FOREWORD

It is indeed my privilege to present the 26th edition of our annual report "Prison Statistics India" for the year 2020. The report contains comprehensive statistics on a range of aspects related to prisons which will be of immense help to all policymakers, researchers, Parliamentarians, national and international stakeholders.

Prisons in earlier times were often seen as places for confining criminals in order to protect the society from crime and criminals. But now the approach towards the prisons has transformed from being retributive in nature to more of restorative where the offenders are treated in a manner so as to assure that the criminality of criminals, and in turn crime, can be removed from society.

NCRB has come a long-way to become the nodal agency to provide statistics related to the prison inmates and prison administration in the country. The data presented in the report not only covers wide range of aspects of prisons ranging from prison population, prison staff to rehabilitation, but it also promotes the implementation of evidence based correction or reformation policies.

I gratefully acknowledge the cooperation and effort extended by Director General/Inspector General of Prisons of States/UTs in timely submission of data to the Bureau despite ongoing pandemic. The timely publication of the report is a crucial aspect in maintaining the reliability and usefulness of the report.

I take this opportunity to commend and appreciate the efforts put in by the Officials and Staff of Statistics Branch of the Bureau in bringing out the report in stipulated time frame.

Like previous years, the report for the year 2020 is being made available in digital format on our website <https://ncrb.gov.in> and it is freely accessible and downloadable.

We look forward to your suggestions and feedback for improvement in the content and quality of the report. A feedback form is attached at the end of the report.

Prisons – Types and Occupancy

Chapter – 1

Prisons – Types and Occupancy

Introduction

Prison administration is an important component of criminal justice system. Prison institutions are known by different names in different countries like 'Correctional Facilities', 'Detention Centre', 'Jails', 'Remand Centre' etc. There is a paradigm shift in social view point towards prisoners in last century. Earlier system of prison with punitive attitude where inmates were forcibly confined and deprived a variety of freedom as a form of punishment has changed with a change in social perception towards prison and prisoners. It is now treated as correction or improvement facility which itself indicates that there is more emphasis on reformation of prisoners than to punish them.

In last few decades, prison population has increased which creates number of challenges before prison administration like security & safety in prison, hygiene issues, overcrowding, etc. In recent years the Supreme Court of India has come down heavily on sub-human conditions existing in prisons especially on overcrowding in prisons. This report contains comprehensive information at the national level on majority of such aspects of these

institutions. This report for the year 2020 is the twenty sixth in the series.

Prisons exist at three levels such as Taluk level, District level and Zonal/Range level and Jails at these levels are called as **Sub Jail, District Jail and Central Jail** respectively. Generally, capacity in terms of infrastructure, available prison staffs & powers vested in them, security, facilities to prisoners such as medical, educational and rehabilitation etc. are progressively better from Sub jail to Central Jail.

Overcrowding refers to the situation in which more inmates are staying than the sanctioned strength. In recent years, it is one of the biggest problems faced by

prison inmates. Overcrowding results in poor hygiene, lack of sleep etc. Keeping in view the human rights of the prisoners, it is essential that they are given reasonable space and facilities in jails.

Occupancy rate is defined as number of inmates staying in jails against

the authorized capacity for 100 inmates. In other words, if occupancy rate of any jail is 100, it means the number inmates are as per authorized capacity of the jail. Overcrowding in jail means occupancy rate is more than 100.

Complaints Received and Disposed off by NHRC and SHRC during 2018-2020 Chart – 10.3

Some good practices adopted and as furnished by States towards setting up of the Grievance Redressal System are discussed below:

1. Andhra Pradesh: Complaint boxes are installed in all prisons which are opened once in a month by the Secretary, State Legal Services Authority. The keys of these complaint boxes are with the Secretary. Prisoners are free to send representations to State Human Rights Commission and

National Human Rights Commission and other Courts. Senior Officers during their visit invariably give a patient hearing to the grievances of the prisoners. Visiting Committees are constituted in many prisons to redress various institutional problems.

2. Kerala: Complaint boxes are deposited in each cell where prisoners can put their complaints. The key of these boxes are kept in District sessions court. The boxes

are taken to Magistrate court in every month and appropriate action is taken as per the merit. The Director General of Prisons & Correctional Services visit jails periodically and collect complaints directly from the inmates.

3. **Rajasthan:** The District & Sessions Judge conducts surprise inspection and hears the grievances of prisoners. Nominated High Court lawyers are conducting surprise inspection and hear the grievances of prisoners. with Deputy Collectors and nominated lawyers visit jails to check the hygiene and other facilities.
4. **Tripura:** There is a grievance redressal system (complaint box) for disposing of grievances in the prisons at the earliest.

IV. Infrastructure Development

1. Andhra Pradesh: Class room has been equipped with proper desks and benches for sitting of the student-inmates instead of the normally followed on-floor sitting arrangement prevalent in similar prisons establishments. Our class room accommodates 60-80 students at a time and such sitting arrangement provides them an actual educational institute's environment where they get a feeling of belonging to their so presumed 'elite educated class of the society' themselves and at the threshold itself find themselves to have been elevated in stature by merely choosing to reform themselves through education.

The class room has been equipped with good quality White-

Board, 55 inch LED T.V., Projector with proper Projector-Screen and Computer System to provide adequate audio-video support to our student-inmates through recorded and online lectures and presentations in addition to the conventional teachings, also show them educational movies and videos which keeps their interest aroused in addition to providing them necessary information.

Managing Central Prisons / District Jails has become a challenge in the modern days due to multifarious activities like, starting of Skill Development cum production units, Petrol bunks, Agricultural activities, Welfare and Cultural activities, prisoners grievances, tightening of security of jails, Reformation and Rehabilitation. In order to have effective administration, one time exemption by relaxing the existing rules was given for providing promotions to the said Chief Head Warders Vide G.O.Rt.No1294, Home (Prisons & Fire), Department, Dated: 29-12-2020.
