Surendra Singh. Based on the F.P. Expert’s Opinion, the I/O of the case submitted Final Report to the Court and the case was closed.

CHHATTISGARH

1. P.S. Nandghatchokey-chandnu, District Bemetara, FIR No. 136/2019, Dated 20.04.2019, u/s 302 IPC

A minor girl Madhu D/o late Babulal Satnami, age 15 years R/o Chandnu Chouki PS Nandghat, district Bemetara lived in her uncle’s house. While she was alone, her uncle who is the accused Bhuneshwar Goyal, entered the house with the intention of rape but due to failure, he murdered her by a mattock. Chouki Incharge of Chandnu, PS Nandghat visited the scene of crime and seized the evidence such as wooden ‘belan’, electronic induction, mirror and mattock and sent it to the Finger Print Bureau for fingerprint examination. Fingerprint expert received the evidence and developed chance prints on the mirror, wooden ‘belan’, and wooden handle of mattock with the help of silver and black fingerprint powders and marked them as A, B, C & D and then photographed. The developed fingerprints were compared with the suspect’s specimen ten-digit impressions and the developed print, marked “C” was found Identical with left thumb impression of Bhuneshwar Goyal. On the basis of fingerprint evidence, the accused was convicted for life imprisonment and fine.

2. **P.S. Nandghat, District Bemetara, FIR No. 151/2019, Dated 07.05.2019, u/s 302 IPC**

Accused Sanju Nishad S/o Hari Nishad entered the house of Smt. Hirabai Dehariya r /o Gariyari, PS Nandghat, District Bemetara with the intention of theft but the victim opposed the act, so the accused assaulted on her head by a steel pitcher (Gundi). On 07.05.2019, the investigation officer visited the scene of crime and found a blood fingerprint on the steel pitcher and seized the evidence. Fingerprints were developed on Steel pitcher (Gundi), black color amplifier, steel tiffin box, a wrench, and an aluminum container and were marked as A, B, and then photographed. The developed fingerprints were compared with the suspect's specimen ten digit impression slips and the developed print marked "A" was found Identical with right index impression of Sanju Nishad (16) S/o Hari Nishad. On the basis of finger print evidence, the accused was sent to a juvenile correction home.

DELHI

1. **P.S. Kalyanpuri, District East Delhi., FIR No. 520/2018, Dated 13.10.2018, u/s 363/376 DA/34 IPC & 6, 17 POCSO Act**

During the investigation of the kidnapping-cum-Gang Rape case, specimen finger/palm impressions of four suspected persons were received for comparison with the chance prints, and this case was given to SI Narender Singh for comparison and expert's opinion thereon. In this way, experts of FPB not only helped the local police in solving a kidnapping-cum-Gang Rape case but also provided them with scientific & infallible evidence against the culprit. In this case, the identity of the criminal was established by SI Narender Singh and confirmed by Insp. A. P. Verma (Sr. F. P. Expert & I/c Case Work).

2. **P.S. Amar colony, District South-East Delhi, FIR No. 34/2019, Dated 27.01.2019, u/s 302/392/397/411/120-B IPC**

During the investigation of the Murder-cum-robbery case, specimen finger/palm impressions of one suspected person were received for comparison with the chance prints, and this case was given to Insp. N. K. Sharma for comparison and expert's opinion thereon. On comparison, the chance print marked "Q1" was found IDENTICAL with Left ring finger impression of the suspected person CCL Juber Ahmed S/o Abdul Ahmed R/o F-3/169, Near Alui Masjid, Sangam Vihar, Delhi. In this way, experts of FPB not only helped the local police in solving the case but also provided them with scientific & infallible evidence against the culprit. In this case, the identity of the criminal was established by Insp. N. K. Sharma and confirmed by Insp. A. P. Verma (Sr. F. P. Expert & I/c Case Work).

3. **P.S. Rajouri Garden, District West Delhi, FIR No. 269/2019, Dated 14.07.2019, u/s 397/302/411/34IPC & 25 Arms Act**

During the investigation of the robbery-cum-murder case, specimen finger/palm impressions of four accused persons were received for comparison with the chance prints and this case was given to Insp. Avdesh Kumar, Finger Print Expert for comparison and expert's opinion thereon.

On comparison, the chance print marked “Q1” was found IDENTICAL with Right Palm portion of, one of the accused, Aviash S/o Vijay Kumar R/o H. No. 243, TC Camp, Raghubir Nagar, Delhi. The chance prints marked “Q3, Q4 & Q5” were found IDENTICAL with right index, right middle & right ring finger impressions respectively of Deepak S/o Chand Pal R/o E-169, Raghubir Nagar, Delhi, another accused person. The Chance prints marked “Q8 & Q9” were found IDENTICAL with Right Middle & Right Ring finger impressions of the third accused person, Himanshu S/o Shayam R/o E-62, Tagore Garden Extn. 80 Gaj, Rajouri Garden, Delhi. In this way, experts of FPB not only helped the local police in solving a robbery-cum-murder case but also provided them with scientific & infallible evidence against the culprit. In this case, the identity of the criminal was established by Insp. Avdhesh Kumar and confirmed by Insp. A. P. Verma (Sr. F. P. Expert & I/c Case Work).

4. P.S. Vasant Vihar, District South-west Delhi, FIR No. 84/2019, Dated 23.06.2019, u/s 302/201/397/120-B/411 IPC

During the investigation of the robbery cum murder case, specimen finger/palm impressions of two suspected persons were received for comparison with the chance prints, and this case was given to SI Madan Lal for comparison and expert’s opinion thereon. On comparison, the chance print marked “Q4” was found IDENTICAL with the left palm portion of one of the suspected persons, Manoj Bhatt S/o Dharma Nand R/o 1202-A, Maruti Vihar, Chakarpur, Gurgaon, Haryana. In this way, experts of FPB not only helped the local police in solving a robbery cum murder case but also provided them with scientific & infallible evidence against the culprit. In this case, the identity of the criminal was proved by SI Madan Lal and confirmed by Insp. A. P. Verma (Sr. F. P. Expert & I/c Case Work).

5. P.S. Sultanpuri, District Outer Delhi, FIR No. 932/2019, Dated 16.09.2019, u/s 302/324/506 IPC & 25/27 Arms Act

During the investigation of the murder case, specimen finger/palm impressions of one suspected person were received for comparison with the chance prints, and this case was given to SI M.S. Bisht, Finger Print Expert for comparison and expert’s opinion thereon. On comparison, the chance print marked “Q2” was found IDENTICAL with the right little finger impression of the suspect, Firoj Khan @ Khanni S/o Jameel Khan R/o H. No. P-4/913, Sultan Puri, New Delhi. In this way, experts of FPB not only helped the local police in solving a murder case but also provided them with scientific & infallible evidence against the culprit. In this case, the identity of the criminal was proved by SI M.S. Bisht and confirmed by Insp. A. P. Verma (Sr. F. P. Expert & I/c Case Work).

GOA

1. P.S. Fatorda, District South District, FIR No. 104/2018, Dated 22.01.2019 u/s 302 IPC

On 22.01.2019, one sealed envelope was received from SP, south office requesting therein, to examine the material objects i.e one 750 ml whiskey bottle, make Real. During the examination of the said bottle, Fingerprint Expert had developed 01 chance print. During comparison by First Expert Shri U.L. Naik, the Chance print marked as “X1” was found Identical with left Index Finger impression of the arrested accused person namely Siddalingappa S/o Gangawa Bisnal R/o Malbhat Margo. The case is under trial.

2. **P.S. Pernem, District North District, FIR No.135/2019, Dated 12.07.2019 u/s 302, 201 r/w 34 IPC**

A wireless message was received from PI Pernem PS, on 12.07.2019, requesting therein to visit SOC in the Jurisdiction of Pernem Police Station. The SOC team proceeded to Siolim Gudem Bardez, where a steel rod for committing the crime was found abandoned. Accordingly, the fingerprint team visited SOC and during the inspection, developed one chance fingerprint on the steel rod and the same was photographed by the photographer. During comparison by First Expert Shri U.L. Naik, the Chance print marked as "X1" was found "Identical" with Right Little Finger impression of the arrested accused person namely Sandesh s/o Ghanasham Khadapkar.

3. **P.S. Maina Curtorim, District South District, FIR No. 13/2019, Dated 20.02.2019 u/s 454,380 r/w 34 IPC**

On 20.02.2019, a H.B.T. case was registered at Maina Curtorium PS. The SOC was at H. No. 78, Murida Grandee, Nuvem Salcete, Goa. Upon inspection, two chance prints were developed and the same were photographed. During comparison by First Expert Shri U.L. Naik, the two chance prints were found "Identical" with Right ring and Left Ring Fingerprint on finger impression slip of the arrested accused person namely Swamy Lamani S/o Ramesh. On the basis of Fingerprint report, the investigation officer is in a position to investigate the said case thoroughly. The case is under trial.

4. **P.S. Pernem, District North District, FIR No.192/2018, Dated 20.11.2018 u/s 380 IPC& 03 Explosive Act**

On 20.11.2018, the Finger Print team visited SOC, the ATM machine of Bank of India, where the culprit by using some explosive substance, blasted ATM and decamped with cash amounting to 90,00,000/-. On 07.03.2019, Finger Print Slip of the accused person was received in the Bureau and was subjected to matching by First Expert Shri U.L. Naik. The chance print marked as "X1" was found Identical with the Left Index finger impression of the suspected accused person namely Igor Marker, a Russian National and was arrested by Pernem Police Station. The case is under trial.

GUJARAT

1. **P.S.N.C.B., M.H.A., Department of Internal Security, GOI, Ahmedabad Zonal Unit, District -Ahmedabad, FIR No. NCB/AZU/CR-07/2017, Dated 01.08.2018 u/s NDPS Act**

F.P. Expert Shri A.C. Prajapati along with FSL Team visited the crime scene on 02/08/2017 at Porbandar, in P.S. N.C.B., M.H.A., Ahmedabad Zonal Unit, District Ahmedabad. There he examined suspected articles in the bridge (Wheel House) on ship "HENRY". After a thorough examination, five chance prints were developed on the suspected articles – GPS system and Trans Receiver screen. NCB Ahmedabad, registered a case in which a total of 1445 kgs HEROIN was seized and 8 persons were arrested. Ten digit Fingerprint slips of 8 (eight) accused were received

at the office of DFS, Gandhinagar. On a thorough comparison of 5 (five) chance prints with the Fingerprint slips of the 8 (eight) accused, one chance print was found identical with the left thumbprint of accused Dinesh Kumar Shridal Yadav.

HARYANA

1. **P.S. Sec.50 GGM, District Gurugram, FIR No. 470/2018, Dated 13.10.2018, u/s 302/307 IPC& 27/54/59 Arms Act**

In this case, chance print documents were received on 22.10.2018 in the bureau from the local police (Gurugram) for examination and comparison. The photographed chance prints were examined and compared with sample 10 digit finger impressions as well as palm prints of PSO/Ct. Mahipal S/o Hoshiyar Singh. Chance prints were examined and the case was solved by efforts of F.P. expert Sh. Pritam Singh, Karnail Singh, and Ramesh Chand. The chance prints were found on the pistol used at the time of the incident. Hon'ble Additional Sessions Judge, Gurugram convicted the accused on 09.01.2019 and on 07.02.2020, sentenced him to the death penalty and fine of Rs. 15000/

JHARKHAND

1. **P.S. Arogra, District Ranchi, FIR No. 84/2019, Dated 07.03.20189, u/s 302/120B/201/34 IPC& 27 Arms Act**

In the sensational murder case of two persons in Ashok Nagar building under Arogra P.S., related to Arogra P.S., case no. 84/19 dated 07.03.19 U/S 302/120B/201/34 IPC & 27 Arms Act, the chance fingerprint marked 'C' on the upper surface of the door matched with the left ring finger of the accused Dharmendra Kr. Tiwari, marked 'X'. Thus FPB, CID, Jharkhand, Ranchi helped in the identification of one of the main culprits.

2. **P.S. Kandra, District Seraikela-Kharsawan, FIR No. 49/2019, Dated 14.09.2019, u/s 302/120B/201/34 IPC and 25(1-b) a/26/35/37 Arms Act**

In this typical murder case of a person Sheoji Prasad, a case was instituted in the Khandra PS, case no. 49/19 dated 14.09.19 U/S 302/120B/201/34 IPC and 25(1-b) a/26/35/37 Arms Act of Seraikela-Kharsawan district, by the son of the deceased Atul Kumar against Shrawan Mahto S/o Ashok Mahto and police were right in suspecting him. They lifted chance prints and marked as 'A', 'C', and 'D', and the prints matched with the right middle, right thumb, and right ring finger impressions of ShrawanMahto.

3. **P.S. Nirsa, District Dhanbad, FIR No. 220/2019, Dated 01.10.2019, u/s 395 IPC& 3/4 Explosive Act**

In the sensational dacoity case in Nirsa, Dhandbad branch of AXIS bank, under Nirsa PS case no. 220/19 dated 01.10.19 U/S 395 IPC & 3/4 Explosive Act of Dhanbad , district fingerprint unit came to the rescue of the investigation team. The chance fingerprint marked 'B-2' and 'B-3' found on the PO, matched with the left middle and left index finger impressions of the suspect Jai Sahni S/o Rajendra Sahni, and thus the case was solved.

4. **P.S.Argora, District Ranchi, FIR No. 345/2019, Dated 16.10.2019, u/s 457/380 IPC**

In a complicated theft case of Argora PS, case no. 345/2019, dated 16.10.2019 U/S 457/380 IPC of Ranchi district, fingerprint decidedly established the identity of the suspect Arun Xalko S/o Soma Xalko. MADHYA PRADESH

1. **P.S. Kotwali Khargone, District Khargone, FIR No. 563/2019, Dated 20/11/2019, u/s 457/380 IPC**

Mr. Mahesh Gehlot, F.P. Expert Khargon, visited the scene of crime related to Crime No. 563/2019, U/S 457/380 IPC, Police Station: Kotwali, Dist: Khargone on 20.11.2019. He developed 02 chance prints on the Plastic Box with black powder & marked them "A" and "B". One chance print was found fit for comparison and the other was unfit. He searched the fit chance print with PIN No. 33429113 in AFIS and the print was traced with the record slip of Mukesh S/o Laxman Barela. (PIN No. 33408572 & 33411655) in AFIS Database. Finger Print Expert Shri Gehlot, then informed the Investigating officer about Mukesh S/o Laxman Barela and instructed him to collect the specimen fingerprint of Mukesh for comparison. After getting specimen fingerprints from the investigating officer, Finger Print Expert marked identical points and furnished opinion. In this way, the fingerprint expert helped the investigating officer to solve the case and send the criminal behind the bars. Jewellery & other ornaments of Gold & Silver valued at approx. Rs.10 lacs were recovered and 13 other cases of different Police Stations of district khargone were also solved.

2. **P.S. Kotwali, District Bhind, FIR No. 32/2016, Dated 14/05/2016 u/s 302/34/201IPC**

This is a multiple murder case that shocked the town. When Police reached the house in Virendra Nagar area under Kotwali police station and broke open the door, they found dead bodies of Reena (40) along with her 12-year-old daughter Chhavi and three other minor relatives of the family namely Mahima Vedprakash Shula (17 years), Ambika Brijmohan Shukla (14 years) and Golu Ramkumar Sharma (15 years), who were murdered at their home in Virendra Nagar on 13-14 May 2016. Hands of the dead were tied on the backside & throats of all of them were slit. The accused /murderer Ankur alias Nitesh Dixit was a home tutor for the children and had developed illicit relations with Reena. The children had caught them in compromising situations a few times. This led Reena and Ankur to plot their murder so they did not spill the beans. The three children were reportedly drugged and their throats slit by the duo on 13-14 May 2016. The house was messed up to give a sense of a robbery. Ankur Dixit had given Shukla some sleep-inducing tablets

to be administered to the children. Once the children were asleep, Dixit came over to the house. However, one of the children woke up and caught the couple in a compromising position. Fifteen-year-old Golu, son of Shukla's uncle-in-law, raised an alarm after finding Dixit and Shukla together. Unable to gag the teenager, Dixit allegedly slit Golu's throat with a knife, killing him on the spot. Manjesh Raja Parmar, Finger Print Expert, inspected the spot. Prima facia it was evident that efforts were made to disturb the spot of the incident. After inspecting the spot very minutely, no fingerprints were found on evidence in two rooms. The expert found a steel glass under the bed where the dead body of Reena was lying. The two chance prints found at the scene of crime were compared with the specimen fingerprints of Ankur Dixit out of which one was found identical with the Middle finger of the Right hand of Ankur Dixit. In this case, only two pieces of evidences were found: one was Chance fingerprint and the other was DNA. These were the two pieces of evidence that resulted in justice on **09.03.2019** i.e. Death sentence and fine of Rs.10000.

MAHARASHTRA

1. **P.S. Ratnagiri Rural , District Ratnagiri, FIR No. 142/2019, Dated 19.09.2019 u/s 380 IPC**

Ratnagiri Unit Finger Print Expert Shri M.A. Potphode along with the team visited the crime scene. The accused was habitual to do Housebreaking/Burglary by using duplicate keys but by putting all efforts FP expert developed two chance prints on the mirror of steel cupboard. Upon comparison, one of the chance prints was found identical with the right-hand middle finger impression of the accused Deepak Raghunath. The property lost was of Rs.6, 60,800/- out of which Rs.6, 40,000 was recovered.

2. **P.S. Sahu Nagar, District Mumbai, FIR No. 30/2019, Dated 30.01.2019 u/s 302,201,120B IPC**

Finger Print Expert got the call from Control room regarding a murder. It was a double murder case where a woman and her 4year old daughter were murdered. The motive was unknown. When Shri M. J. Mujawar, F.P. Expert visited the scene of crime, he cleverly inspected the SOC and found some faint bloodstains; by using his skills he developed 02 footprints using black powder on the tiles. The footprints were found identical with the footprints of suspect Amrin Faiyyaj Sayyad. During interrogation, it was noticed that the husband and his girlfriend attempted this crime very cruelly by cutting the throat and tried to burn the body. But the evidence proved the presence of girlfriend and the whole story came into light.

3. **P.S. LT Marg, District Mumbai, FIR No. 178/2019 Dated 07.06.2019 u/s 457,380 IPC**

The accused was a habitual offender whose MOB was to sleep outside the shops, nearby the shutter staircase. In the night he used to cut the locks and enter into the shops. F.P. Expert Shri KR Joshi visited the Jewellery Shop & carefully examined all the articles likely to be handled by the culprit. F.P. Expert developed 04 chance prints; two chance prints on the plastic box of Band-Aid using grey powder and two chance prints on wooden drawer using black powder. One chance print was found identical with the right hand finger impression of accused Mohd. Jafar Kalim Sheikh. This was a very important case of Mumbai Police. The Accused was known as “Chuha Mana”. He is very lean and short, so it was easy for him to enter the shops. Another 34 cases of burglary were solved with the help of this case, and the property was recovered by the Mumbai

cops.

4. **P.S. Vani, District Nasik Rural, FIR No. 03/2019, Dated 05.01.2019, u/s 395, 120B, 109, 34 IPC.**

Accused was a van driver and used to pick passengers on road. He badly injured the passenger with the knife, tied his hands, and kidnapped the passenger. The cash amount and articles were forcefully taken away by the van driver. One chance print was developed on the rearview mirror using grey powder and one chance print was developed on dickey, by FP Expert Shri B. N. Kamble. The chance print developed on dickey was found identical with the left hand thumb impression of the suspect Samadhan Ramesh Wagh.

5. **P.S. Nandurbar City, District Nandurbar, FIR No. 10/2019, Dated 09.01.2019, u/s 454,457,380 IPC**

A call was received on 09.01.2019 regarding the robbery of the jewellery shop. Unknown persons broke the lock and entered into the jewellery shop. They had stolen gold and cash from the locker. FP Expert Shri Y.P.Rajput visited the scene of crime and developed 03 chance prints. One of the chance prints developed from the steel plate on the locker was found identical with the left-hand thumb impression of the suspect Santosh Dilip Tijvij. Property recovered – Rs. 2, 42,725/-.

MANIPUR

1. **P.S. Imphal, District Imphal West, FIR No. FIR No. 99(5) 2019, Dated 04/05/2019 u/s 380 IPC**

On 04.05.2019, a team of fingerprint experts from Finger Print Bureau, Manipur visited the crime scene of u/s380 IPC. On thorough examination of the scene of crime, finger print expert L. Chandra kumar Singh, Dy. SP developed a chance print on the glass pane of entrance door using red powder. Later it was found identical with Left Ring finger of Kshetrimayum Alex @ Pritam (32) of Tera Loukrakpam Leirak.

2. **P.S. Imphal, District Imphal West, G.D Entry No. 13, Dated 17-09-2019**

A team of finger print experts from Finger Print Bureau, Manipur visited a crime scene on 17.09.2019. On thorough examination of the scene of crime, fingerprint expert S. Milan Singh, Inspector developed a chance print on a steel almirah (dark red color) using black powder. Later it was found identical with the Right middle finger of Harminder Kaur (47) of Ivioirangkhom Sougaijatn Leirak, Imphal.

MEGHALAYA

1. **P.S. Rynjah, District East Khasi Hills, FIR No. 01/2017, Dated 01.01.2017, u/s 380,457 IPC**

On 06.01-2017, a burglary had taken place in the house of Smt. Sephalin A Sangula W/O Shri Rajon Burman at MNREDA Quaner VIII, Mawpat Shillong. The thief broke into the house and

stolen away 1 (one) Samsung LCD 32 inches TV. Inspector D. Sunn, FP Expert, Sub-Inspector N.K Singh, FP Expert along with photographer from FPE/CID, Shillong, attended the Crime Scene. From the crime scene 3 (three Nos) chance prints were detected and developed from the Godrej Steel Almirah (Grey colour). On 15-05-2017, specimen and palm prints of the suspect were received at the Bureau. During the comparison, the chance print marked as “Q2” was found to be identical with the Right palm print of the suspect Amos Mawthoh.

2. **P.S. Laitumkhrah, District East Khasi Hills, FIR No. 119/2019, Dated 14.10.2019, u/s 380,457 IPC**

The brief of the case is that on 14-10-2019, received an FIR from Smt. Eldalyne Kharsati of Mawlai, Umsiong Umpajung NEHU Gate-2 that a burglary had taken place at her house on 14-10-2019 at 11 AM. The thief broke into the house, destroyed the almirah, and stolen away 1(one) pair of golden earrings which costs approximately Rs. 22000/-, 2 (two) gold rings which cost together around Rs. 50000/-, Money Rs 8000/- and one khadhim school bag (brand new light blue in colour). Sub Inspector R. Warbah, Fingerprint Proficient, and a photographer Ganesh Sunar from FPB/CID, Shillong attended to the case. From the crime scene, 11 nos. of chance prints were developed from the steel almirah (green colour) kept in the bedroom. On 22-10-2019, Specimen fingerprints and palm prints of the suspect were received at the Bureau. During the comparison, the chance print marked as “Q2” was found to be identical with the Left Palm Print of the suspect Samdorlang Nongrang.

3. Detection of impersonators during a Recruitment Rally.

On 31/05/2019, received a letter from the Superintendent of Police, West Garo Hills, Tura that on 4/07/2017 the personal interview of the candidates was conducted by the Central Recruitment Board at 2nd MLP Bn. Premises. During the process, Shri Rothindro Ch. Marak bearing Roll No. 21400586 appeared for the Biometric verification, and at the time of screening, it was detected that his brother Shri. Chingki Ch. Marak had already run on his behalf in the PET held at 2nd MLP Bn, Georagre. The original admit card was issued in the name of Shri Rothindro Ch. Marak. He did not appear for the physical efficiency test but instead sent his brother for the test. The thumb impressions of both the accused were taken and sent to the FPB/CID Shillong with a request to compare the same with the thumb impression on the admit card obtained while conducting PET and the thumb impression obtained during the personal interview. During the comparison, the thumb impression obtained during PET and the thumb impression obtained during the personal interview were not identical. And on further examination, it was found that the specimen left thumb impression of Shri. Chingki Ch. Marak is identical with the thumb impression obtained during PET but found to be not identical with the left thumb impression taken during the personal interview. The specimen fingerprint of Shri. Ruthindro Ch. Marak is not identical with the left thumb impression obtained during PET but it was found to be identical with the left thumb impression obtained during the personal interview.

MIZORAM

1. **P.S. Champhai, District Champhai, FIR No. 122/2019 Dated 10.11.2019 u/s 457,380 IPC**

On 10.11.2019, a crime case was reported at Champhai Police Station, that an unknown culprit had burgled into Canteen of District Court, Champhai, and ransacked the canteen. The I/O had collected one empty can of energy drink from the scene of crime, which was then packed and sent to FSL for further analysis. On 2.12.2019, the exhibit i.e., can of energy drink was received at FSL, Aizawl for analysis. The fingerprint expert then promptly examined the exhibit for any evidentiary clue which could link the scene of crime with the criminal. After careful examination, one comparable quality chance print was developed with black powder from the exhibit, despite the lapse of time i.e., 21 days from the date of collection of the exhibits from the scene of crime and the date of receiving the exhibit at FSL. The fingerprint expert still managed to develop a good quality chance print from the forwarded exhibit. The chance print developed and lifted by the finger print experts was successfully identified with the right index finger impression of the suspected Specimen Print of Lalpekhlu S/o Hramliana, Mizoram. Also, he was the same person whose fingerprint was earlier traced and linked with the chance print from the burglary of Prosecution Branch, District Court, Champhai that happened on the same night with this case. Thus, the finger print experts helped in providing scientific and infallible evidence against the culprit.

NAGALAND

1. **P.S. Dimapur Diphupar P.S, District Dimapur, FIR No. DMR (DPR) P.S C/NO.-14/19 u/s 457/380 IPC**

Requisition received from DMR (DPR) P.S GDE No.-04/19, Dated 15/02/2019 stating that a written FIR was received from Tekatsuba Jamir on 15/02/2019, that a burglary took place in one house in the premises of Church and Rs. 40,000 to Rs. 50,000/- were stolen. As requisition from the Police Station was received after lapse of 11(eleven) days after filing the FIR, SOC team reported to the P.S on 26/02/2019 at 01:30 pm and to the SOC at 01:45 pm. SOC was disturbed. However, the entry point from outside the room ventilator was open. After climbing the wall ventilator using the staircase, it was inspected and found 1 (One) visible palm print on the wall, It was photographed using a micro lens and scale and the initial of the expert was put. Also photographed 1 (One) partial visible Finger Print from inside the room ventilator and photography in the laboratory. After filling the formalities in the SOC report, the copy was handed over to the I.O.

- The same SOC case was received from Commissioner of Police for examination, ref. DMR (DPR) P.S C/No-0014/19 U/S 457/380 IPC on 13/03/2019.
- The visible palm print photographed from the SOC outside wall ventilator was enlarged for examination with the 5 (Five) specimen print of the suspect. On thorough examination, the enlarged Palm Print matched with the suspect print marked as Exhibit A2, namely IMLICHIBA s/o MOATEMSU (left hand palm print)

ODISHA

CHAPTER-III

FINGER PRINT TRANSACTIONAL ACTIVITIES OF CFPB AND SFPB_x

FINGER PRINT TRANSACTIONAL ACTIVITIES OF CFPB AND SFPBx

Central Finger Print Bureau

The work done by CFPB during 2019 is given in brief in the following table. The figures are based on the receipt of Finger Print Slips (Record) and Finger Print Slips (Search) from the Finger Print Bureaux of various States/Union Territories and also from the police stations. CFPB had 12,66,147 ten-Digit Finger Print Record slips of convicted and arrested persons as on 31st December 2019, in the FACTS (AFIS) database. An overall of 41,429 Finger Print slips for the record, and 48,792 Finger Print slips for the search were received at CFPB during the year 2019.

Table-1.1: Transactional activities of CFPB

OPERATIONAL ACTIVITIES	
No. of Finger Print Slips (R) updated in FACTS Database	31957
No. of Personal Identification (PID) slips (S) searched in FACTS Database	35401
No. of Search Slips traced	7810
Trace Percentage	22.1
No. of Chance Prints cases received from States	89
No. of Chance Print Traced	00
No. of Document case Disposed	90

In addition to the above, 219 Search References were also received from the Interpol Division of Central Bureau of Investigation (CBI), New Delhi. 13 Interpol Search references were traced in CFPB in the year 2019.

1. ANDAMAN & NICOBAR ISLAND

Full-fledged Finger Print Bureau does not exist in the UT. Only a small unit of Finger Print Cell is functioning under SP (CID) since 2003, housed at Forensic Science Laboratory Building Complex, Port Blair. Presently, the Finger Print Cell of A&N Islands is not equipped with AFIS. Total number of 1254 search slips are maintained in the Bureau as on 31.12.2019

11. Himachal Pradesh

The Finger Print Bureau of Himachal Pradesh was established in September 2006 under the CID Wing of the Himachal Pradesh Police Department. The provisions of Finger Print Bureau Manual of Punjab State (revised and updated edition 1995) apply to the Finger Print Bureau, Himachal Pradesh also. The Superintendent of Police and Deputy Superintendent of Police, CID (Crime Branch) are the ex-officio Director and Assistant Director of the FPBx, Himachal Pradesh respectively. To make the bureau operational, the Finger Print records pertaining to the State of Himachal Pradesh were brought from FPBxPhillaur to FPBx, H.P. at Shimla in March 2009. The bureau is presently functioning under the control of Director, DFS, Shimla. Gradually the bureau is becoming operational in all the fields of fingerprint works. AFIS is not yet installed at the bureau. The bureau had **6,834** Ten-digit finger print slips of convicted persons in its records as on 31.12.2019.

12. Jammu & Kashmir

The proposal for the establishment of a full-fledged State Finger Print Bureau is under the consideration with the Govt. of J&K. Presently the Finger Print section is functioning at the SCRB, PHQ Complex, Gulshan Ground, Gandhi Nagar, Jammu. The recording part is carried out by the SCRB, Jammu whereas attending the SOC is being done by FSL, J&K. The bureau is headed by the Deputy Superintendent of Police and it is functioning under the control of Inspector General of Police (Crime). FACTS 3.0 was installed at the Crime Head Quarters on 26.05.1998. However, FACTS had been Non-functional for many years. New AFIS Secure Mantra 5.0.04 had been procured in October 2012. At present 9,340 Ten-digit finger print slips of convicted persons in its records as on 31.12.2019.

15. Kerala

Kerala State Finger Print Bureau was started in the erstwhile state of Travancore on 02/05/1990. The finger print record on the neighboring state of Cochin was amalgamated to Travancore Bureau and came to know as Travancore - Cochin Bureau from 30/06/1950. When Kerala state was formed in 01/11/1956, the Kerala State Finger Print Bureau started its functions by infusing the records of Malabar District and Kanyakumari District along with the Travancore - Cochin Bureau. The Kerala State Finger Print Bureau is under a Director and the Bureau functions directly under the control of the Director-General of Police, State Crime Records Bureau. Besides, the Single Digit Finger Print Bureaux are functioning in all police districts headed by the Tester, Inspector and the district bureau is attached to the District Crime Records Bureau under the operational control of the District Police Chief. The Bureau is headed by a Director of the Finger Print Bureau. AFIS software NEC-AFIS is operational at SFPB. The bureau had **1, 06,801** Ten-digit finger print slips of convicted persons in its records as on 31.12.2019.

19. Meghalaya

Meghalaya was earlier part of the undivided Assam State and the Finger Print Bureau was located at Shillong. The State of Assam was divided into four states (Assam, Meghalaya, Mizoram, and Nagaland) but the FPBx remained common for all the states at Shillong. The Finger Print Bureau of the Meghalaya State was then set up at Shillong on 2nd January 1979 as a Single Digit Bureau, Later it became a full-fledged Ten digit State Finger Print Bureau on 16.07.1980. The bureau is functioning under the direct control of ADGP (CID), Meghalaya, and headed by an officer of the rank of SSP (CID). AFIS (FACTS 4.0) was installed by CMC Ltd. in 2002 but is presently not functional. It had **4,357** number of ten-digit finger print slips of convicted persons in its records as on 31.12.2019.

CHAPTER-IV

ANALYSIS OF FP TRANSACTIONAL ACTIVITIES

**ANALYSIS OF FP TRANSACTIONAL ACTIVITIES**

Fingerprint science has evolved to be an indispensable part of not only the criminal justice system, but also the governance in countries around the world. Worldwide scientific peer groups are working along in order to utilize the science of fingerprints in as many ways as possible. This chapter deals with the analysis of cumulative factors such as conviction rate, population of the states, reasons of discrepancies in the data provided and an inter-comparison of data procured from the State Finger Print Bureaux along with the depiction of major activities such as Record slips, Search slips, Document cases and Chance prints at a glance.

S. No.	States/UTs	No. of Record slips	No of Search Slips	No. of Document Cases	No. of Chance prints Compared
1.	A & N Islands	09	47	00	19

Graph No.1 NUMBER OF FP RECORD (CONVICTION) SLIPS RECORDED IN THE YEAR 2019 (STATEWISE)

Graph 1

States like Punjab, Madhya Pradesh and Maharashtra have recorded tens of thousands of finger print slips, whereas Delhi, Gujarat, Haryana, Tamil Nadu and Uttar Pradesh have recorded significantly higher numbers of slips in the year 2019. Andhra Pradesh, Jharkhand, Rajasthan, Uttarakhand, Telangana and West Bengal are underperformers.

Graph No.2 NUMBER OF FP SEARCH (ARRESTEE) SLIPS RECORDED IN THE YEAR 2019 (STATE WISE)

Graph 2

States such as Maharashtra and Madhya Pradesh have recorded highest number of arrestee slips (in Lakhs). Delhi, Gujarat, Haryana and Punjab have also recorded the appreciable number of arrestee slips. The point to be contemplated is that some of the other states including Chhattisgarh, Rajasthan, Uttar Pradesh and West Bengal have recorded much lesser number of FP Arrestee slips as compared to their mere size (area), population and number of crime incidences. Some of the States/UTs are under the process of maintenance/upgrading their AFIS.

Graph No.3 NUMBER OF DOCUMENT CASES EXAMINED IN THE YEAR 2019 (STATEWISE)

Graph 3

The States of Rajasthan, Andhra Pradesh, Tamil Nadu, Uttar Pradesh and Punjab in increasing order, have examined significant number of document cases in the year 2019. Punjab has examined highest number of 279 document cases during the year. As depicted in the graph, the States/UTs with an asterisk* have no established FBPx, therefore the number of cases examined there are nil.

Graph No.4 NUMBER OF CHANCE PRINTS DEVELOPED IN THE YEAR 2019 (STATEWISE)

Graph 4

States of Andhra Pradesh, Kerala and Tamil Nadu have topped the list with highest number of chance prints developed in a calendar year. Delhi, Karnataka, Madhya Pradesh and Maharashtra also developed significantly more chance prints. Delhi is the only union territory to have developed a large number of chance prints.

Graph No. 5 NUMBER OF CHANCE PRINT CASES IDENTIFIED DURING THE YEAR 2019 (STATEWISE)

Graph 5

States of Andhra Pradesh, Kerala, Karnataka, Telangana and Tamil Nadu have topped the list with highest number of chance print cases identified in the year 2019. The States of Maharashtra, Uttar Pradesh, Madhya Pradesh and Delhi have also identified a significant number of CP cases in succession to the above mentioned States.

IPC Crimes -Offences against Human Body

Record Slips

Graph 6

Search Slips

Graph 7

Graph 6 & 7

Record slips of those convicted for Murder, Grievous Hurt, Attempt to Murder and Rape are the highest in number as compared to other IPC heads whereas the search slips recorded also demonstrate a sharp rise in crimes such as Assault on women, Kidnapping, Abduction and Murder. The number of Search slips for all the heads of crime is higher than the number of conviction slips recorded.

IPC Crimes -Offences against Property & Relating to Document and Property Marks

Record Slips

Graph 8

Search Slips

Graph 9

Graph 8 & 9

The number of persons arrested and convicted for the offence of Theft is higher than those involved in Robbery, Burglary and Dacoity. In document related offences, more number of persons has been arrested and convicted for forgery rather than counterfeiting. As 'other IPC' crime head involves the rest of the IPC sections, it has obviously documented more number of crimes than rest of the crimes combined.

Convicts & Arrestee FP Slips received and searched under Special & Local Laws from various States/UTs

Record Slips

Graph 10

Search Slip

Graph 11

Graph 10 & 11

The number of persons arrested and convicted for NDPS comes second after other SLL crimes. 4661 persons have been arrested under POCSO Act while 2003 have been convicted. More numbers of persons were arrested under the crime head CrPC/Preventive arrest and Arms/ Explosive act. Neglecting the discrepancies in receipt, collection and forwarding of the data mentioned here and assuming the figures to be the ground reality, Graph 9&10 highlights the fact that the number of persons arrested for a certain crime is always higher than those who get conviction from the court of law. It also endorses the quote that a person remains innocent until proven guilty.

CHAPTER-V

CAPACITY BUILDING

CAPACITY BUILDING

TRAINING AND CAPACITY BUILDING IN FINGERPRINT SCIENCE AT CFPB/NCRB, NEW DELHI

One of the objectives of CFPB/NCRB is to provide training in Finger Print Science for capacity building of Police Forces in the country. Every year CFPB conducts various training programs for Indian Police Officers at CFPB Delhi and Kolkata Branch. CFPB, Delhi had conducted training on the Basic course and refresher course on Finger Print science and also conducted 'Training of trainers' which has enhanced trainers/resources, persons, in police/FPBx, are attended by officers of all ranks including senior officers from States / Union Territories as well as from Central Police Organizations/Central Armed Police Forces. Besides training of Indian Police Officers, CFPB, Kolkata imparted one-day training to government officials who would deal with fingerprints one or the other day. In the year 2019, CFPB under the progressive leadership of Director, NCRB conducted training for Indian Police Personnel, by imparting 18 weeks of Proficiency Course in Finger Print Science.

Training for Indian Nationals in Finger Print Science conducted at CFPB/NCRB, New Delhi during 2019

S. No.	Title of The Training	Duration In	Period	Eligibility	No. of Participants
1	Refresher course for Finger Print Science	03 Days	29 th May to 31 May	Sub Inspectors (FP) & DPA	16
2.	Refresher course for Finger Print Science	01 Week	24 th June to 28 June	Finger Print Expert from FPBx	19
3	Basic Course on Finger Print Science	01 Week	15 th July to 19 th July	Police Constable to Sub Inspector	32
4	Training of Trainers (TOT) on Finger Print Science	01 Week	26 th August to 30 th August	Finger Print Expert from FPBx	21
5	Basic Course on Finger Print Science	01 Week	16 th September to 20 th September	Police Constable to Sub Inspector	38
6	Basic Course on Finger Print Science	01 Week	18 th November to 22 nd November	Police Constable to Sub Inspector	16
7	Training of Trainers (TOT) on Finger Print Science	01 Week	02 nd December to 06 th December	Finger Print Expert from FPBx	12
Total					154

Trainings for Indian Nationals in Finger Print Science conducted at Kolkata in 2019

CFPB Kolkata unit has been providing training for law enforcement to individuals as well as officials from various trades who tend to deal with Fingerprints in one way or the other.

S. No.	Title of The Training	Duration	Period	Eligibility	No. of Participants
1	One Day training on "How to take Finger Prints"	01 Day	29.01.2019	Government personnel	03
2	-----Do-----	01 Day	26.02.2019	-----Do-----	18

PIONEERS OF FINGER PRINT SCIENCE

There are records of fingerprints being taken many centuries ago. Ancient artifacts with carvings similar to friction ridge skin have been discovered in many places throughout the world. The ancient Babylonians pressed the tips of their fingertips into clay to record business transactions. Thumbprints were used on clay seals in China to “sign” documents. A petro glyph located on a cliff face in Nova Scotia depicts a hand with exaggerated ridges and finger whorls, presumably left by the Mi'kmaq people.

With the advancement in the field of Identification/ Investigation, many of the Scientists/ Investigators worked, whose contributions are listed below:

Dr. NEHEMIAH GREW (1641-1712)

- English Plant Morphologist, Considered as “Father of Plant Anatomy”.
- Studied and described the ridges, furrows, and pore structure of friction skin.
- Published very accurate drawings of the Finger Print patterns and areas of the palms.
- Did not address uniqueness or permanence of the ridges.

MARCELLO MALPHIGHI (1628-1694)

- First to see the capillaries and was a founder of histology, embryology, plant anatomy, and comparative anatomy.
- Used a microscope for the first time to examine friction skin and made observations as to its structure.
- Malpighian layer of skin named after him, for his research contributions.
- Did not address uniqueness or permanence of friction ridges.

Dr. J.C.A. MAYER (1747-1801)

- Authored a book on human anatomy and anatomical illustrations. The book is one of the earliest recordings supporting the uniqueness of fingerprints.
- The book included drawings of friction skin and this is still a valid statement ;
“Although the arrangements of skin ridges are never duplicated in two persons, nevertheless the similarities are closer among some individuals. In others the differences are marked, yet in spite of their peculiarities of arrangement all have certain likeness.”
This statement has been verified by all other medical

and scientific researchers of friction skin.

Dr. JOHANNES E. PURKINJE (1787–1869)

- At Breslau he created the world's first Independent Physiology department and the first official Physiology laboratory.
- He discovered the Purkinje effect, Purkinje cells, and Purkinje fibers.
- He was the first to give regular classification of Fingerprint patterns into nine categories which is as follows:

➤ A: Transverse curves, ➤ B: Central longitudinal stria, ➤ C: Oblique stria, ➤ D: Oblique sinus, ➤ E: Almond	➤ F: Spiral, ➤ G: Ellipse or elliptical whorl, ➤ H: Circle or circular whorl, and ➤ I: Double whorl
--	--

Sir WILLIAM JAMES HERSCHEL (1833-1917)

- He experimented with the idea of using a hand print as a signature by a man named Rajyadhar Konai put a stamp of his right hand on the back of a contract. The contract was received and accepted as valid.
- He instituted taking fingerprints of both pensioners and criminals so that it is not carried out by imposters.
- He was the first person to use Hand Prints/ Finger Prints officially.
- He published an account of his work entitled 'The Origin of Fingerprinting'.

Dr. HENRY FAULDS (1843–1930)

- British surgeon and Superintendent of Tsukiji Hospital in Tokyo.
- Wrote an article that discussed fingerprints as a means of identification.
- He published a paper on the subject titled 'On the Skin-Furrows of the Hand', in the scientific journal 'Nature' and it was the first scientific literature to suggest the basic concepts of the fingerprint system of identification.
- In an article, Faulds proposed using friction ridge individualization at crime scenes and gave two practical examples.
- Recommended Printer's Ink for recording of fingerprints.

SIR FRANCIS GALTON (1822-1911)

- He was an English explorer and anthropologist best known for his research in Eugenics and Human Intelligence.

- Established that friction ridge skin was unique and persistent.
- Defined & Named each Peculiar characteristics /Minutiae/ Ridge Characteristics
- Wrote book on “Fingerprints” in 1892 and “Decipherment of Blurred Fingerprints”

IVÁN (JUAN) VUCETICH (1858-1925)

- His classification system and individualization of prisoners through the use of fingerprints were the first practical uses of the Finger Print science by law enforcement personnel.
- He made the first positive identification of a criminal in a case where Francisca Rojas had killed her two children and then cut her throat, trying to put the blame on the outside attacker. A blood print identified her as the killer.

SIR EDWARD RICHARD HENRY (1850-1931)

- Inspector General of Police for the Lower Provinces in Bengal.
- Considered as Father of Modern Finger Print Science.
- With the help of Indian Police Officers Khan Bahadur Azizul Haque, and Rai Bahadur Hem Chandra Bose, the Henry classification system was developed.
- Went before an inquiry committee to convince them to change to fingerprinting of criminals instead of using the Bertillon Method.
- Established the Metropolitan Police Finger Print Bureau, which Was Britain's first.
- Published a book “The Classification and Use of Finger Prints.”

AZIZUL HAQUE (1872 – 1935)

- Officer-in-charge of the Anthropometric Bureau at Calcutta
- Helped in devising the classification formula on a mathematical basis.
- Was awarded the title “Khan Bahadur”
- Was awarded honoraria of rupees 5000/- for his contribution to the establishment of Finger Print classification.

HEM CHANDRA BOSE (Born in 1867)

- An officer of the Anthropometric Bureau in Calcutta
- Created a system for single digit impression
- Created a telegraphic code for communicating classification.
- Was awarded the title “Rai Bahadur”
- Wrote a book called “Finger Print Companion”

EDMOND LOCARD (1877-1966)

- Formulated the basic principle of forensic science: "Every contact leaves a trace".
- Developed the science of Poroscopy.
- Established the first rules of the minimum number of minutiae necessary for identification. He said that if 12 specific points were identical between two fingerprints, it would be sufficient for positive identification.

LAWS RELATING TO FINGER PRINTS IN INDIA

In an endeavor for the betterment of the publication a new chapter on laws relating to Finger Prints has been added from this year, the chapter contains all relevant legal information pertaining to Finger Print Science in India.

Section 45 of the Indian Evidence Act, 1872, as amended by Act V of 1899, defines:

Any other person whose finger prints are ordered to be maintained by the Govt. of India from time to time, subject to the provisions of the Identification of prisoners Act (act XXXIII of 1920).

"When the Court has to form an opinion upon a point of foreign law, or of science or art, or as to identity of handwriting or finger impressions, the opinions upon that point of persons especially skilled in such foreign law, science or art, or in questions as to identify of handwriting or finger impressions are relevant facts. Such persons are called Experts".

Section 293 of Cr. P.C. states as follows:

- 1) Any document purporting to be a report under the hand of a Government scientific expert to whom this section applies, upon any matter or thing duly submitted to him for examination or analysis and report in the course of any proceeding under this code may be used as evidence in any inquiry, trial or other proceeding under this code.
- 2) The Court may, if it thinks fit, summon and examine any such expert as to the subject-matter of his report.
- 3) Where any such expert is summoned by a Court, and he is unable to attend personally, he may, unless the court has expressly directed him to appear personally, depute any responsible officer working with him to attend the court, if such officer is conversant with the facts of the case and can satisfactorily depose in court on his behalf.
- 4) This section applies to the following Government Scientific Experts, namely:
 - a) Any Chemical Examiner or Assistant Chemical Examiner to Government.
 - b) The Chief Inspector of Explosives.
 - c) The Director, Finger Print Bureau.
 - d) The Director, Haffkine Institute, Bombay.
 - e) The Director of a Central Forensic Science Laboratory or a State / UT Forensic Science Laboratory.
 - f) The Serologist to the Government.

To ascertain, whether a finger print is that of a person by whom it purports to have been made, the court may direct any person present in the court to record his finger prints for the purpose of enabling the court to compare the finger prints alleged to have been made by such person. When given by recognized finger print experts, evidence as to the identification of persons by means of finger prints left at the scene of crime, is a fact. Summon from court is received whenever, court requires the services of experts either to prove the identity of the accused person or to give evidence in case in which experts opinion has already been furnished by the Bureau.

LAWS RELATING TO PREPARATION OF RECORD AND SEARCH SLIPS

Identification of Prisoners Act, 1920

Section 3: Related to Convicted Persons

- a) Every person who has been convicted of any offence punishable with rigorous imprisonment for a term of one year or upwards or of any offence which would render him liable to enhanced punishment on a subsequent conviction and
- b) Every person ordered to give security of his good behavior under Section 118 CrPC shall if so required allow his measurements and photographs to be taken by a police officer in the prescribed manner.

Section 4: Empowers police officers for taking fingerprints of non-convicted arrested persons in connection with an offence punishable with RI for one year or more.

Section 5: Empowers a magistrate of first class to order a person to give his Finger Print for the purpose of any investigation or proceedings.

- Section 6:**
- i) Empowers the use of necessary means to secure the fingerprints of any person who resists or refuses taking of fingerprints.
 - ii) Resistance or refusal is deemed to be an offence u/s 186 IPC.

Section 7: Deals with destruction of finger print slips on acquittal or on discharge or on release without trial.

SCHEDULE OF OFFENCES FOR TAKING FINGER IMPRESSIONS AS PER CFPB MANUAL

As per OM No. 115/POLICE (L)/ 55 (8) Intelligence Bureau, Ministry of Home Affairs, Government of India, Dated 19.02.1955, on the subject of 'Establishment of C.F.P.B and instructions to be followed by State Bureaux and District Police officers in sending F.P. record slips', mentions about the G.O. No. 37/223/55-piii Dated 5.12.55, which incorporates the procedure to be adopted for taking finger impressions of all persons convicted of any offence mentioned in the schedule of offences.

Finger Print slips of the following persons will be recorded at the Central Finger Print Bureau:

- 1) All persons convicted of offences under chapter XII to XVII IPC which are punishable with rigorous imprisonment for a term of one year or more.
- 2) All persons convicted of any offence under Chapter VI IPC or of sabotage and subversive activities against State.
- 3) All persons convicted of offences under section 170, 302, and 304 (murder for gain), 328, 338, 465 to 477A, 489A to 489D IPC.
- 4) All persons convicted under the Arms, Opium and State Excise acts who are suspected

- to be smugglers in Arms, Opium by dangerous drugs as defined in the Dangerous Drugs Act (Act II of 1930) or entailing enhanced punishment on reconviction .
- 5) All persons convicted of smuggling gold, currency and valuable articles under Foreign exchange Regulation Act VII of 1947.
 - 6) All persons ordered to execute bonds under sections 109 and 110 CrPC (for offence against property only).
 - 7) All traffickers in women and children who are convicted under section 363 to 373 IPC.
 - 8) All persons convicted under section 5 of Act LXXIV of 1950 for unlawful possession of telegraph wires.
 - 9) All persons convicted under section 3 of Ordinance XIX of 1944 for unlawful possessions of Railway Stores.
 - 10) All professional criminals and persons of dangerous character externed from any area under any state Act.
 - 11) All foreigners externed under Foreigners Act XXXI of 1946.
 - 12) All approvers in gang dacoity and criminal conspiracy cases.
 - 13) All persons suspected of being professional itinerant criminals and persons of notoriously criminal reputation who habitually absent themselves from their homes and are believed to travel to other states for the purpose of committing crime and who have been arrested by police and whose finger prints have been taken, even if they are acquitted provided that in case of acquittal permission for record for finger prints is obtained from the court under section 7 of Act XXXIII of 1920.
 - 14) All persons convicted for attempt or abetment (sec 511 or 109/114 IPC) and criminal conspiracy (sec 120B IPC) for offences mentioned in this schedule.
 - 15) All Indian nationals convicted outside India of any offence for which finger prints have been received at the State Bureau from those countries.
 - 16) All International criminals and absconders whose finger prints are sent to the State Bureau from countries outside India.
 - 17) All persons convicted under explosive Substances Act (Act VI of 1908).
 - 18) All persons convicted under the official Secrets Act (Act XIX of 1923).
 - 19) All persons convicted under sec 101, 126 and 128 of the Indian Railways Act (Act IX of 1890).
 - 20) Any other person whose finger prints are ordered to be maintained by the Govt. of India from time to time, subject to the provisions of the Identification of prisoners Act (act XXXIII of 1920).

Note: The taking of finger prints of persons who are local men and convicted of offences of trivial nature will be subject to the discretion of the Supdt. of Police of the district concerned.

IMPORTANT COURT VERDICTS ON FINGER PRINT EVIDENCE

1. Supreme Court Ruling of 1961 : [State of Bombay Vs. Kathikalu Oghad AIR 1961 SC 1808]

A thumb impression of an accused taken by the police in course of investigation which was later on produced at the trial did not amount to testimonial compulsion under Article 20(3) and was not on that account inadmissible. It held that the application of finger prints in the identification of persons does not violate the fundamental rights under Article 20(3) of the constitution. It was further held that to be a witness in its wider sense means giving an oral or written statement but does not amount to exposing a part of the body for the purpose of identification.

2. Supreme Court Ruling of 1972 : [AIR 1972 SC 975]

“The comparison and identification of finger prints has developed into a science and the results derived there from have reached a stage of exactitude. As long as the report shows that the opinion was based on observations which led to a conclusion, such opinion can be accepted.”

“Unless there is a doubt as to the correctness of the opinion, the report of the examiner may be accepted without examination of the expert.”

3. Supreme Court Ruling of 1978: [Mohanlal Vs. Ajit Singh AIR July 1978 SC 1183]

The Hon’ble Supreme Court ruled that an opinion based on 8 identical ridge characteristics was fully justified and conformed to the views expressed in scientific books on the subject.

“Nothing substantial has been urged to challenge the opinion of the director of the Finger Print Bureau and all that has been argued is that as there were only 8 points of similarity, there was not enough basis for the expert’s opinion about the identity of finger prints. Reference in this has been made to B. L. Saxena’s ‘Identification of handwriting, disputed documents, finger prints, foot prints and detection of forgeries’ (1968 edition, page 247), Walter R. Scott’s ‘Finger print mechanics’(page 62) and M. K. Mehta’s ‘The identification of thumb impression and the cross examination of finger print experts’ (second edition, page 28). We have gone through these books but they do not really support the argument of the learned counsel for the respondent. While referring to the old practice of looking for a minimum of 12 identical characteristic details, Saxena has admitted that the modern view is that 6 points of similarity are sufficient to establish the identity of finger prints. Walter Scott has stated that as a matter of practice most experts who work with finger prints constantly satisfy themselves as to the identity with 8 or even 6 points.” The larger surface of the fully rolled impression not only allows accurate classification but it also gives more points for comparison. (For representative purpose only)

4. Supreme Court Ruling of 1979: [Jaspal Singh Vs. State of Punjab AIR 1979 SC 1708]

“The science of Finger print identification is an exact science and does not admit of any mistake or doubt.”

**RECOMMENDATIONS OF ALL INDIA CONFERENCE OF DIRECTORS OF FPBx
HELD AT NCRB AUDITORIUM ON 17th & 18th OCTOBER, 2019**

1. National Automated Fingerprint Identification System:

NCRB has placed purchase order for procuring fully computerized National Automated Finger Print Identification System (NAFIS), which is expected to be functional by October, 2020. FP experts stationed at the District or State FPB will be in a position to access the NAFIS central database and get the results online which will drastically reduce the current waiting time of weeks or months that CFPB used to take for furnishing the reply. NAFIS and CCTNS will also be integrated both at the Centre and State level for exchange of relevant crime and criminal information. Around 60 lakhs of FP slips available in different States/UTs will be digitized and migrated into NAFIS. When such a voluminous fingerprint data of different States is made available, many interstate criminals are likely to be traced resulting in solving several unsolved cases, through fingerprint matching. Thus, NAFIS will be a game changer as it will drastically reduce the time and efforts of the investigating agencies, because the investigator will be able to get the results online.

- a) For smooth implementation of NAFIS, a flagship project of NCRB, throughout India penetrating up to district level; the state Nodal officers and Directors FPBx were advised to ensure site readiness at district level, providing enough space and manpower for the installation of NAFIS work stations at all the locations.

[All States/UTs]

- b) States/UTs, which do not have AFIS, were requested to co- ordinate with CFPB for digitization of fingerprint slips with the team deputed by M/s Smart Chip. FP Experts of State FP Bureaux have to validate/check the FP data being digitized and ensure that quality of data is maintained.

[Concerned States/UTs]

- c) States/UTs, where AFIS is functional, were requested to ensure co- operation and support from their respective AFIS vendors for migration of existing FP data into NAFIS Central Database.

[Concerned States/UTs]

- d) States/UTs, who want to continue their own AFIS systems, were requested to ensure cooperation and support from their respective AFIS vendors for developing a utility to replicate their AFIS data into NAFIS Central Database.

[Concerned State/UT]

- e) For any kind of coordination/support/clarification, the States/UTs have been advised to contact CFPB Nodal officer designated for the State/UT.

[All States/UT]

- f) NCRB will organize training for FP experts of all States/UTs on the usage of NAFIS.

[NCRB, States/UTs]

2. NABL Accreditation:

National Accreditation Board for Testing & Calibration Laboratories (NABL) is an accreditation body for Laboratories in India working under the parent body of Quality Council of India to recognize, provide technical skills and reference material so as to have uniform International standards. Accreditation improves the quality, technical competence and efficiency of the Institution. Based on the recommendation of the previous conference, one day awareness on NABL accreditation was arranged at NCRB Hqrs and States/UTs were asked to develop their FP Laboratories for achieving the accreditation. The first step in the accreditation process is to prepare a quality manual consisting minimum quality standards of equipment, manpower, etc. A delegate from Raksha Shakti University, Gujarat, Dr. Sumit Choudhary volunteered for the preparation of quality manual of standards for the fingerprint bureau, in consultation with State FPBx. It was decided that to constitute a committee under the chairmanship of Director, CFPB with members from Punjab, Delhi, Himachal Pradesh and Madhya Pradesh for examining the issues involved in accreditation process and to come out with a quality manual with the help of Raksha Shakti University, Gujarat.

(NCRB/States/UTs/RSU)

3. Manpower:

In the XIX conference, the issue of uniformity in FP staffing patterns across the country was discussed and a Committee was formed to discuss the staffing patterns. The committee, after the meetings, proposed the following staffing pattern which was shared with all States/UTs on which NCRB received feedback from 16 states. The conference was appraised of the recommendation of the Committee and all delegates consented with the staffing pattern recommended by the Committee.

- a) Each Police Sub division (SDPO) will have one Sub Inspector (FP) and one Police Constable (FP)/Multi-tasking Staff.
- b) Each Police District will have one Inspector (FP) and one Photographer in the rank of Head Constable (FP).
- c) Each Range will have one Dy. SP (FP) and one Police Constable (FP)/Multi-

tasking Staff.

- d) Each Zone will have one Addl. SP (FP) and one Police Constable (FP)/Multi-tasking Staff.
- e) Number of posts can be increased if the work load is very high.
- f) Few of the supervisory officers may be stationed at State FPB to assist the Director, FPB. It was recommended that in view of NAFIS implementation by February/March 2020, competent authorities in all states/UTs must take urgent steps to fill up the vacant posts of Fingerprint personnel without delay.

(NCRB/States/UTs)

4. Director of FPB should be a FP expert:

The Conference deliberated on whether Fingerprint Bureau should be headed by an FP expert or not. The house collectively agreed that the Director of a Fingerprint Bureau should be a fingerprint expert. NCRB will inform to all States/UTs.

(NCRB)

5. Modernization of Finger Print Bureaux:

It was informed in XIX Conference that many State Governments do not allot funds for the purchase of modern equipment and FP experts are using the equipment which are obsolete and were supposed to be discarded long ago. It was recommended that NCRB may take up this issue with MHA for providing funds to procure the equipment identified by the committee under Police Modernization scheme and also for sanction of a certain amount every year towards replacement of obsolete equipment and to introduce modern equipment that helps to improve the efficiency of FP experts.

In this regard, it is informed, that MHA has been accepting proposals for purchase of finger print equipment under Police Modernization Scheme and many states have already benefitted under this scheme, e.g., Orissa, Uttar Pradesh, Rajasthan. State FPBs were requested to submit their requirements to Addl. DGP/IGP of their state, who is authorized by the DGP to prepare State Action Plan for the purchase of equipment under Police Modernization Scheme. NCRB has already published Compendium of Fingerprint equipment, which is uploaded on www.ncrb.gov.in. Most of the equipment are listed in Government Electronic Market (GEM), and States are suggested, while submitting requirements, to mention if the equipment is available on GEM to make it easier for MHA to take a positive decision. An advisory in this regard has already been issued to all states by NCRB on 13.05.2019.

(States/UTs)

6. Renaming the Conference Title

In previous conference, the matter to rename the conference as “National Conference on FP Science” was recommended, which was further discussed. An

overwhelming majority recommended that the Conference title need not be changed and the previous name 'All India Conference of Directors of Finger Print Bureaux' should be retained.

[NCRB]

7. Training

- a) Refresher course for Photographers:** Director, Goa and other SFPBx requested to organize refresher course for chance print photographer of their Bureaux. NCRB has assured that training course(s) will be organized with the assistance from NICFS and Mizoram.

[NCRB]

- b) Proficiency course:** NCRB informed that every year 18 weeks proficiency course will be organized at CFPB, Kolkata for the benefit of the employees aspiring to become FP Experts. Delegates were requested to spread this information in their organizations so that competent authorities can send the nominations. It was also informed that one course was starting from 04-11-2019 and nominations could be sent immediately.

[States/UTs]

- c) One day workshop on taking fingerprints:** Most of the documents received in States/UTs/CFPB carry poor quality fingerprints and it is difficult to furnish opinion on such prints. Apart from basic course, one day workshop on taking fingerprints can also be conducted by SFPBx for officers/staff of CBI, Railways, revenue officers, post offices, banks, Registrar offices, Insurance companies, recruiting agencies etc. to sensitize the persons responsible for taking fingerprints to take good quality prints. NCRB informed that one such course is being conducted every month at CFPB, Kolkata. Delegates expressed that frequency of such a course needs to be increased and to invite nominations from all the States/UTs. Further, it was felt that courses can be conducted in all Police Academies, Police Training Colleges to cater the needs of various States/UTs.

It was decided that NCRB will ask State governments to nominate officials from all departments under them, where fingerprints on documents are taken, for such one day training course.

[NCRB/States/UTs]

- d) Fingerprint Training on Modern Chemical Methods:** Delegates requested that CFPB should conduct Training on new chemical methods of fingerprint development for fingerprint experts.

[NCRB]

8. Regulation of Private experts

The case of private fingerprint experts, who practice under section 45 IEA and give opinions, was deliberated in the conference. In CFPB/States/UT, every document case is examined by three experts to maintain quality and eliminate any chance of mistake, whereas a single person gives opinion in case of examination by a private expert. It was felt that the issue needs thorough examination, and , therefore, a committee is proposed to be constituted under the chairmanship of Joint Director (CCTNS) with members from Punjab, Haryana, Maharashtra, Delhi and Himachal Pradesh, where there is a legal verdict regarding authenticity of private experts.

(NCRB, Punjab, Maharashtra, Haryana, Delhi and HP)

9. FP Records of Arrestees:

It was decided that, Finger print slips of arrested persons would be retained in SFPBx/CFPB until there is request from authorities for removal of slips or information regarding details of acquittal is received.

(NCRB, States/UTs,)

Annexure-IV

**SANCTIONED AND POSTED STAFF STRENGTH IN PROMINENT STATE FPBx AS
ON 31.12.2019**

This annexure gives overview of staff position in prominent State Finger Print Bureaux functioning in the country.

1. ANDAMAN & NICOBAR

33. CHANDHIGARH

❖ No Finger Print Bureau

34. DADRA & NAGAR HAVELI

❖ No Finger Print Bureau

35. DAMAN& DIU

❖ No Finger Print Bureau

36. LAKSHDWEEP

❖ No Finger Print Bureau

The numbers of sanctioned, posted staff and vacancies may be taken as indicative, because in some Bureaux there is more staff posted than actually sanctioned position, thus the value of vacancy too may not be correct

Annexure– V (a)**NATIONAL AUTOMATED FINGER PRINT IDENTIFICATION SYSTEM (NAFIS)**

Automation of the fingerprinting technology has been the agenda of scientific and industrialist peers in order to provide the law enforcement agencies with the best of the tools and techniques to maintain highest possible decorum of law and order. As there is a need of fast and robust system to handle large number of data and cope up with latest emerging trends in the era of Finger print science, MHA has taken a call to procure latest system for replacement of FACTS in the country. Following are the specifications and work flow of the system.

Overview

The basic process of capture, use and management of fingerprint information in crime and criminal investigation has been defined in the Identification of Prisoners Act, 1920 and its amendments, other State and Central acts and other procedures defined by law.

Based on the provisions of the act, both rolled and plain fingerprints (including palm prints) will be captured from individual involved in crimes through Fingerprint Enrolment Devices (FEDs) or on paper. The FEDs also have relevant embedded software for capture, processing and transmission of fingerprint information for search, matching and verification purposes performed through NAFIS software.

Indicative architecture of NAFIS:

- The NAFIS software serves as the key application for Fingerprint experts/personnel for performing crime and criminal investigation functions. Fingerprints are generally acquired for crime and criminal investigation captured through enrolment of fingerprints of individuals as per the due process laid down by law, chance fingerprints lifted from the site of incident or scene of crime, fingerprints identification through query from an existing fingerprint database (Developed through Enrolment of fingerprints) only for matching and verification purposes as per due Procedure. Chance/Latent fingerprints are class of fingerprints which are not visible to the naked eye and can be used for verification and matching after suitable enhancements.
- It is to be noted that currently 26 States/UTs have implemented AFIS software supplied by various solution providers and 10 States/UTs are yet to implement AFIS solution. The State Fingerprint Bureau (SFPB) is the nodal organization for collection, storage, operations/transactions and management of Fingerprint related information with respect to crime and criminal investigation and tracking functions.
- The SFPB and its staff at districts and other locations carry out fingerprint related functions in police organization.
- Further it is also envisaged that the Fingerprint Enrolment Devices are to be used at Police stations or the Fingerprint reader device integrated with the Mobile Data Terminal using the public Internet for accessing the Central NAFIS database.
- The National level NAFIS solution would be implemented and managed by the Central Fingerprint Bureau (CFPB) at NCRB, New Delhi. The National level Automated Fingerprint Identification System (NAFIS) shall function as the central information repository of all the crime and criminal related fingerprint data of the country. The NAFIS solution envisaged shall consolidate all the fingerprint information available at all States/UTs in AFIS or any other databases for development of a national level searchable fingerprint information repository.
- The NAFIS solution would also integrate with the Core Application Software of CCTNS project implemented at Central level for extracting relevant crime and criminal attribute data mapped to the fingerprints.
- The virtual partition of NAFIS designated for 36 States/UTs would also integrate with CCTNS application (Customized and Configured Core Application Software (State) or other similar applications implemented at States/UTs) for mapping of relevant crime and criminal attribute data with fingerprint data for providing descriptions of demographics, reporting and annotation purposes.

Under NAFIS Project following components will be delivered:

NAFIS Data Centre is located at NCRB Data Centre in Delhi,

One Disaster Recovery NAFIS backend system at NIC NDC in Bhubaneswar, Odisha.

- ✓ The Frontend Workstations, distributed as follows:

- 20 workstations at NCRB Delhi
- 5 workstations at NCRB Kolkata
- 6 workstations at 16 large states (total 96 workstations)
- 4 workstations at 10 medium states (total 40 workstations)
- 2 workstations at 10 small states (total 20 workstations)
- 1200 workstations at District police units and Commissionerate's
- 2472 single digit fingerprint scanners for mobile devices

- ✓ Software components such as
- ✓
 - Morpho Enrollment Software application (MESA)- Enables to enroll the Arrestee/convicted persons into the NAFIS system and can perform search and Match of the submitted prints.
 - Morpho Biometric Identification system (MBIS)- enables acquisition, storage, and search of biometric data of persons
 - Bio Search (Mobile app) - Enable the police personnel posted at check posts to verify the antecedents of suspects without taking them to the police stations and
 - Document case module- Enable FP expert to examine the Document case by comparing questioned prints with the specimen prints. It has extensive tools, which enables FP experts to enhance Questioned prints.

FINGERPRINT ANALYSIS AND CRIMINAL TRACING SYSTEM (FACTS)

Since, FACTS is the indigenous version of AFIS being used by finger print bureaux throughout the country, following is the brief illustration describing the working a generic FACTS system.

The following diagram shows the work transaction mechanism of FACTS 5.0.

AFIS BASED COMPARISON AND MARKING OF IDENTICAL POINTS (FOR REPRESENTATIVE PURPOSE ONLY)

The first FACTS was developed by NCRB with assistance from CMC Ltd. with the most basic features for an automated system. With the advent the microprocessors and communication technology, the latest FACTS is equipped with the state of the art advantages that improves the efficiency of a Finger Print expert. Following is an analytical comparison of the range of features developed since the inception of the FACTS system.

AFIS Interface Specification

The Electronic Finger Print Transmission Specification or EFTS defines the interface between the IAFIS and other agencies' systems. The EFTS contains a description of operational concepts, descriptors, field edit specifications, image quality specifications, and other information related to AFIS services.

Specifications		Facts-1	Facts -3	Facts-4	Facts-5
Ease of Operation		X	✓	✓	✓
Types of prints accepted	Inked	✓	✓	✓	✓
	Chance prints	✓	✓	✓	✓
	Live Scanner	X	✓	✓	✓
10 digits prints Acquiring		X	X	✓	✓
Sequence /Quality Check		X	X	✓	✓
Automated Pattern & Minutiae reorganization		X	X	X	✓
Automated Minutiae Encoding		X	X	X	✓
Henry Code Check		X	X	✓	✓

Printer Attachment		X	X	✓	✓
Operating Systems		-----	Unix (SCO OSR5)	Windows NT platforms, Linux, Oracle	Windows
Storage Capacity		-----	2.5 lakhs	5 Lakhs	> 1 Million
Court opinion chart		X	X	✓	✓

The Electronic Biometric Transmission Specification (EBTS) is the latest upgrade to the FBI Finger Print specification and replaces EFTS Version 7.1. The scope of the EBTS has been expanded over previous versions to include additional biometric modalities (e.g., Palm print, facial, and iris) in recognition of the rapidly developing biometric identification industry. The most recent update to the American National Standards Institute /National Institute of Standards and Technology-Information Technology Laboratory 1-2015 (ANSI/NIST-ITL 1-2011, Update: 2015) standard includes new record types to facilitate data sharing for new biometric modalities. Integrating biometric data in accordance with the ANSI/NIST standard, the FBI EBTS provides a description of all requests and responses associated with electronic Finger Print and other biometric identification services.

Annexure- V (b)

List of States/UTs who have AFIS

S. No.	STATE / UT	BUREAU/UNIT /CELL	AFIS INSTALLED

c) F.P. Recording kit

9. GUJARAT

a) District Mobile Forensic Unit (DMFU)
d) F-80 SLR Camera (Nikon)
g) FM-3 Camera (Nikon)

b) Finger Print powders and brushes
e) D-80 SLR Camera (Nikon)
h) Photo Lab & Dark Room facilities

c) Finger Print developing kit
f) Dust Print Lifting

10. HARYANA

a) AFIS
b) Finger Print developing kit

11. HIMACHAL PRADESH

a) Finger print developing kit
c) Cyanoacrylate fuming chamber

b) Diff. Finger Print powders and brushes
d) Focus Comparator

12. JAMMU & KASHMIR

a) Scanners
d) UPS-75 KVA

b) Printer
e) FP Kit

c) Live Scanner

13. JHARKHAND

a) Square lens

b) Finger Print taking kit

c) FP development kit

14. KARNATAKA

a) Live Scanner (FED)
d) Imported Finger Print Kit Box
g) Cyanowand kit
j) Cadaver Kit Box
m) Dust print lifter

b) Mini crime scope/poly light
e) Dust lifting kit
h) Iodine Fuming cabinet
k) Imported FP powders, brushes, Tapes

c) Digital/ SLR cameras
f) Footprint kit box
i) Ninhydrin sprayer
l) AFIS

15. KERALA

a) AFIS
d) Modern Scientific Investigation kit
g) Bright Light Torch
j) Head Loop
m) Camera
p) Path Finder

b) Live Scanners
e) FP Developing Kit
h) Ultra-light
k) FP Stamping Kit
n) LED Illuminated Magnifier
q) Forensic Light Source

c) Crime Lite
f) DLK Kit
i) Live Scanner
l) FP recording kit
o) Angle Poise Lamp

16. MADHYA PRADESH

- | | | |
|---------------------|--------------------|-----------------|
| a) Finger Print kit | b) Post mortem Kit | c) Live Scanner |
| d) Poly ray | e) Inkless Pad | |

17. MAHARASHTRA

- | | | |
|-----------------------------|-----------------------|---------------------------|
| a) Mobile Forensic Van | b) Poly-Ray Light | c) Dust print Lifting Kit |
| d) Cepri-Gun forensic light | e) Visitation Kit Bag | f) Foot Print Kit Bag |

18. MANIPUR

- | | | |
|-----------------------|---------------------------|-------------------|
| a) Fingerprint Kit | b) VSC-QDX 630BE | c) Digital Camera |
| d) Visitation kit bag | e) Fingerprint comparator | |

19. MEGHALAYA

- | | | |
|------------------------------------|----------------------------|-------------------------|
| a) Finger Print kit box | b) Luma Lite | c) Ninhydrin chamber |
| d) Linen tester and Battley's lens | e) Iodine fuming apparatus | f) Crime lite, Lumalite |
| g) Silver nitrate | h) Dust lifter kit | i) DD detection light |
| j) Digital camera | k) Sun Gun | l) Investigation kits |
| m) UV lamp | n) Illuminated magnifier | |

20. MIZORAM

- | | | |
|--|-----------------------------------|---------------------------|
| a) HP Proliant ML350 Gen9 Server System for AFIS | b) 3 HP Z230 workstation for AFIS | c) HP LaserJet Pro M202dw |
| d) HP Scan Jet 5590 printer | e) Canon Scanner | f) Stand Alone Computer |
| g) HP LaserJet P1007 Printer | | |

21. NAGALAND

- | | | |
|-----------------------------|-------------|--------------------------|
| a) Latent print special kit | b) Poly Ray | c) Iodine Fuming chamber |
| d) AFIS | | |

22. ODISHA

- | | | |
|--------------------------|-------------------|-------------------------|
| a) Forensic Light Source | b) Digital camera | c) Finger Print kit box |
| d) Footprint kit boxes | | |

23. PUDUCHERRY

- a) FP Kit Box

24. PUNJAB

- | | | |
|--------------------------------|--|---|
| a) Bellow type camera | b) Intensive light source | c) Single digit rolled print live scanner |
| d) Dust print lifting material | e) Iodine fuming chamber | f) Nikon FM10 Camera |
| g) Microscope | h) Russell Comparators | i) UV light |
| j) Infra-Red Ray source | k) Modern Finger Print developing kits | l) Magnetic latent kit |

25. RAJASTHAN

- | | |
|---------------------------------------|-----------|
| a) Modern Finger Print developing kit | b) Camera |
|---------------------------------------|-----------|

26. SIKKIM

- | | | |
|---------------|---------|---------------|
| a) FP Kit Box | b) AFIS | c) Comparator |
| d) Scanner | | |

27. TAMIL NADU

- | | | |
|--------------|--------------|-------------|
| a) Computers | b) Kit boxes | c) Vehicles |
| d) Camera | | |

28. TELANGANA

- | | | |
|-------------|-------------------------|-----------------------|
| a) Poly Ray | b) Electric Dust lifter | c) FP Kit & Equipment |
|-------------|-------------------------|-----------------------|

29. TRIPURA

- | | | |
|-----------------------|------------------|-----------------|
| a) FP Development Kit | b) FP Taking Kit | c) Linen Tester |
|-----------------------|------------------|-----------------|

30. UTTARAKHAND

- | | | |
|------------------|---------|-------------------|
| a) Crime Kit Box | b) AFIS | c) Digital Camera |
| d) Live Scanner | | |

31.UTTAR PRADESH

NIL

32.WEST BENGAL

- | | | |
|-------------------|---------------|------------------------------|
| a) Detector Light | b) Electronic | c) FP Developing& Taking kit |
| d) Lens | | |

**LIST OF TOPPERS OF ALL INDIA BOARD FOR EXAMINATION OF F.P.
EXPERTS (AIBE) FROM 1963 TO 2019**

Year	No. of Persons Qualified	Name	State
1963	27	Sh. T.A. Jose	CFPB
1964	08	Sh. B.N. Sahai	Bihar
1965	22	Sh. M.N. Sinha	Bihar
1966	27	Sh. K.P. Sinha	Bihar
1967	35	Sh. K. Laxma Reddy	Andhra Pradesh
1968	38	Sh. S.M. Singh Bhalla	Punjab
1969	19	Sh. V. Muthu Karuppan	Madras
1970	27	Sh. D. Narsimha Murthy	Andhra Pradesh
1971	43	Sh. S.J. Pathak & Sh. M.K. Mody (Joint)	Gujarat
1972	30	Sh. P.K. Ghosh	West Bengal
1973	36	Sh. Sisir Chakrabarti	CFPB
1974	48	Miss S.N. Aryambal	Tamil Nadu
1975	39	Sh. P.D. Narkar	Maharashtra
1976	23	Sh. Iqbal Ahmad Usta	Rajasthan
1977	13	Sh. Shuja Shafquat	J&K
1978	99	Sh. K.S. Dhaliwal	CFSL New Delhi
1979	55	Sh. V.P. Sharma	CFPB
1980	70	Sh. Gopal Krishna Mishra	Odisha
1981	62	Sh. B. Venugopal Nair	Kerala
1982	41	Sh. V. Nageswara Rao	Tamil Nadu
1983	48	Sh. T. Jayashankar	Tamil Nadu
1984	61	Sh. R. Rajendran	Kerala
1985	16	Sh. K. Madhusudan & Sh. Pirthipal Singh (Joint)	Kerala & Punjab
1986	68	Sh. Suhas Mitra & Sh. Narayan Prasad (Jt.)	CFPB & Haryana
1987	41	Sh. J.K. Kaushik	Delhi
1988	52	Sh. Amar Pal Verma	Delhi
1989	46	Sh. Nar Singh	Haryana
1990	77	Sh. B. Yeshwant Khedekar	Maharashtra
1991	66	Sh. Ajay Gadkary	CFPB
1992	34	Sh. S.S. Baisoya	CFPB
1993	44	Sh. Mukhtiar Singh	Punjab
1994	36	Mrs. Savita Devi	Odisha
1995	25	Sh. P.K. Mishra	CFPB

1996	26	Sh. Birja Prasad Samal	Odisha
1997	26	Sh. Giri Raju	Karnataka
1998	22	Sh. Darshan Singh	Punjab
1999	42	Smt. Manjit Kaur	Punjab
2000	28	Smt. Harbhajan Kaur	Punjab
2001	38	Sh. Manjeet Kumar Viridi	CFPB
2002	29	Smt. Anita Kadam	Madhya Pradesh
2003	22	Smt. Mousumi Doloi	Odisha
2004	11	Sh. Manoj Kumar	Delhi
2005	22	Sh. K.Jayan	Kerala
2006	37	Sh.Ranbir Singh	Haryana
2007	11	Smt. Neelam,	Haryana
2008	23	Sh. Ram PartapRai	Punjab
2009	37	Sh. S. Arun Kumar	Kerala
2010	21	Sh. Shibhu Raj M.S.	Kerala
2011	42	Smt. M.Hema	Tamil Nadu
2012	21	Sh. V. V. Vivekanandan	Kerala

2014	10	Sh. Rajesh Kumar R.	Kerala
2015	157	Sh. Y. Pavankumar Reddy	Andhra Pradesh
2016	66	Ms. Ruchi Raghuvanshi	M.P.
2017	10	Sh. Ajesh K V	Kerala
2018	112	Sh. Rejani Raj V R	Kerala
2019	41	Sh. Sudheesh K.V	Kerala

Annexure-VII

LIST OF BOOKS ON FINGER PRINT SCIENCE

S. No.	Title of the Book	Author	Year of Publication
I. FUNDAMENTALS OF FINGER PRINTSCIENCE			
1	Fundamentals of Finger Print Analysis	Hillary Moses Daluz	2014
2	Fingerprints: Analysis and Understanding	Mark Hawthorne	2008
3	Fingerprints and Other Ridge Skin Impressions	Christophe Champod, Chris J. Lennard, Pierre Margot, Milutin Stoilovic	2004, 2016 (2 nd edi.)
4	Friction Ridge Skin: Comparison and Identification of Fingerprints	James F. Cowger	1992
5	The Science of Fingerprints	United States. Federal Bureau of Investigation	2015
6	Quantitative-Qualitative Friction Ridge Analysis: An Introduction to Basic and Advanced Ridgeology	David R. Ashbaugh	1999
7.	Finger Print Identification	Surinder Nath	2010
II. ADVANCED FINGER PRINTSCIENCE AND TECHNOLOGY			
8	Lee and Gaensslen's Advances in Finger Print Technology, Third Edition	Robert Ramotowski	2012
9	Finger Print Detection with Lasers, Second Edition	Menzel	1999
10	Finger Print Analysis Laboratory Workbook	Hillary Moses Daluz	2014
11	Touch less Finger Print Biometrics	Ruggero Donida Labati, Vincenzo Piuri, Fabio Scotti	2015
12	Hand Book of Finger Print Recognition	Davide Maltoni, Dario Maio, Anil K. Jain, Salil Prabhakar	2003
13	Automatic Finger Print Recognitions Systems	Nalini Ratha Ruud Bolle	2003
III. CRIME SCENE INVESTIGATION			
14	Hidden Evidence: Forty True Crimes and How Forensic Science Helped Solve Them	David Owen	2003
15	Fisher's Techniques of Crime Scene Investigation First International Edition	William J. Tilstone, Michael L. Hastrup, Camilla Hald	2012
IV. FINGER PRINT BOOKS IN HINDI			
16	हस्तलेखा एवं अंगुलिछाप विज्ञान (Handwriting and Fingerprints Science in Hindi, 5th Edition)	B.L. Babel	2013
17	अंगुलि छाप विज्ञान	S. Siddique	-
18	आधुनिक अंगुलि चिन्ह विज्ञान	Dr. Nishant Singh	2008

**List is suggestive & random; CFPB does not recommend or promote any of the books given in the list.*

Annexure– VIII (c)

DO letter for National Automated Fingerprint Identification System (NAFIS)

CFPB(105)/UPG/11/2019-NCRB
Government of India
Ministry of Home Affairs
National Crime Records Bureau

NH-8, Mahipalpur,
New Delhi-110037
Dated: 09 /07/2019

To,
DGsP,
<< All States/UTs>>

Sir/Madam,

Sub: National Automated Fingerprint Identification System (NAFIS)– Reg.

As you are aware, Central Finger Print Bureau (CFPB) was established vide Government of India notification no. 37/223/55- P.III, dated 5.12.55 and mandated to collect, store and maintain national searchable Finger Print (FP) data base of criminals **to facilitate the identification of interstate criminals and habitual offenders including absconders, notified criminals and offenders under special acts.** Presently, physical FP slips are prepared at PS/district level and sent to CFPB at NCRB through respective State Finger Print Bureaus (SFPBx) for digitization and storage for facilitating inter-state search of criminals. The existing physical movement of FP slips to CFPB is thus quite time consuming and does not meet the real-time expectations of State Police Organizations for inter-state criminal search.

2. National Automated Fingerprint Identification System (NAFIS) has now been conceptualized and will be implemented on the principles of cloud computing model where Finger Print slips will be digitized at district level itself and forwarded to CFPB through hardware and software provided by NCRB. The digital FP slips will be stored in dedicated and virtual partitions allotted to each State/UT in the Central NCRB Server. Only authorized users from States/UTs can edit/modify/update the data stored in the exclusive space allotted to the States/UTs with audit trail. They will however be able to make searches across the data of all the States/UTs for identifying inter-state criminals. This will help investigators in the States/UTs to make searches across national database of FP themselves instead of the present system of requesting NCRB for such searches.

3. For the States/UTs who already have their own NIST compliant AFIS system, NAFIS will provide the required facility to integrate with the National server for replicating the FP data and providing searches.

4. NCRB has recently placed the order for the installation and commissioning of NAFIS. In first phase, hardware such as workstation, Flatbed Scanner, Fingerprint

enrolment device, Single digit Live scanner will be provided to the SFPBx and to the District headquarters. Police stations will be covered in the next phase of the project. NCRB/NAFIS solution provider will install and commission the system at respective SFPBx/District headquarters and also impart training to the concerned staff.

5. In order to create a national level searchable database of FPs, it is essential to digitize the pending physical FP slips in your State in a time bound manner. NAFIS Solution Provider will depute its team to the SFPBx for this purpose shortly. Shri A. Mohan Krishna, Deputy Director (C-III), has been nominated as the Nodal Officer from NCRB and he may be reached at amkrishna@ncrb.nic.in, Mobile: 8527747692, Land line: 011-26735402 for all communications in this regard.

6. It is, therefore, requested to nominate a Nodal Officer from your State/UT to coordinate with NCRB in this regard and his contact details may be shared at an earliest.

Yours sincerely

9/7/19
(Ram Phal Pawar)

Glossary

- ❖ **AMPUTATED-** The removal of a limb or other body extremity by trauma, prolonged constriction or surgery.
- ❖ **ARTIFACT-** Any distortion or alteration not in the original friction ridge impression produced by an external agent or action. 2: Any information not present in the original object or image inadvertently introduced by image capture, processing, compressions, transmission, display, or printing. (SWGFAST 2011)
- ❖ **AUTOMATED FINGER PRINT IDENTIFICATION SYSTEM (AFIS)-** An automated, minutiae-based identification system that may consist of two or more distinct databases comprising two-finger identification records and ten-finger latent cognizant records (records of individuals more likely to be found at crime scenes, for example, burglars). 2: A computer-based system for reading, cataloguing, searching, matching, and storing fingerprints and related data. (ANSI/IAI) 3: A generic term for a Finger Print matching, storage, and retrieval system. (SWGFAST 2011)
- ❖ **ACE-V-** The process for identifying latent fingerprints, which involves Analysis, Comparison, Evaluation, and Verification:
 - a. Analysis is the qualitative and quantitative assessment of Level 1, Level 2, and Level 3 Details to determine proportion, interrelationship, and value for individualization.
 - b. During Comparison, the latent print examiner looks at the attributes noted during analysis for differences and agreement between the latent print and the known exemplar.
 - c. Evaluation follows extensive comparison by making a determination if two impressions were made by the same source, not from the same source, or if the information is inconclusive. (A determination is made as to the results of the Comparison process. The Finger Print community accepts three conclusions: (a) the latent print and known exemplar were made by the same source, (b) the latent print and known exemplar were not made by the same source, or (c) a conclusive comparison could not be determined. This could be due to a lack of comparable area in the known exemplar or lack of clarity due to improperly recorded known exemplars.)
 - d. Verification occurs when a second qualified examiner does an independent assessment of the latent print and known exemplar, utilizing the ACE process.
- ❖ **ALGORITHM-** Mathematical routine used in computer processing. In AFIS processing, the matcher algorithm searches for relationships between the search print and ten-print. 2: Mathematical routine used in computer processing, e.g., an AFIS matching algorithm establishes the correlation of Level 2 Detail between fingerprints. (SWGFAST). 3: A step-by-step computational procedure for solving a problem. The

system computer and other system components use algorithms to make decisions required to process and handle information. (ANSI/IAI)

- ❖ **ANSI/NIST STANDARD-** Standard proposed by NIST and adopted by ANSI. For example, the ANSI/NIST-ITL standard Data Format for the Interchange of Fingerprint, Facial & Other Biometric Information is used by law enforcement, intelligence, military, and homeland security organizations throughout the world. The first version of this standard dates to 1986. Over the years, it has been updated and expanded to cover more biometric modalities beyond the original record type of Finger Print minutiae. (NIST)
- ❖ **BACKGROUND DISTURBANCE / INTERFERENCE-** A feature of the background (such as the texture or pattern) of the substrate (surface) that the mark is left on, which affects the appearance and resultant interpretation of the friction ridge flow or ridge details.
- ❖ **CADAVER-** A deceased person.
- ❖ **CHANCE PRINT OR SCENE OF CRIME PRINT-** means any chance or accidental impression left by friction ridges skin on a surface, regardless of whether it is visible or invisible at the time of deposition.
- ❖ **DISPATCH CHEQUE-**The details in triplicate prepared by the State Bureaux containing Name, Parentage of the convicts and Cheque No., Date and District of Origin of Finger Print Record Slips for forwarding the Finger Print Record Slips to other Bureaux are called Dispatch Cheques /Invoice.
- ❖ **DATABASES-** Collections of data and associated material designed to provide information rather than for archive, which are stored systematically in hard copy or electronic format and are, e.g. used for: providing information on the possible origin of objects or substances found in casework; and/or providing statistical information.
- ❖ **EDGEOSCOPY-** Study of the contour or shape of the edges of friction ridges.
- ❖ **EXPERT (CFPB)-**'Expert' means an officer working in the CFPB having undergone thorough training in classifying, recording & searching of F.P. Slips and examining of latent and documentary prints either in any State Bureau or at the Central Finger Print Bureau and having a Finger Print expert certificate by clearing the All India Board for Examination of Finger Print Experts.
- ❖ **EXEMPLAR-** An impression or image of friction ridge skin purposely collected with the knowledge of the subject. 2: The prints of an individual associated with a known or claimed identity deliberately recorded electronically, by ink, or by another medium (also known as known prints). (SWGFAST 2011)

- ❖ **ELIMINATION FINGERPRINTS** -Finger Print images taken from persons with legitimate access to evidence under examination for latent fingerprint. 2: Exemplars of friction ridge skin detail of persons known to have had legitimate access to an object or location.
- ❖ **GRAY-SCALE IMAGE** -An image using more than two radiometric values, i.e., 256 shades of gray in an 8-bit image. Not a strictly black/white image.
- ❖ **HENRY CLASSIFICATION**- an alphanumeric system of Finger Print classification named after Sir Edward Richard Henry used for filing, searching, and retrieving ten-print records.
- ❖ **FINGER PRINT SLIP FOR RECORD**- The form containing 10-digit rolled impressions and plain prints taken in proper sequence for record with particulars regarding name, parentage, residence, conviction, etc. of a convict is called a Finger Print Slip for record.
- ❖ **FINGER PRINT SLIP FOR SEARCH**- Similar form with 10 digit impressions when used for search to trace previous conviction from the record of the Bureau is called Finger Print slip for search.
- ❖ **INKED FINGER PRINT**- the Intentional recording of the friction ridge skin. Using black printer's ink and a Finger Print roller, the ridge characteristics of a particular individual, can be formally recorded on a standard Finger Print card.
- ❖ **INTERPOL**- Originally the International Police Commission, established in 1923 with the first headquarters in Vienna, Austria. With the General Secretariat now in Lyon, France, Interpol focuses on international crimes that threaten public safety, especially those involving terrorism, criminal organizations, drugs, finances and technology, and trafficking in human beings, and provides fugitive investigative support.
- ❖ **LATENT(Chance print)/LATENT SEARCH**- A search of a latent print against other latent prints, which are usually stored in the Unsolved Latent File, and which has the potential to link crimes committed by same person, even though that person is as yet unidentified. Also referred to as a latent/unsolved latent search.
- ❖ **LIVESCAN**- "Livescan" is an electronic biometric platform for capturing, storing and transmitting friction ridge detail.
- ❖ **MINUTIAE DATA**- The data representing the relative position, orientation, and in some cases, the relationship and/or types of the minutiae in a Finger Print image.

- ❖ **NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY-** Formerly known as the National Bureau of Standards, this division of the U.S. Department of Commerce ensures standardization in non-defense government agencies.
- ❖ **PATTERN CLASSIFICATION-** Characterization of a Finger Print as containing one of seven Finger Print patterns: arch, tented arch, right-slant loop, left-slant loop, whorl, amputation, or scar. The Integrated Automated Finger Print Identification System will provide for both pattern level and Henry classifications.
- ❖ **SCANNER-** Capture device to create a digital image. New scanners that connect to the Finger Print Work stations must meet the standards outlined in Appendix F of the Electronic Biometric Transmission Specification.
- ❖ **TEN-PRINT-** A Finger Print card (or Finger Print card equivalent) containing rolled and plain impressions from the ten fingers of an individual. The standard format contains 14 impressions: one rolled Finger Print impression of each finger, plain Finger Print impressions of each thumb, and plain impressions of the four fingers of each hand simultaneously.
- ❖ **TEN-PRINT IMAGE SEARCHES-** An electronic transaction submitted to the Central/State Finger Print bureau's data base, which contains fingerprint images, classification information as required by the Automated Fingerprint Identification System, or remotely extracted fingerprint characteristics. The subsequent search will be conducted automatically with no additional manual editing or processing. If candidates are identified, the candidates' PIN Numbers are returned to the transmitting agency along with fingerprint images from the highest scoring candidates.

Abbreviations

ACEV- Analysis, Comparison, Evaluation & Verification
ABIS - Automated Biometric Identification System
AFIS - Automated Finger Print Identification System
AIBE All India Board Examination
